This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at `http://books.google.com/`

STATEMENT

OF THE

COURSE OF INSTRUCTION, EXPENSES, &c.

IN

YALE COLLEGE.

Terms of Admission.

Candidates for admission to the Freshman Class, are examined in Cicero's Select Orations, the whole of Virgil, Sallust, Jacobs's, Colton's or Felton's Greek Reader, the first three books of Xenophon's Anabasis, Andrews and Stoddard's or Zumpt's Latin Grammar, Sophocles's, Crosby's or Kühner's Greek Grammar, Andrews's Latin Exercises, Latin Prosody, Thomson's Higher Arithmetic, English Grammar, Geography, and Day's Algebra to Quadratic Equations.*

Candidates for advanced standing, whether from other Colleges or not, in addition to the preparatory studies, are examined in those previously pursued by the classes which they propose to enter. No one can be admitted into the Senior Class after the close of the January vacation.

The regular examination for admission into College, commences on the Monday preceding the public Commencement; but persons may be examined for an advanced standing in any other

* The deficiency of most candidates for admission, in the Latin and Greek Grammars, Latin Prosody and Composition, Geography, and the theoretical part of Arithmetic, makes it necessary to remark, that the examination in these subjects will be strict and comprehensive.

part of the collegiate terms. It is requested that they may not be offered in the vacations, except for very special reasons.

No one can be admitted to the Freshman Class, till he has completed his fourteenth year, nor to an advanced standing without a proportional increase of age.

Testimonials of good moral character are in all cases required; and those who are admitted from other Colleges must produce certificates of dismission in good standing. The students are not considered as regular members of the College, till, after a residence of at least six months, they have been admitted to matriculation, on satisfactory evidence of an unblemished moral character. Before this they are only students on probation. The laws of the College provide for the final separation from the institution of those, who, within a specified time, do not so far approve themselves to the Faculty as to be admitted to matriculation.

Course of Instruction.

The Faculty, to whom are committed the government and instruction of the undergraduate students, consists of a President; a Professor of Chemistry, Mineralogy, and Geology; a Professor of the Latin Language and Literature; a Professor of Divinity; a Professor of Natural Philosophy and Astronomy; a Professor of the Greek Language and Literature; a Professor of Rhetoric and English Literature; a Professor of Mathematics; a Professor of Moral Philosophy and Metaphysics; an Assistant Professor of the Latin Language; an Assistant Professor of the Greek Language; and seven Tutors.

The whole course of instruction occupies four years. In each year there are three terms or sessions.

The three younger classes are divided each into three parts; the Senior Class into two parts. Each of the four classes attends three recitations or lectures in a day; except on Wednesdays and Saturdays, when they have only two. The following scheme gives a general view of the studies pursued in each term:—

FRESHMAN CLASS.

I.
- Lincoln's Livy, begun.
- Roman Antiquities.
- Day's Algebra.
- Homer's Odyssey, begun.

II.
- Livy, continued.
- Homer's Odyssey, continued through six books.
- Algebra, reviewed; Playfair's Euclid, four books.

III.
- Horace, begun.
- Herodotus, begun.
- Euclid, finished.

Parts of the Greek Testament are read during the year.

SOPHOMORE CLASS.

I.
- Horace, continued.
- Herodotus, continued; Xenophon's Memorabilia, two books.
- Day's Mathematics; Nature and Use of Logarithms, Plane Trigonometry, and Mensuration of Superficies and Solids.

II.

- The Alcestis of Euripides.
- Day's Mathematics; Isoperimetry, Mensuration of Heights and Distances, and Navigation.

III.
- The Prometheus of Aeschylus.
- Cicero de Oratore, begun.
- Day's Mathematics; Surveying.
- Bridge's Conic Sections.
- Stanley's Spherical Geometry and Trigonometry.
- Whately's Rhetoric, with the exception of Part IV, on Elocution.

JUNIOR CLASS.

I.
- Cicero de Oratore, continued; Tacitus, Manners of the Germans, and Agricola; the Hercules Furens of Seneca.
- The Antigone of Sophocles; Plato's Gorgias, begun.
- Olmsted's Natural Philosophy; Mechanics, Hydrostatics, Hydraulics.

II.

SENIOR CLASS.

I.
- Astronomy, finished.
- Modern History.
- Reid's Essays, (Walker's edition.)
- Cousin's Psychology.
- Oration of Demosthenes on the Crown.
- Blair's Rhetoric.

II.
- Moral Philosophy.
- Political Philosophy and Law of Nations.
- Paley's Natural Theology.
- Select Latin or Greek; Modern Languages; Practical Astronomy; or Fluxions; } *At the option of the student.*

III.
- Political Economy, Wayland's.
- Evidences of Christianity.

Changes in the Greek and Latin authors recited are sometimes introduced in the latter part of the course; but these changes do not affect the *amount* of Greek and Latin required of those who apply for admission to an advanced standing.

The Kent Professor of Law gives instruction to the Senior Class during the third term.

A short course of Anatomy and Physiology, consisting of about twenty lectures, illustrated by natural and artificial preparations, is given to the Senior Class in the second term.

In addition to the recitations in the books here specified, the classes receive lectures and occasional instruction from the Professors of the Greek and Latin languages; the Junior Class attends a course of experimental lectures on Natural Philosophy; and the Senior Class, courses of lectures on Chemistry, Mineralogy, Geology, Meteorology, Astronomy and History.

The lectures of Professor SILLIMAN on Chemistry, are given daily during the first term, except on Monday which is devoted to review; his lectures on Mineralogy are given in the second term, and those on Geology during the third term. The lectures of Professor OLMSTED, on Experimental Philosophy, commence about the first of December, and are continued at the rate of nearly two a week, during the remainder of the College year. His lectures on Meteorology and Astronomy are given during the second term, concluding about the first of March, when those of Professor KNIGHT on Anatomy addressed to the Senior Class, commence, and occupy the remainder of the term.

In the department of Elocution, the Freshman Class, in several divisions, have during the year recitations and exercises upon the elementary principles of the science, conducted by the Teacher of Elocution; and the Sophomore and Junior Classes, frequent private exercises, preparatory to public declamation in the Chapel before the Professor of Rhetoric and the members of the class.

The members of the several classes attend also the private exercises and lectures of the Professor of Rhetoric. A course of lectures is delivered to the Senior Class, on the Oration of Demosthenes on the Crown. The Senior Class have exercises

twice a week in English composition; the Senior and Junior classes twice a week in forensic disputation; the Sophomore Class once a week in English composition; the Freshman Class once a week in written translation from the Latin. The Junior, Sophomore and Freshman Classes are also instructed in Latin composition.

Students, who desire instruction in the modern languages, may receive it, at their own expense, from competent teachers, engaged for the purpose by the Faculty.

The object of the system of instruction to the undergraduates in the College, is not to give a *partial* education, consisting of a few branches only; nor on the other hand, to give a *superficial* education, containing a little of almost every thing; nor to *finish* the details of either a professional or a practical education; but to *commence* a *thorough* course, and to carry it as far as the time of the student's residence here will allow. It is intended to maintain such a proportion between the different branches of literature and science, as to form a proper *symmetry* and *balance* of character. In laying the foundation of a thorough education, it is necessary that *all* the important faculties be brought into exercise. When certain mental endowments receive a much higher culture than others, there is a distortion in the intellectual character. The powers of the mind are not developed in their fairest proportions by studying languages alone, or mathematics alone, or natural or political science alone. The object, in the proper collegiate department, is not to teach that which is peculiar to any one of the *professions;* but to lay the foundation which is common to them all. There are separate schools of Theology, Law and Medicine, connected with the College, as well as in various parts of the country, which are open to all who are prepared to enter on professional studies. With these the undergraduate course is not intended to interfere. It contains those subjects only which ought to be understood by every one who aims at a thorough education. The principles of science and literature are the common foundation of all high intellectual attainments. They give that furniture, and discipline, and elevation to the mind, which are the best preparation for the study of a profession, or of the ope-

rations which are peculiar to the higher mercantile, manufacturing, or agricultural establishments.

For a more particular view of the plan of education in the College, see Reports on the Course of Instruction, published in Vol. XV, of the American Journal of Science.

Public examinations of the classes are held at the close of each term on the studies of the term; and twice in the College course, at the close of the Sophomore and Senior years, on the studies of the two preceding years.

The public Commencement is held on the last Thursday in July of each year. The first term begins seven weeks from the day before Commencement and continues fourteen weeks; the second begins on the first Wednesday in January and continues fourteen weeks; the third, of twelve weeks, begins on the first Wednesday in May and continues till Commencement. The intervening periods of seven, two, and three, or as the case may be, four weeks, are assigned for vacations. The first term of the current year closes Tuesday, Dec. 24th, 1850; the second term opens Wednesday, Jan. 8th, 1851, and closes Tuesday, April 15th; the third term opens Wednesday, May 7th, and closes at Commencement, Thursday, July 31st. The first term of the ensuing year will open Wednesday, Sept. 17th, 1851.

No student is allowed to be absent, without special leave, except in vacations. The absence of a student in term time, even for a few days, occasions a much greater injury than is commonly supposed by parents or guardians. During the vacations, on the contrary, parents are earnestly advised not to allow their sons to remain at the College.

Public Worship.

Prayers are attended in the College Chapel every morning and evening, with the reading of the Scriptures; when one of the Faculty officiates, and all the students are required to be present. They are also required to attend public worship in the Chapel on the Sabbath, except such as have permission to attend the worship of other denominations in town, to which their parents belong.

Expenses.

The College bills are made out by the Treasurer three times a year, at the close of each term; and are delivered to the students, who are required to present them to their parents, guardians, or patrons. The bills are payable at the close of the term, and if not paid by the expiration of one week after the commencement of the succeeding term, the student is liable to be prohibited from reciting.

The annual charges in the Treasurer's bill are,

For tuition, - - - - - - -	$33 00
For rent of half chamber in College, 7½ to 16½ dollars—average, - - - - -	12 00
For ordinary repairs and contingencies, -	2 40
For general damages, sweeping, &c. about	3 60
For expenses of recitation rooms, - -	3 00
	$54 00

Besides this, the student pays for damages done by himself, for tuition in optional studies during part of Junior and Senior years, and a few additional charges on graduating.

Any person admitted to an advanced standing, unless coming from another College, pays a sum to the Treasurer, equal to half the tuition money, which has been paid by others of the class which he enters.

Notes of the several incorporated banks in this State, and such other notes as are taken by the banks in the city of New Haven, are received in payment of the bills. Drafts on Boston, New York or Philadelphia, may be transmitted direct to the Treasurer.

Board is obtained at prices varying from $1 60 to $3 00. To a majority of the students the cost of board is not above $2 00 a week. Fuel is procured by the Corporation and distributed to those students who apply for it, at cost and charges, and must be paid for at the time of ordering.

No students are permitted to take lodgings in town, except when the rooms in College are not sufficient to accommodate all.

The students provide for themselves bed and bedding, furniture for their rooms, lights, books, stationery and washing. There are also, in the several classes and literary societies, taxes of a small amount. If books and furniture are sold, when the student has no further necessity for them, the expenses incurred by their use will not be great.

The following may be considered as a near estimate of the *necessary* expenses, without including apparel, pocket money, traveling, and board in vacations:

Treasurer's bill as above, - -	$54	$54
Board, 40 weeks, - - - -	from 64 to	90
Fuel and lights, - - - -	" 6 "	15
Use of books recited, and stationery,	" 5 "	15
Use of furniture, bed and bedding,	" 5 "	15
Washing, - - - - - -	" 10 "	18
Taxes in the Societies, &c. - -	" 6 "	8
Total,	$150 to	$215

Students who occupy the recitation rooms, save their room rent and fuel in winter, and receive a small compensation in summer. Cheap board may be obtained in clubs, by those students who wish board at a lower rate than is common in boarding houses.

Indigent students are supplied with most of the text-books, without expense, from the Benevolent and Education Libraries.

A sum somewhat exceeding two thousand dollars, derived chiefly from permanent charitable funds, is annually applied by the Corporation for the relief of indigent students, who to the number of about one hundred have their tuition either wholly or in part remitted.

With regard to apparel, and what is called pocket money, no general estimate can be made. These are the articles in which the expenses of individuals differ most; and in which some are unwarrantably extravagant. There is nothing by which the character and scholarship of the students in this College are more endangered, than by a free indulgence in the use of money. Great caution with regard to this is requisite on the part of parents. What is more than sufficient to defray the ordinary expenses,

will expose the student to numerous temptations; and will not contribute either to his respectability or happiness.

As a precaution against extravagance, parents at a distance frequently deposit funds with some one of the Faculty; who, in that case, pays a particular attention to the pecuniary concerns of the student, settles his bills, corresponds with the parent, transmits an account of the expenditures, &c., for which he charges a commission.

Scholarships and Premiums.

The Berkeley Scholarship, yielding about forty-six dollars a year, is awarded to the student in each Senior Class, who passes the best examination in the Greek Testament, Xenophon's Cyropædia, and Homer's Iliad, Cicero's Tusculan Questions, Tacitus (except the Annals,) and Horace; provided he remains in New Haven as a graduate one, two or three years.

The Clark Scholarship, yielding a hundred and twenty dollars a year, is awarded to the student in each Senior Class, who passes the best examination on the studies of the College course; provided he remains in New Haven as a graduate one or two years, pursuing a course of study (not professional) under the direction of the Faculty.

The Bristed Scholarship, yielding about eighty dollars a year, is awarded to the student in the Sophomore or Junior Class, whenever there may be a vacancy, who passes the best examination in the Greek and Latin classics and the mathematics. The successful candidate receives the annuity, (forfeiting one-third in case of non-residence in New Haven,) until he would regularly take his second degree.

A Scholarship, yielding sixty dollars a year, is awarded to the student in each Freshman Class, who passes the best examination in Latin composition (excellence in which is essential to success), in the Greek of the year, and in the solution of algebraic problems. The successful candidate enjoys the annuity under certain conditions during the four years of his College course.

The examination for the Berkeley Scholarship is held at 10 o'clock A. M. on the last Monday of the second term; for the

Clark Scholarship, about the first of July; for the Bristed Scholarship and the Scholarship for the Freshman Class, early in the third term.

The Townsend Premiums, five in number, each of twelve dollars, are awarded in the Senior Class for the best specimens of English composition.

In the other classes premiums are also given for Latin and English composition, for translations from the Classics, and for solutions of mathematical problems.

The Theological Department.

The Instructors in this Department are a Professor of Didactic Theology, a Professor of Sacred Literature, the Professor of Divinity in the College, and a Professor of the Pastoral Charge.

The time of admission is at the beginning of the collegiate year. It is desirable that those who join this Department should be present at the commencement of the first term. Those admitted to an advanced standing will be expected to have previously gone over the studies pursued by their respective classes.

The conditions for entrance are hopeful piety, and a liberal education at some College, or such other literary acquisition as may be considered an equivalent preparation for theological studies.

The terms and vacations are the same with those in the College.

The regular course of instruction occupies three years, and comprises the following subjects:

Junior Class.—Hebrew Grammar, (Roediger's Gesenius, translated by Conant,) Conant's Hebrew Exercises and Chrestomathy, Principles of Sacred Criticism and Hermeneutics, Critical and Exegetical study of the Hebrew and Greek Scriptures, Critical and Exegetical Dissertations, Lectures by the Professor of Sacred Literature on some topics in Introduction to Theology, and in Exegetical Theology, Lectures by the Professor of Didactic Theology on Mental Philosophy including the Will.

MIDDLE CLASS.—Lectures by the Professor of Didactic Theology, on Moral Philosophy, Moral Government, Natural Theology, Necessity and Evidences of Revelation, and Systematic Theology. Exegetical study of the Scriptures and Dissertations continued.

SENIOR CLASS.—Lectures on the Structure and Composition of Sermons, and on Public Prayer. Criticism of Skeletons and of Sermons, Exercises in Extemporaneous Speaking and Preaching before the Class, Lectures on the Pastoral Charge, on Revivals of Religion, on the History of Modern Missions, and on Expository Preaching, Lectures on Elocution attended by Practice in the Delivery of Sermons.

There are weekly Debates in the Rhetorical Society, at which the Professor of Didactic Theology presides and in which the members of all the Classes participate.

The students have access to the College Library, and to the libraries of the several literary Societies in the College.

A building has been erected for the accommodation of students in which the rooms are free of rent; but each occupant is subject to a charge of $3,50 a year for incidental expenses. No other charges are made to the students.

No funds have as yet been granted to this department for defraying the expenses of indigent students. In addition to the usual aid which may be derived from the American Education Society, there is an Association in this city whose object it is to assist those who are here preparing for the Ministry.

The Law Department.

THIS Department is under the direction of a Faculty, consisting of the President of the College, and two Law Professors, to wit, Hon. CLARK BISSELL, LL. D., late Judge of the Supreme Court of the State; and Hon. HENRY DUTTON, late Judge of the New Haven County Court.

COURSE OF INSTRUCTION.

The students are required to peruse the most important elementary treatises, and are daily examined on the author they are reading, and receive at the same time explanations and illustrations of the subjects they are studying.

The School is divided into three reading classes. Each class is daily employed upon a lesson in the Class Book, and is separately examined, and every student can read in one or more of the three classes, as he finds himself able and inclined to perform the requisite labor.

Courses of Lectures are delivered by the Instructors, on all the titles and subjects of Common and Statute Law, and of Equity.

Three exercises, consisting of Lectures or Examinations of one hour each, are daily given by the Instructors, and at all of them each of the pupils is permitted to attend.

A moot court is held once a week or oftener, which employs the students in drawing pleadings, and investigating and arguing questions of law.

The students are called upon, from time to time, to draw declarations, pleadings, contracts, and other instruments connected with the practice of law, and to do the most important duties of an attorney's clerk.

They are occasionally required to write disquisitions on some topic of law, and collect the authorities to support their opinions.

The more advanced students are assisted in the study of the laws of the particular States in which they intend to establish themselves.

The following are some of the principal studies of the course: Blackstone's Commentaries; Real Estate; Personal Property; Contracts; Domestic Relations; Parties to Actions; Forms of Actions; Pleading; Evidence; Nisi Prius; Bills of Exchange and Promissory Notes; Insurance; Shipping; Corporations; Criminal Law; Equity; Constitution of the United States; Law of Nations; Conflict of Laws.

The students are furnished with the use of the elementary books, and have access, at all times, to the College libraries, and to a law library, comprising every important work, both ancient and modern. The law library contains the Revised Statutes, the Reports and the Digests of all the States in the Union.

The course of study occupies two years, allowing eight weeks vacation each year. The months of May and September are allotted for vacations. There is also a recess of about two weeks near the first of January in each year.

The terms for tuition, with constant use of text-books, and ordinary use of the library, are as follows, payable in advance, unless for satisfactory reasons. For the whole course of two years, one hundred and fifty dollars. For one year, eighty dollars. For less than one year, ten dollars a month. For more than one year and less than two years, seven dollars a month after the first year.

The degree of Bachelor of Laws will be conferred by the President and Fellows, on liberally educated students who have been members of the Department eighteen months, and have complied with the regulations of the Institution, and passed a satisfactory examination. Those not liberally educated, will be graduated upon similar conditions, after two years' membership; and members of the Bar, after one year's membership subsequent to their admission to the Bar.

The Medical Department.

The Instructors in the Medical Institution, are a Professor of Chemistry and Pharmacy, a Professor of the Theory and Practice of Physic, a Professor of Surgery, a Professor of Obstetrics, a Professor of Anatomy and Physiology, and a Professor of Materia Medica and Therapeutics.

The annual course of lectures commences on the last Thursday of September, and continues sixteen weeks. The lectures are so arranged, that at least five are given daily, and a part of the time six.

A Medical and Surgical Clinique is held every week, during the lecture term, at which a variety of cases is presented, for consultation and operations, in presence of the class.

The fees, which are required in advance, are $12,50 for each course, except that on Obstetrics, which is $6, with a Matriculation fee of $5—the whole amounting to $73,50. The tickets of all the Professors, or a part, may be taken any one season. Those who have attended two full courses of Lectures in this Institution, are entitled to admission to future courses gratis. Those who have attended one full course in this Institution, and also one full course in another incorporated Medical Institution, will be admitted to a full course on paying the Matriculation fee. Board, with room, &c., may be obtained at from $2,25 to $3 per week.

The students are entitled to gratuitous admission to the course of Lectures on Anatomy and Physiology, given to the Senior Class, by Professor KNIGHT, during the spring term in the Academical Institution, and to the courses by Professor SILLIMAN, on Mineralogy, during the spring, and on Geology, during the summer. They also have admission to the various other Lectures in the Academical Institution, on paying the fees of the several courses.

The Medical College building is spacious and commodious. The Anatomical Museum, already one of the most valuable in the country, is annually receiving important additions. The arrangements for Dissections are ample, and subjects are supplied on the most reasonable terms. The Anatomical rooms, the Cabinet of the Materia Medica, the Museum of the Yale Natural History Society, the Cabinet of Minerals, and the Libraries of the Medical and Academical Institutions, are all open to students.

By the Statutes of the State, the requirements for the Degree of Doctor in Medicine are three years' study for those who are not Bachelors of Arts, and two years' for those who are; attendance upon two full courses of Lectures, either in this Institution, or some other of a similar character; the attainment of twenty one years of age, and a good moral character; together with a

satisfactory examination before the Board of Examiners for the State, at which the candidate must present a dissertation upon some subject connected with the Medical Sciences, written in a form prescribed by the Faculty. This Board consists of the Medical Professors of the College, *ex officiis*, and an equal number of persons chosen by the Fellows of the Medical Society of the State. Licenses to practice are granted by the President of the Society, upon the recommendation of the Board of Examiners, and candidates for a license must possess the same qualifications as those for a degree, except that attendance upon one course of Lectures only is required. The graduation fee is $15 —fee for a license, including diploma, $4,50. The examination is held immediately after the close of the Lectures, when the licenses are granted and the degrees conferred.

Department of Philosophy and the Arts.

It has long been felt at Yale College to be important to furnish resident graduates and others, with the opportunity of devoting themselves to special branches of study either not provided for at present, or not pursued as far as individual students may desire. With the hope of accomplishing this object more fully and systematically, the Corporation at their meeting in August, 1846, appointed a Committee to take this subject into consideration, and in accordance with the report of the Committee, at thejr next meeting in August, 1847, established a new department, called the Department of Philosophy and the Arts. The branches intended to be embraced in this department are such in general as are not included under Theology, Law and Medicine; or more particularly, Mathematical Science, Physical Science and its application to the Arts, Metaphysics, Philology, Literature and History. Instruction in this department may be given by professors not belonging to the other departments, by the Academical professors, and by such others as the President and Fellows may approve. The Instructors for the year, with the Presi-

dent, compose the Faculty of the department. The instructions in the department are intended for graduates of this and other Colleges, and for such other young men as are desirous of pursuing special branches of study; but it is necessary for all students in philology and mathematical science, that they be thoroughly grounded in those studies.

A School of applied Chemistry is embraced within this department, of which a more particular notice may be found below. For the terms of entrance upon the several courses in the department, application may be made to the several instructors.

President WOOLSEY will instruct twice a week in Thucydides or Pindar.

Professor SILLIMAN'S lectures on Chemistry, Mineralogy and Geology, will be open to the students of this department.

Professor KINGSLEY will instruct twice a week in such Latin author as may be agreed upon with the student.

Professor GIBBS proposes to give lectures on some points of general Philology.

Professor OLMSTED'S lectures on Natural Philosophy and Astronomy will be open to the students of this department. He will also, if desired, give private instruction in Experimental Philosophy, and Astronomical Calculations.

Professor STANLEY proposes to instruct in the Calculus or Analytical Mechanics.

Professor PORTER will instruct in Psychology, Logic and the History of Philosophy.

Professor SILLIMAN, Jr., will instruct in Elementary and Analytical Chemistry, Mineralogy and Metallurgy.

Professor NORTON will instruct in the applications of science to Agriculture and in Analytical Chemistry.

SCHOOL OF APPLIED CHEMISTRY.

Professors SILLIMAN and NORTON, have opened a Laboratory on the College grounds, in connection with their departments, for the purpose of practical instruction in the applications of science to the arts and agriculture. Every facility will be afforded to

those who desire to obtain special instruction in general and in analytical Chemistry and Mineralogy.

A course of lectures on the connections of science with Agriculture, by Professor NORTON, will commence in January and continue about two months and a half, at the rate of four lectures in each week.

Mr. Henry Wurtz, the first assistant, proposes to deliver lectures on certain points of Chemistry applied to the arts, during the summer term.

Professor SILLIMAN, Jr., proposes to instruct in Mineralogy and applied Chemistry during the summer term.

A mineralogical cabinet is deposited in the Laboratory for the use of students in this department; they will also have access to to the College mineralogical and geological cabinets and to the libraries.

The text-books used will be Dana's Mineralogy, Silliman's Chemistry, Fresenius's Analysis, Will's Outlines, Rose's Chemical Analysis.

The lectures on Chemistry by Professor SILLIMAN, Senior, commence the first week of the first term, and continue through the term. His lectures on Mineralogy are delivered during the second term, and those on Geology commence the first week of the third term and continue six weeks. The lectures of Professor OLMSTED, on Natural Philosophy, commence about the middle of the first term, and continue at the rate of two a week nearly through the year. His lectures on Astronomy and Meteorology, commence at the beginning of the second term, and continue, daily, for about seven weeks.

YALE COLLEGE.

Academical Department.

TERMS OF ADMISSION.

Candidates for admission to the Freshman Class, are examined in Cicero's Select Orations, the whole of Virgil, Sallust, Jacobs's, Colton's or Felton's Greek Reader, the first three books of Xenophon's Anabasis, Andrews and Stoddard's or Zumpt's Latin Grammar, Sophocles's, Crosby's or Kühner's Greek Grammar, Arnold's Latin Prose Composition, first XII Chapters, to the Passive voice, Latin Prosody, Thomson's Higher Arithmetic, English Grammar, Geography, and Day's Algebra to Quadratic Equations.*

Candidates for advanced standing, whether from other Colleges or not, in addition to the preparatory studies, are examined in those previously pursued by the classes which they propose to enter. No one can be admitted into the Senior Class, after the close of the January vacation.

The regular examination for admission into College, commences on the Monday preceding the public Commencement; but

* The deficiency of most candidates for admission, in the Latin and Greek Grammars, Latin Prosody and Composition, Geography, and the theoretical part of Arithmetic, makes it necessary to remark, that the examination in these subjects will be strict and comprehensive.

persons may be examined for an advanced standing in any other part of the collegiate terms. It is requested that they may not be offered in the vacations, except for very special reasons.

No one can be admitted to the Freshman Class, till he has completed his fourteenth year, nor to an advanced standing without a proportional increase of age.

Testimonials of good moral character are in all cases required; and those who are admitted from other Colleges must produce certificates of dismission in good standing. The students are not considered as regular members of the College, till, after a residence of at least six months, they have been admitted to matriculation, on satisfactory evidence of an unblemished moral character. Before this they are only students on probation. The laws of the College provide for the final separation from the institution of those, who, within a specified time, do not so far approve themselves to the Faculty as to be admitted to matriculation.

COURSE OF INSTRUCTION.

The Faculty, to whom are committed the government and instruction of the undergraduate students, consists of a President; a Professor of Chemistry, Mineralogy, and Geology; a Professor of Divinity; a Professor of Natural Philosophy and Astronomy; a Professor of Rhetoric and English Literature; a Professor of Mathematics; a Professor of Moral Philosophy and Metaphysics; a Professor of the Latin Language and Literature; a Professor of the Greek Language and Literature; and eight Tutors.

The whole course of instruction occupies four years. In each year there are three terms or sessions.

The three younger classes are divided each into three parts; the Senior Class into two parts. Each of the four classes attends three recitations or lectures in a day; except on Wednesdays and Saturdays, when they have only two. The following scheme gives a general view of the studies pursued in each term:—

FRESHMAN CLASS.

I.
- Lincoln's Livy, begun.
- Roman Antiquities.
- Day's Algebra.
- Homer's Iliad, begun.

II.
- Livy, continued.
- Homer's Iliad, continued through six books.
- Playfair's Euclid, four books.

III.
- Horace, begun.
- Herodotus, begun.
- Euclid, finished.

Parts of the Greek Testament are read during the year.

SOPHOMORE CLASS.

I.
- Horace, continued.
- Herodotus, continued; Xenophon's Memorabilia, two books.
- Day's Mathematics; Nature and Use of Logarithms, Plane Trigonometry, and Mensuration of Superficies and Solids.
- Loomis's Analytical Geometry.

II.
- Horace, finished; Cicero de Amicitia and de Senectute.
- The Alcestis of Euripides.
- Day's Mathematics; Isoperimetry, Mensuration of Heights and Distances, and Navigation.
- Loomis's Differential and Integral Calculus.

III.
- The Prometheus of Aeschylus.
- Cicero de Oratore, begun.
- Day's Mathematics; Surveying.
- Differential and Integral Calculus.
- Stanley's Spherical Geometry and Trigonometry.
- Whately's Rhetoric, with the exception of Part IV, on Elocution.

JUNIOR CLASS.

I.
- Cicero de Oratore, continued; Tacitus, Manners of the Germans, and Agricola; the Hercules Furens of Seneca.
- The Antigone of Sophocles; Plato's Gorgias, begun.
- Olmsted's Natural Philosophy; Mechanics, Hydrostatics, Hydraulics.

II.
- Tacitus, continued; the History.
- Plato's Gorgias, finished.
- Natural Philosophy; Pneumatics, Acoustics, Electricity, Magnetism.

III.
- Natural Philosophy; Optics.
- Olmsted's Astronomy, to the Planets.
- Whately's Logic.
- Ancient History.
- Practical Surveying; Select Greek; Hebrew; or Modern Languages; *At the option of the student.*

SENIOR CLASS.

I.
- Astronomy, finished.
- Modern History.
- Reid's Essays. (Walker's edition.)
- Cousin's Psychology.
- Oration of Demosthenes on the Crown.
- Blair's Rhetoric.

II.
- Moral Philosophy.
- Political Philosophy and Law of Nations.
- Paley's Natural Theology
- Select Latin or Greek; Modern Languages; Practical Astronomy; *At the option of the student.*

III.
- Political Economy, Wayland's.
- Evidences of Christianity.

Changes in the Greek and Latin authors recited are sometimes introduced in the latter part of the course; but these changes do not affect the *amount* of Greek and Latin required of those who apply for admission to an advanced standing.

The Kent Professor of Law gives instruction to the Senior Class during the third term.

A short course of Anatomy and Physiology, consisting of about twenty lectures, illustrated by natural and artificial preparations, is given to the Senior Class in the second term.

In addition to the recitations in the books here specified, the classes receive lectures and instruction from the Professors of the Greek and Latin languages; the Junior Class attends a course of experimental lectures on Natural Philosophy; and the Senior Class, courses of lectures on Chemistry, Mineralogy, Geology, Meteorology, Astronomy and History.

The lectures of Professor SILLIMAN on Chemistry, are given during the first term; those on Mineralogy during the first or second term, and those on Geology during the third term. The lectures of Professor OLMSTED, on Experimental Philosophy, addressed to the Junior Class, commence the third Tuesday of November, and are continued nearly at the rate of two a week, during the remainder of the College year. His lectures on Meteorology and Astronomy to the Senior Class, commence with the second term, and are continued daily to near the middle of the term, when those of Professor KNIGHT on Anatomy begin, and occupy the remainder of the term.

In the department of Elocution, the Freshman Class, in several divisions, have during the year recitations and exercises upon the elementary principles of the science, conducted by the Teacher of Elocution; and the Sophomore and Junior Classes, frequent private exercises, preparatory to public declamation in the Chapel before the Professor of Rhetoric and the members of the class.

The members of the several classes attend also the private exercises and lectures of the Professor of Rhetoric. A course of lectures is delivered to the Senior Class, on the Oration of Demosthenes on the Crown. The Senior Class have exercises

twice a week in English composition; the Senior and Junior classes twice a week in forensic disputation; the Sophomore Class once a week in English composition; the Freshman Class once a week in written translation from the Latin. The Junior, Sophomore and Freshman Classes are also instructed in Latin composition.

Students, who desire instruction in the modern languages, may receive it, at their own expense, from competent teachers, engaged for the purpose by the Faculty.

The object of the system of instruction to the undergraduates in the College, is not to give a *partial* education, consisting of a few branches only; nor on the other hand, to give a *superficial* education, containing a little of almost every thing; nor to *finish* the details of either a professional or a practical education; but to *commence* a *thorough* course, and to carry it as far as the time of the student's residence here will allow. It is intended to maintain such a proportion between the different branches of literature and science, as to form a proper *symmetry* and *balance* of character. In laying the foundation of a thorough education, it is necessary that *all* the important faculties be brought into exercise. When certain mental endowments receive a much higher culture than others, there is a distortion in the intellectual character. The powers of the mind are not developed in their fairest proportions by studying languages alone, or mathematics alone, or natural or political science alone. The object, in the proper collegiate department, is not to teach that which is peculiar to any one of the *professions;* but to lay the foundation which is common to them all. There are separate schools of Theology, Law and Medicine, connected with the College, as well as in various parts of the country, which are open to all who are prepared to enter on professional studies. With these the undergraduate course is not intended to interfere. It contains those subjects only which ought to be understood by every one who aims at a thorough education. The principles of science and literature are the common foundation of all high intellectual attainments. They give that furniture, and discipline, and elevation to the mind, which are the best preparation for the study of a profession, or of the ope-

rations which are peculiar to the higher mercantile, manufacturing, or agricultural establishments.

For a more particular view of the plan of education in the College, see Reports on the Course of Instruction, published in Vol. XV, of the American Journal of Science.

Public examinations of the classes are held at the close of each term on the studies of the term; and twice in the College course, at the close of the Sophomore and Senior years, on the studies of the two preceding years.

The public Commencement is held on the last Thursday in July of each year. The first term begins seven weeks from the day before Commencement and continues fourteen weeks; the second begins on the first Wednesday in January and continues fourteen weeks; the third, of twelve weeks, begins on the first Wednesday in May and continues till Commencement. The intervening periods of seven, two, and three, or as the case may be, four weeks, are assigned for vacations.

No student is allowed to be absent, without special leave, except in vacations. The absence of a student in term time, even for a few days, occasions a much greater injury than is commonly supposed by parents or guardians. During the vacations, on the contrary, parents are earnestly advised not to allow their sons to remain at the College.

PUBLIC WORSHIP.

Prayers are attended in the College Chapel every morning and evening, with the reading of the Scriptures; when one of the Faculty officiates, and all the students are required to be present. They are also required to attend public worship in the Chapel on the Sabbath, except such as have permission to attend the worship of other denominations in town, to which their parents belong.

EXPENSES.

The College bills are made out by the Treasurer three times a year, at the close of each term; and are delivered to the students, who are required to present them to their parents, guardians, or patrons. The bills are payable at the close of the term, and if not paid by the expiration of one week after the commencement of the succeeding term, the student is liable to be prohibited from reciting.

The annual charges in the Treasurer's bill are,

For tuition, - - - - - - - -	$33 00
For rent of half chamber in College, 7½ to 16½ dollars—average, - - - - -	12 00
For ordinary repairs and contingencies, -	2 40
For general damages, sweeping, &c. about	3 60
For expenses of recitation rooms, - -	3 00
	$54 00

Besides this, the student pays for damages done by himself, for tuition in optional studies during part of Junior and Senior years, and a few additional charges on graduating.

Any person admitted to an advanced standing, unless coming from another College, pays a sum to the Treasurer, equal to half the tuition money, which has been paid by others of the class which he enters.

Notes of the several incorporated banks in this State, and such other notes as are taken by the banks in the city of New Haven, are received in payment of the bills. Drafts on Boston, New York or Philadelphia, may be transmitted direct to the Treasurer.

Board is obtained at prices varying from $1 60 to $3 00. To a majority of the students the cost of board is not above $2 00 a week. Fuel is procured by the Corporation and distributed to those students who apply for it, at cost and charges, and must be paid for at the time of ordering.

No students are permitted to take lodgings in town, except when the rooms in College are not sufficient to accommodate all.

The students provide for themselves bed and bedding, furniture for their rooms, lights, books, stationery and washing. There are also, in the several classes and literary societies, taxes of a small amount. If books and furniture are sold, when the student has no further necessity for them, the expenses incurred by their use will not be great.

The following may be considered as a near estimate of the *necessary* expenses, without including apparel, pocket money, traveling, and board in vacations:

Treasurer's bill as above, - -		$54	$54
Board, 40 weeks, - - - -	from	64 to	100
Fuel and lights, - - - -	"	6 "	15
Use of books recited, and stationery,	"	5 "	15
Use of furniture, bed and bedding,	"	5 "	15
Washing, - - - - - -	"	10 "	18
Taxes in the Societies, &c. - -	"	6 "	8
Total,		$150 to	$225

Students who occupy the recitation rooms, save their room rent and fuel in winter, and receive a small compensation in summer. Cheap board may be obtained in clubs, by those students who wish board at a lower rate than is common in boarding houses.

Indigent students are supplied with most of the text-books, without expense, from the Benevolent and Education Libraries.

A sum somewhat exceeding two thousand dollars, derived chiefly from permanent charitable funds, is annually applied by the Corporation for the relief of indigent students, who to the number of about one hundred have their tuition either wholly or in part remitted.

With regard to apparel, and what is called pocket money, no general estimate can be made. These are the articles in which the expenses of individuals differ most; and in which some are unwarrantably extravagant. There is nothing by which the character and scholarship of the students in this College are more endangered, than by a free indulgence in the use of money. Great caution with regard to this is requisite on the part of parents. What is more than sufficient to defray the ordinary expenses,

will expose the student to numerous temptations; and will not contribute either to his respectability or happiness.

As a precaution against extravagance, parents at a distance frequently deposit funds with some one of the Faculty; who, in that case, pays a particular attention to the pecuniary concerns of the student, settles his bills, corresponds with the parent, transmits an account of the expenditures, &c., for which he charges a commission.

SCHOLARSHIPS AND PREMIUMS.

The Berkeley Scholarship, yielding about forty-six dollars a year, is awarded to the student in each Senior Class, who passes the best examination in the Greek Testament, Xenophon's Cyropædia, and Homer's Iliad, Cicero's Tusculan Questions, Tacitus (except the Annals,) and Horace; provided he remains in New Haven as a graduate one, two or three years.

The Clark Scholarship, yielding a hundred and twenty dollars a year, is awarded to the student in each Senior Class, who passes the best examination on the studies of the College course; provided he remains in New Haven as a graduate one or two years, pursuing a course of study (not professional) under the direction of the Faculty.

The Bristed Scholarship, yielding about eighty dollars a year, is awarded to the student in the Sophomore or Junior Class, whenever there may be a vacancy, who passes the best examination in the Greek and Latin classics and the mathematics. The successful candidate receives the annuity, (forfeiting one-third in case of non-residence in New Haven,) until he would regularly take his second degree.

A Scholarship, yielding sixty dollars a year, is awarded to the student in each Freshman Class, who passes the best examination in Latin composition (excellence in which is essential to success), in the Greek of the year, and in the solution of algebraic problems. The successful candidate enjoys the annuity under certain conditions during the four years of his College course.

The Townsend Premiums, five in number, each of twelve dollars, are awarded in the Senior Class for the best specimens of English composition.

In the other classes premiums are also given for Latin and English composition, for translations from the Classics, and for solutions of mathematical problems.

Theological Department.

THE Instructors in this Department are a Professor of Didactic Theology, a Professor of Sacred Literature, the Professor of Divinity in the College, and a Professor of the Pastoral Charge.

The time of admission is at the beginning of the collegiate year. It is desirable that those who join this Department should be present at the commencement of the first term. Those admitted to an advanced standing will be expected to have previously gone over the studies pursued by their respective classes.

The conditions for entrance are hopeful piety, and a liberal education at some College, or such other literary acquisition as may be considered an equivalent preparation for theological studies.

The terms and vacations are the same with those in the College.

The regular course of instruction occupies three years, and comprises the following subjects:

JUNIOR CLASS.—Hebrew Grammar, (Roediger's Gesenius, translated by Conant,) Conant's Hebrew Exercises and Chrestomathy, Principles of Sacred Criticism and Hermeneutics, Critical and Exegetical study of the Hebrew and Greek Scriptures, Critical and Exegetical Dissertations, Lectures by the Professor of Sacred Literature on some topics in Introduction to Theology, and in Exegetical Theology, Lectures by the Professor of Didactic Theology on Mental Philosophy including the Will.

MIDDLE CLASS.—Lectures by the Professor of Didactic Theology, on Moral Philosophy, Moral Government, Natural Theology, Necessity and Evidences of Revelation, and Systematic Theology. Exegetical study of the Scriptures and Dissertations continued.

Senior Class.—Lectures on the Structure and Composition of Sermons, and on Public Prayer. Criticism of Skeletons and of Sermons, Exercises in Extemporaneous Speaking and Preaching before the Class, Lectures on the Pastoral Charge, on Revivals of Religion, on the History of Modern Missions, and on Expository Preaching, Lectures on Elocution attended by Practice in the Delivery of Sermons.

There are weekly Debates in the Rhetorical Society, at which the Professor of Didactic Theology presides and in which the members of all the Classes participate.

The students have access to the College Library, and to the libraries of the several literary Societies in the College.

A building has been erected for the accommodation of students in which the rooms are free of rent; but each occupant is subject to a charge of $3,50 a year for incidental expenses. No other charges are made to the students.

No funds have as yet been granted to this department for defraying the expenses of indigent students. In addition to the usual aid which may be derived from the American Education Society, there is an Association in this city whose object it is to assist those who are here preparing for the Ministry.

Law Department.

This Department is under the direction of a Faculty, consisting of the President of the College, and two Law Professors, to wit, Hon. Clark Bissell, LL. D., late Judge of the Supreme Court of the State; and Hon. Henry Dutton, late Judge of the New Haven County Court.

COURSE OF INSTRUCTION.

The students are required to peruse the most important elementary treatises, and are daily examined on the author they are reading, and receive at the same time explanations and illustrations of the subjects they are studying.

The School is divided into three reading classes. Each class is daily employed upon a lesson in the Class Book, and is separately examined, and every student can read in one or more of the three classes, as he finds himself able and inclined to perform the requisite labor.

Courses of Lectures are delivered by the Instructors, on all the titles and subjects of Common and Statute Law, and of Equity.

Three exercises, consisting of Lectures or Examinations of one hour each, are daily given by the Instructors, and at all of them each of the pupils is permitted to attend.

A moot court is held once a week or oftener, which employs the students in drawing pleadings, and investigating and arguing questions of law.

The students are called upon, from time to time, to draw declarations, pleadings, contracts, and other instruments connected with the practice of law, and to do the most important duties of an attorney's clerk.

They are occasionally required to write disquisitions on some topic of law, and collect the authorities to support their opinions.

The more advanced students are assisted in the study of the laws of the particular States in which they intend to establish themselves.

The following are some of the principal studies of the course: Blackstone's Commentaries; Real Estate; Personal Property; Contracts; Domestic Relations; Parties to Actions; Forms of Actions; Pleading; Evidence; Nisi Prius; Bills of Exchange and Promissory Notes; Insurance; Shipping; Corporations; Criminal Law; Equity; Constitution of the United States; Law of Nations Conflict of Laws.

The students are furnished with the use of the elementary books, and have access, at all times, to the College libraries, and to a law library, comprising every important work, both ancient and modern. The law library contains the Revised Statutes, the Reports and the Digests of all the States in the Union.

The course of study occupies two years, allowing eight weeks vacation each year. The months of May and September are

now allotted for vacations; but by an arrangement made the present year, the vacations in this Department will hereafter coincide with the Spring and Summer vacations in the Academical Department. There is also a recess of about two weeks near the first of January in each year.

The terms for tuition, with constant use of text-books, and ordinary use of the library, are as follows, payable in advance, unless for satisfactory reasons. For the whole course of two years, one hundred and fifty dollars. For one year, eighty dollars. For less than one year, ten dollars a month. For more than one year and less than two years, seven dollars a month after the first year.

The degree of Bachelor of Laws will be conferred by the President and Fellows, on liberally educated students who have been members of the Department eighteen months, and have complied with the regulations of the Institution, and passed a satisfactory examination. Those not liberally educated, will be graduated upon similar conditions, after two years' membership; and members of the Bar, after one year's membership subsequent to their admission to the Bar.

Medical Department.

The Instructors in the Medical Institution, are a Professor of Chemistry and Pharmacy, a Professor of the Theory and Practice of Physic, a Professor of Surgery, a Professor of Obstetrics, a Professor of Anatomy and Physiology, and a Professor of Materia Medica and Therapeutics.

The annual course of lectures commences on the last Thursday of September, and continues sixteen weeks. The lectures are so arranged, that at least five are given daily, and a part of the time six.

A Medical and Surgical Clinique is held every week, during the lecture term, at which a variety of cases is presented, for consultation and operations, in presence of the class.

The fees, which are required in advance, are $12,50 for each course, except that on Obstetrics, which is $6, with a Matriculation fee of $5—the whole amounting to $73,50. The tickets of all the Professors, or a part, may be taken any one season. Those who have attended two full courses of Lectures in this Institution, are entitled to admission to future courses gratis. Those who have attended one full course in this Institution, and also one full course in another incorporated Medical Institution, will be admitted to a full course on paying the Matriculation fee. Board, with room, &c., may be obtained at from $2,25 to $3 per week.

The students are entitled to gratuitous admission to the course of Lectures on Anatomy and Physiology, given to the Senior Class, by Professor KNIGHT, during the spring term in the Academical Institution, and to the courses by Professor SILLIMAN, on Mineralogy, during the spring, and on Geology, during the summer. They also have admission to the various other Lectures in the Academical Institution, on paying the fees of the several courses.

The Medical College building is spacious and commodious. The Anatomical Museum, already one of the most valuable in the country, is annually receiving important additions. The arrangements for Dissections are ample, and subjects are supplied on the most reasonable terms. The Anatomical rooms, the Cabinet of the Materia Medica, the Museum of the Yale Natural History Society, the Cabinet of Minerals, and the Libraries of the Medical and Academical Institutions, are all open to students.

By the Statutes of the State, the requirements for the Degree of Doctor in Medicine are three years' study for those who are not Bachelors of Arts, and two years' for those who are; attendance upon two full courses of Lectures, either in this Institution, or some other of a similar character; the attainment of twenty one years of age, and a good moral character; together with a satisfactory examination before the Board of Examiners for the State, at which the candidate must present a dissertation upon some subject connected with the Medical Sciences, written in a form prescribed by the Faculty. This Board consists of the

Medical Professors of the College, *ex officiis*, and an equal number of persons chosen by the Fellows of the Medical Society of the State. Licenses to practice are granted by the President of the Society, upon the recommendation of the Board of Examiners, and candidates for a license must possess the same qualifications as those for a degree, except that attendance upon one course of Lectures only is required. The graduation fee is $15 —fee for a license, including diploma, $4,50. The examination is held immediately after the close of the Lectures, when the licenses are granted and the degrees conferred.

Department of Philosophy and the Arts.

It has long been felt at Yale College to be important to furnish resident graduates and others, with the opportunity of devoting themselves to special branches of study either not provided for at present, or not pursued as far as individual students may desire. With the hope of accomplishing this object more fully and systematically, the Corporation at their meeting in August, 1846, appointed a Committee to take this subject into consideration, and in accordance with the report of the Committee, at their next meeting in August, 1847, established a new department, called the Department of Philosophy and the Arts. The branches intended to be embraced in this department are such in general as are not included under Theology, Law and Medicine; or more particularly, Mathematical Science, Physical Science and its application to the Arts, Metaphysics, Philology, Literature and History. Instruction in this department may be given by professors not belonging to the other departments, by the Academical professors, and by such others as the President and Fellows may approve. The Instructors for the year, with the President, compose the Faculty of the department. The instructions in the department are intended for graduates of this and other Colleges, and for such other young men as are desirous of pursuing special branches of study; but it is necessary for all students in philology and mathematical science, that they be thoroughly grounded in those studies.

A School of applied Chemistry is embraced within this department, of which a more particular notice may be found below. For the terms of entrance upon the several courses in the department, application may be made to the several instructors.

Professor SILLIMAN's lectures on Chemistry, Mineralogy and Geology, will be open to the students of this department.

Professor GIBBS proposes to give lectures on some points of general Philology.

Professor OLMSTED's lectures on Natural Philosophy and Astronomy will be open to the students of this department. He will also, if desired, give private instruction in Experimental Philosophy, and Astronomical Calculations.

Professor STANLEY proposes to instruct in the Calculus or Analytical Mechanics.

Professor PORTER will instruct in Psychology, Logic and the History of Philosophy.

Professor THACHER will instruct twice a week in the Georgics of Virgil, should a class be formed.

Professor SILLIMAN, Jr., will instruct in Elementary and Analytical Chemistry, Mineralogy and Metallurgy.

Professor HADLEY will instruct twice a week in Thucydides or Pindar.

Professor NORTON will instruct in the applications of science to Agriculture and in Analytical Chemistry.

SCHOOL OF APPLIED CHEMISTRY.

Professors SILLIMAN and NORTON, have opened a Laboratory on the College grounds, in connection with their departments, for the purpose of practical instruction in the applications of science to the arts and agriculture. Every facility will be afforded to those who desire to obtain special instruction in general and in analytical Chemistry and Mineralogy.

A course of lectures on the connections of science with Agriculture, by Professor NORTON, will commence in January and continue about two months and a half, at the rate of three lectures in each week.

Mr. WILLIAM J. CRAW is the first assistant, and is aided by a sufficient number of others to attend to all the wants of the students.

Professor SILLIMAN, Jr., proposes to instruct in Mineralogy and applied Chemistry during the summer term.

A mineralogical cabinet is deposited in the Laboratory for the use of students in this department; they will also have access to the College mineralogical and geological cabinets and to the libraries.

The text-books used will be Dana's Mineralogy, Silliman's Chemistry, Fresenius's Analysis, Will's Outlines, Rose's Chemical Analysis.

The lectures on Chemistry by Professor SILLIMAN, Senior, commence the first week of the first term, and continue through the term. His lectures on Mineralogy are delivered during the first or second term, and those on Geology commence the first week of the third term and continue six weeks. The lectures of Professor OLMSTED, on Natural Philosophy, commence the third Tuesday of November, and continue at the rate of two a week nearly through the year. His lectures on Astronomy and Meteorology, commence at the beginning of the second term, and continue, daily, for about seven weeks.

☞ Students who enter this Department may hereafter have in view a degree to be given when they have completed a certain course of study.

YALE COLLEGE.

Academical Department.

TERMS OF ADMISSION.

CANDIDATES for admission to the Freshman Class are examined in Cicero's Select Orations, the whole of Virgil, Sallust, Jacobs's, Colton's or Felton's Greek Reader, the first three books of Xenophon's Anabasis, Andrews and Stoddard's or Zumpt's Latin Grammar, Sophocles's, Crosby's or Kühner's Greek Grammar, Arnold's Latin Prose Composition, first XII Chapters to the Passive voice, Latin Prosody, Thomson's Higher Arithmetic, English Grammar, Geography, and Day's Algebra to Quadratic Equations.

Candidates for advanced standing, whether from other Colleges or not, in addition to the preparatory studies, are examined in those previously pursued by the classes which they propose to enter. No one can be admitted into the Senior Class, after the close of the January vacation.

The regular examination for admission into College, commences on the Monday preceding the public Commencement; but persons may be examined for an advanced standing in any other part of the collegiate terms. It is requested that they may not be offered in the vacations, except for very special reasons.

No one can be admitted to the Freshman Class, till he has completed his fourteenth year, nor to an advanced standing without a proportional increase of age.

Testimonials of good moral character are in all cases required; and those who are admitted from other Colleges must produce certificates of dismission in good standing. The students are not considered as regular members of the College, till, after a residence of at least six months, they have been admitted to matriculation, on satisfactory evidence of an unblemished moral character. Before this they are only students on probation. The laws of the College provide for the final separation from the institution of those, who, within a specified time, do not so far approve themselves to the Faculty as to be admitted to matriculation.

COURSE OF INSTRUCTION.

The Faculty, to whom are committed the government and instruction of the undergraduate students, consists of a President; a Professor of Chemistry, Mineralogy, and Geology; a Professor of Divinity; a Professor of Natural Philosophy and Astronomy; a Professor of Rhetoric and English Literature; a Professor of Mathematics; a Professor of Moral Philosophy and Metaphysics; a Professor of the Latin Language and Literature; a Professor of the Greek Language and Literature; and seven Tutors.

The whole course of instruction occupies four years. In each year there are three terms or sessions.

The three younger classes are divided each into three parts; the Senior Class into two parts. Each of the four classes attends three recitations or lectures in a day; except on Wednesdays and Saturdays, when they have only two. The following scheme gives a general view of the studies pursued in each term:—

FRESHMAN CLASS.

I.
- Lincoln's Livy, begun.
- Roman Antiquities.
- Day's Algebra.
- Homer's Iliad, begun.

II.
- Livy, continued.
- Homer's Iliad, continued through six books.
- Playfair's Euclid, four books.

III.
- Horace, begun.
- Herodotus, begun.
- Euclid, finished.

Parts of the Greek Testament are read during the year.

SOPHOMORE CLASS.

I.
- Horace, continued.
- Herodotus, continued; Xenophon's Memorabilia, two books.
- Day's Mathematics; Nature and Use of Logarithms, Plane Trigonometry, and Mensuration of Superficies and Solids.

II.
- Horace, finished; Cicero de Amicitia and de Senectute.
- The Alcestis of Euripides.
- Day's Mathematics; Isoperimetry, Mensuration of Heights and Distances, and Navigation.
- Loomis's Analytical Geometry and Calculus.

III.
- The Prometheus of Aeschylus.
- Cicero de Oratore, begun.
- Day's Mathematics; Surveying.
- Stanley's Spherical Geometry and Trigonometry.
- Whately's Rhetoric, with the exception of Part IV, on Elocution.

JUNIOR CLASS.

I.
- Cicero de Oratore, continued; Tacitus, Manners of the Germans, and Agricola; the Hercules Furens of Seneca.
- Plato's Gorgias.
- Olmsted's Natural Philosophy; Mechanics, Hydrostatics, Hydraulics.

II.
- Tacitus, continued; the History.
- Thucydides' History.
- Natural Philosophy; Pneumatics, Acoustics, Electricity, Magnetism.

III.
- Natural Philosophy; Optics.
- Olmsted's Astronomy, to the Planets.
- Whately's Logic.
- Ancient History.
- Practical Surveying; } *At the option of the*
- Select Greek; Hebrew; or Modern Languages; } *student.*

SENIOR CLASS.

I.
- Astronomy, finished.
- Modern History.
- Reid's Essays, (Walker's edition.)
- Cousin's Psychology.
- Oration of Demosthenes on the Crown.

II.
- Moral Philosophy.
- Political Philosophy and Law of Nations.
- Paley's Natural Theology.
- Blair's Rhetoric.

III.
- Political Economy, Wayland's.
- Evidences of Christianity.

Changes in the Greek and Latin authors recited are sometimes introduced in the latter part of the course; but these changes do not affect the *amount* of Greek and Latin required of those who apply for admission to an advanced standing.

The Kent Professor of Law gives instruction to the Senior Class during the third term.

A short course of Anatomy and Physiology, consisting of about twenty lectures, illustrated by natural and artificial preparations, is given to the Senior Class in the second term.

In addition to the recitations in the books here specified, the classes receive lectures and instruction from the Professors of the Greek and Latin languages; the Junior Class attends a course of experimental lectures on Natural Philosophy; and the Senior Class, courses of lectures on Chemistry, Mineralogy, Geology, Meteorology, Astronomy and History.

The lectures of Professor SILLIMAN on Chemistry, are given during the first term; those on Mineralogy during the second term, and those on Geology during the third term. The lectures of Professor OLMSTED, on Experimental Philosophy, addressed to the Junior Class, commence the first Tuesday of November, and are continued nearly at the rate of two a week, during the remainder of the College year. His lectures on Meteorology and Astronomy to the Senior Class, commence with the second term, and are continued daily to near the middle of the term, when those of Professor KNIGHT on Anatomy begin, and occupy the remainder of the term.

In the department of Elocution, the Freshman Class, in several divisions, have during the year recitations and exercises upon the elementary principles of the science, conducted by the Teacher of Elocution; and the Sophomore and Junior Classes, frequent private exercises, preparatory to public declamation in the Chapel before the Professor of Rhetoric and the members of the class.

The members of the several classes attend also the private exercises and lectures of the Professor of Rhetoric. A course of lectures is delivered to the Senior Class, on the Oration of Demosthenes on the Crown. The Senior Class have exercises

twice a week in English composition; the Senior and Junior classes twice a week in forensic disputation; the Sophomore Class, and the Freshman Class, during the third term, once a week in English composition. The Junior, Sophomore and Freshman Classes are also instructed in Latin composition, and the Freshman Class in Greek composition.

Students, who desire instruction in the modern languages, may receive it, at their own expense, from competent teachers, engaged for the purpose by the Faculty.

The object of the system of instruction to the undergraduates in the College, is not to give a *partial* education, consisting of a few branches only; nor on the other hand, to give a *superficial* education, containing a little of almost every thing; nor to *finish* the details of either a professional or a practical education; but to *commence* a *thorough* course, and to carry it as far as the time of the student's residence here will allow. It is intended to maintain such a proportion between the different branches of literature and science, as to form a proper *symmetry* and *balance* of character. In laying the foundation of a thorough education, it is necessary that *all* the important faculties be brought into exercise. When certain mental endowments receive a much higher culture than others, there is a distortion in the intellectual character. The powers of the mind are not developed in their fairest proportions by studying languages alone, or mathematics alone, or natural or political science alone. The object, in the proper collegiate department, is not to teach that which is peculiar to any one of the *professions;* but to lay the foundation which is common to them all. There are separate schools of Theology, Law and Medicine, connected with the College, as well as in various parts of the country, which are open to all who are prepared to enter on professional studies. With these the undergraduate course is not intended to interfere. It contains those subjects only which ought to be understood by every one who aims at a thorough education. The principles of science and literature are the common foundation of all high intellectual attainments. They give that furniture, and discipline, and elevation to the mind, which are the best preparation for the study of a profession, or of the ope-

rations which are peculiar to the higher mercantile, manufacturing, or agricultural establishments.

For a more particular view of the plan of education in the College, see Reports on the Course of Instruction, published in Vol. XV, of the American Journal of Science.

Public examinations of the classes are held at the close of each term on the studies of the term; and twice in the College course, at the close of the Sophomore and Senior years, on the studies of the two preceding years.

The public Commencement is held on the last Thursday in July of each year. The first term begins seven weeks from the day before Commencement and continues fourteen weeks; the second begins on the first Wednesday in January and continues fourteen weeks; the third, of twelve weeks, begins on the first Wednesday in May and continues till Commencement. The intervening periods of seven, two, and three, or as the case may be, four weeks, are assigned for vacations.

No student is allowed to be absent, without special leave, except in vacations. The absence of a student in term time, even for a few days, occasions a much greater injury than is commonly supposed by parents or guardians. During the vacations, on the contrary, parents are earnestly advised not to allow their sons to remain at the College.

PUBLIC WORSHIP.

Prayers are attended in the College Chapel every morning and evening, with the reading of the Scriptures; when one of the Faculty officiates, and all the students are required to be present. They are also required to attend public worship in the Chapel on the Sabbath, except such as have permission to attend the worship of other denominations in town, to which their parents belong.

EXPENSES.

The College bills are made out by the Treasurer three times a year, at the close of each term; and are delivered to the students, who are required to present them to their parents, guardians, or patrons. The bills are payable at the close of the term, and if not paid by the expiration of two weeks after the commencement of the succeeding term, the student is liable to be prohibited from reciting.

The annual charges in the Treasurer's bill are,

For tuition, - - - - - - -	$39 00
For rent of half chamber in College, 7½ to 16½ dollars—average, - - - - -	12 00
For ordinary repairs and contingencies, -	2 40
For general damages, sweeping, &c. about	3 60
For expenses of public rooms, - - -	3 00
	$60 00

Besides this, the student pays for damages done by himself, for tuition in optional studies during part of Junior year, and a few additional charges on graduating.

Any person admitted to an advanced standing, unless coming from another College, pays to the Treasurer, the sum of five dollars as tuition money, for each term which has been completed by the class which he enters.

Notes of the several incorporated banks in this State, and such other notes as are taken by the banks in the city of New Haven, are received in payment of the bills. Drafts on Boston, New York or Philadelphia, may be transmitted direct to the Treasurer.

Board is obtained at prices varying from $1 75 to $3 00. To a majority of the students the cost of board is not above $2 25 a week. Fuel is procured by the Corporation and distributed to those students who apply for it, at cost and charges, and must be paid for at the time of ordering.

Students who wish to take lodgings in town are permitted to do so. But if, in consequence of this, any of the rooms in College are left vacant, the amount of the rent will be charged upon those who room out.

The students provide for themselves bed and bedding, furniture for their rooms, lights, books, stationery and washing. There are also, in the several classes and literary societies, taxes of a small amount. If books and furniture are sold, when the student has no further necessity for them, the expenses incurred by their use will not be great.

The following may be considered as a near estimate of the *necessary* expenses, without including apparel, pocket money, traveling, and board in vacations:

Treasurer's bill as above, - -		$60	$60
Board, 40 weeks, - - - -	from	70 to	100
Fuel and lights, - - - -	"	6 "	15
Use of books recited, and stationery,	"	5 "	15
Use of furniture, bed and bedding,	"	5 "	15
Washing, - - - - -	"	12 "	18
Taxes in the Societies, &c. - -	"	6 "	8
Total,		$164 to	$231

Students in the Freshman Class who occupy the recitation rooms, save their room rent and fuel in winter, and receive a small compensation in summer. Cheap board may be obtained in clubs, by those students who wish board at a lower rate than is common in boarding houses.

Indigent students are supplied with most of the text-books, without expense, from the Benevolent and Education Libraries.

A sum somewhat exceeding two thousand dollars, derived chiefly from permanent charitable funds, is annually applied by the Corporation for the relief of indigent students, who to the number of about one hundred have their tuition either wholly or in part remitted.

With regard to apparel, and what is called pocket money, no general estimate can be made. These are the articles in which the expenses of individuals differ most; and in which some are unwarrantably extravagant. There is nothing by which the character and scholarship of the students in this College are more endangered, than by a free indulgence in the use of money. Great caution with regard to this is requisite on the part of parents.

What is more than sufficient to defray the ordinary expenses, will expose the student to numerous temptations; and will not contribute either to his respectability or happiness.

As a precaution against extravagance, parents at a distance frequently deposit funds with some one of the Faculty; who, in that case, pays a particular attention to the pecuniary concerns of the student, settles his bills, corresponds with the parent, transmits an account of the expenditures, &c., for which he charges a commission.

SCHOLARSHIPS AND PREMIUMS.

THE Berkeley Scholarship, yielding about forty-six dollars a year, is awarded to the student in each Senior Class, who passes the best examination in the Greek Testament, Xenophon's Cyropædia, and Homer's Iliad, Cicero's Tusculan Questions, Tacitus (except the Annals,) and Horace; provided he remains in New Haven as a graduate one, two or three years.

The Clark Scholarship, yielding a hundred and twenty dollars a year, is awarded to the student in each Senior Class, who passes the best examination on the studies of the College course; provided he remains in New Haven as a graduate one or two years, pursuing a course of study (not professional) under the direction of the Faculty.

The Bristed Scholarship, yielding about eighty dollars a year, is awarded to the student in the Sophomore or Junior Class, whenever there may be a vacancy, who passes the best examination in the Greek and Latin classics and the mathematics. The successful candidate receives the annuity, (forfeiting one-third in case of non-residence in New Haven,) until he would regularly take his second degree. There will be a vacancy in this scholarship the present year.

A Scholarship, yielding sixty dollars a year, is awarded to the student in each Freshman Class, who passes the best examination in Latin composition (excellence in which is essential to success), in the Greek of the year, and in the solution of algebraic

problems. The successful candidate enjoys the annuity under certain conditions during the four years of his College course.

The Townsend Premiums, five in number, each of twelve dollars, are awarded in the Senior Class for the best specimens of English composition.

The DeForest Prize Medal, of the value of one hundred dollars, is awarded in the Senior Class for the best specimen of English composition united with the best declamation.

In the other classes premiums are also given for Latin and English composition, for translations from the Classics, and for solutions of mathematical problems.

Theological Department.

The Instructors in this Department are a Professor of Didactic Theology, a Professor of Sacred Literature, the Professor of Divinity in the College, and a Professor of the Pastoral Charge.

The time of admission is at the beginning of the collegiate year. It is desirable that those who join this Department should be present at the commencement of the first term. Those admitted to an advanced standing will be expected to have previously gone over the studies pursued by their respective classes.

The conditions for entrance are hopeful piety, and a liberal education at some College, or such other literary acquisition as may be considered an equivalent preparation for theological studies.

The terms and vacations are the same with those in the College.

The regular course of instruction occupies three years, and comprises the following subjects:

Junior Class.—Hebrew Grammar, (Roediger's Gesenius, translated by Conant,) Conant's Hebrew Exercises and Chrestomathy, Principles of Sacred Criticism and Hermeneutics, Critical and Exegetical study of the Hebrew and Greek Scriptures, Critical and Exegetical Dissertations, Lectures by the Professor of Sacred Literature on some topics in Introduction to Theology, and in Exegetical Theology, Lectures by the Professor of Didactic Theology on Mental Philosophy including the Will.

MIDDLE CLASS.—Lectures by the Professor of Didactic Theology, on Moral Philosophy, Moral Government, Natural Theology, Necessity and Evidences of Revelation, and Systematic Theology. Exegetical study of the Scriptures and Dissertations continued.

SENIOR CLASS.—Lectures on the Structure and Composition of Sermons, and on Public Prayer. Criticism of Skeletons and of Sermons, Exercises in Extemporaneous Speaking and Preaching before the Class, Lectures on the Pastoral Charge, on Revivals of Religion, on the History of Modern Missions, and on Expository Preaching, Lectures on Elocution attended by Practice in the Delivery of Sermons.

There are weekly Debates in the Rhetorical Society, at which the Professor of Didactic Theology presides, and in which the members of all the Classes participate.

The students have access to the College Library, and to the libraries of the several literary Societies in the College.

A building has been erected for the accommodation of students in which the rooms are free of rent; but each occupant is subject to a charge of $3,50 a year for incidental expenses. No other charges are made to the students.

In addition to the aid afforded by the American Education Society, provision is now made for efficient assistance to those who need it. Such persons also have an opportunity of attending, free of expense, the Lectures of Professor SILLIMAN, Professor OLMSTED and others on Natural Science; and those preparing for missionary service also on the Lectures in the Medical Department.

Law Department.

THIS Department is under the direction of a Faculty, consisting of the President of the College, and two Law Professors, to wit, Hon. CLARK BISSELL, LL. D., late Judge of the Supreme Court of the State; and Hon. HENRY DUTTON, late Judge of the New Haven County Court.

COURSE OF INSTRUCTION.

The students are required to peruse the most important elementary treatises, and are daily examined on the author they are reading, and receive at the same time explanations and illustrations of the subjects they are studying.

The School is divided into three reading classes. Each class is daily employed upon a lesson in the Class Book, and is separately examined, and every student can read in one or more of the three classes, as he finds himself able and inclined to perform the requisite labor.

Courses of Lectures are delivered by the Instructors, on all the titles and subjects of Common and Statute Law, and of Equity.

Three exercises, consisting of Lectures or Examinations of one hour each, are daily given by the Instructors, and at all of them each of the pupils is permitted to attend.

A moot court is held once a week or oftener, which employs the students in drawing pleadings, and investigating and arguing questions of law.

The students are called upon, from time to time, to draw declarations, pleadings, contracts, and other instruments connected with the practice of law, and to do the most important duties of an attorney's clerk.

They are occasionally required to write disquisitions on some topic of law, and collect the authorities to support their opinions.

The more advanced students are assisted in the study of the laws of the particular States in which they intend to establish themselves.

The following are some of the principal studies of the course: Blackstone's Commentaries; Real Estate; Personal Property; Contracts; Domestic Relations; Parties to Actions; Forms of Actions; Pleading; Evidence; Nisi Prius; Bills of Exchange and Promissory Notes; Insurance; Shipping; Corporations; Criminal Law; Equity; Constitution of the United States; Law of Nations; Conflict of Laws.

The students are furnished with the use of the elementary books, and have access, at all times, to the College libraries, and to a law library, comprising every important work, both ancient and modern. The law library contains the Revised Statutes, the Reports and the Digests of all the States in the Union.

The course of study occupies two years. The Summer and Spring vacations in this Department will hereafter coincide with those in the Academical Department. There is also a recess of about two weeks near the first of January in each year.

The terms for tuition, with constant use of text-books, and ordinary use of the library, are as follows, payable in advance, unless for satisfactory reasons. For the whole course of two years, one hundred and fifty dollars. For one year, eighty dollars. For less than one year, ten dollars a month. For more than one year and less than two years, seven dollars a month after the first year.

The degree of Bachelor of Laws will be conferred by the President and Fellows, on liberally educated students who have been members of the Department eighteen months, and have complied with the regulations of the Institution, and passed a satisfactory examination. Those not liberally educated, will be graduated upon similar conditions, after two years' membership; and members of the Bar, after one year's membership subsequent to their admission to the Bar.

Medical Department.

The Instructors in the Medical Institution, are a Professor of Chemistry and Pharmacy, a Professor of the Theory and Practice of Physic, a Professor of Surgery, a Professor of Obstetrics, a Professor of Anatomy and Physiology, and a Professor of Materia Medica and Therapeutics.

The annual course of lectures commences on the last Thursday of September, and continues four months. The lectures are so arranged, that at least five are given daily, and a part of the time six.

A Medical and Surgical Clinique is held every week, during the lecture term, at which a variety of cases is presented, for consultation and operations, in presence of the class.

The fees, which are required in advance, are $12,50 for each course, except that on Obstetrics, which is $6, with a Matriculation fee of $5—the whole amounting to $73,50. The tickets of all the Professors, or a part, may be taken any one season. Those who have attended two full courses of Lectures in this Institution, are entitled to admission to future courses gratis. Those who have attended one full course in this Institution, and also one full course in another incorporated Medical Institution, will be admitted to a full course on paying the Matriculation fee. Board, with room, &c., may be obtained at from $2,25 to $3 per week.

The students are entitled to gratuitous admission to the course of Lectures on Anatomy and Physiology, given by Professor KNIGHT, during the spring term, to the Senior Class in the Academical Institution, and to the courses by Professor SILLIMAN, on Mineralogy, during the spring, and on Geology, during the summer. They also have admission to the various other Lectures in the Academical Institution, on paying the fees of the several courses.

The Medical College building is spacious and commodious. The Anatomical Museum, already one of the most valuable in the country, is annually receiving important additions. Additions to the Museum and other improvements have been made during the last year at an expenditure of nearly $1,500; and there will hereafter be an annual income of about $1,000 to be applied to similar purposes. The arrangements for Dissections are ample, and subjects are supplied on the most reasonable terms. The Anatomical rooms, the Cabinet of the Materia Medica, the Museum of the Yale Natural History Society, the Cabinet of Minerals, and the Libraries of the Medical and Academical Institutions, are all open to students.

By the Statutes of the State, the requirements for the Degree of Doctor in Medicine are three years' study for those who are not Bachelors of Arts, and two years' for those who are; attend-

ance upon two full courses of Lectures, either in this Institution, or some other of a similar character; the attainment of twenty one years of age, and a good moral character; together with a satisfactory examination before the Board of Examiners for the State, at which the candidate must present a dissertation upon some subject connected with the Medical Sciences, written in a form prescribed by the Faculty. This Board consists of the Medical Professors of the College, *ex officiis*, and an equal number of persons chosen by the Fellows of the Medical Society of the State. Licenses to practice are granted by the President of the Society, upon the recommendation of the Board of Examiners, and candidates for a license must possess the same qualifications as those for a degree, except that attendance upon one course of Lectures only is required. The graduation fee is $15 —fee for a license, including diploma, $4,50. The examination is held immediately after the close of the Lectures, when the licenses are granted and the degrees conferred.

Department of Philosophy and the Arts.

It has long been felt at Yale College to be important to furnish resident graduates and others, with the opportunity of devoting themselves to special branches of study either not provided for at present, or not pursued as far as individual students may desire. With the hope of accomplishing this object more fully and systematically, the Corporation at their meeting in August, 1846, appointed a Committee to take this subject into consideration, and in accordance with the report of the Committee, at their next meeting in August, 1847, established a new department, called the Department of Philosophy and the Arts. The branches intended to be embraced in this department are such in general as are not included under Theology, Law and Medicine; or more particularly, Mathematical Science, Physical Science and its application to the Arts, Metaphysics, Philology, Literature

and History. Instruction in this department may be given by professors not belonging to the other departments, by the Academical professors, and by such others as the President and Fellows may approve. The Instructors for the year, with the President, compose the Faculty of the department. The instructions in the department are intended for graduates of this and other Colleges, and for such other young men as are desirous of pursuing special branches of study; but it is necessary for all students in philology and mathematical science, that they be thoroughly grounded in those studies.

The degree of Bachelor of Philosophy will be conferred by the President and Fellows, upon students in the Department of Philosophy and the Arts, after being connected with the Department for two years, and passing a satisfactory examination in three branches of study.

A School of applied Chemistry and a School of Engineering are embraced within this department, of which a more particular notice may be found below. For the terms of entrance upon the several courses in the department, application may be made to the several instructors.

Professor SILLIMAN's lectures on Chemistry, Mineralogy and Geology, will be open to the students of this department.

Professor GIBBS proposes to give lectures on some points of general Philology.

Professor OLMSTED's lectures on Natural Philosophy and Astronomy will be open to the students of this department. He will also, if desired, give private instruction in Experimental Philosophy, and Astronomical Calculations.

Professor STANLEY proposes to instruct in the Calculus or Analytical Mechanics.

Professor NOAH PORTER will instruct in Psychology, Logic and the History of Philosophy.

Professor NORTON will instruct in Civil and Mechanical Engineering.

Professor THACHER will instruct twice a week in Lucretius and in Latin Composition.

Professor SILLIMAN, Jr., will instruct in Elementary and Analytical Chemistry, Mineralogy and Metallurgy.

Professor HADLEY will instruct twice a week in Thucydides or Pindar.

Professor JOHN A. PORTER will instruct in the applications of science to Agriculture and in Analytical Chemistry.

SCHOOL OF APPLIED CHEMISTRY.*

According to the method pursued in this department, each student engages in a systematic course of experiment, in which he is superintended by the instructors. The course includes among other applications, the analysis of grains, soils, and minerals, the determination of the commercial value of drugs and chemicals and experiments in Medical Chemistry.

A course of lectures on Agricultural Chemistry by Professor JOHN A. PORTER will commence January 7th and continue two months and a half, at the rate of three lectures in each week. A special course in Analysis will accompany these lectures.

Professor SILLIMAN, Jr., proposes to instruct in Mineralogy and applied Chemistry during the summer term.

Mr. WILLIAM J. CRAW is the first assistant, and will aid in experimental analysis.

The Laboratory is open to the class during the whole day at a charge of from $60 to $70 per term of twelve to fourteen weeks. This includes the expense of materials consumed and the use of apparatus. The fee for the lectures on Agricultural Chemistry is $10. Students are received for any period not less than a month; or to spend a portion of each day in the Laboratory, and are charged accordingly. Previous study of Chemistry is not essential to admission.

---

* In consequence of the death of Professor JOHN P. NORTON, Professor JOHN A. PORTER has consented, at the request of the Faculty, to take charge of the School of Applied Chemistry during the current year.

A mineralogical cabinet is deposited in the Laboratory for the use of students in this department; they will also have access to the College mineralogical and geological cabinets and to the libraries.

The text-books used will be Dana's Mineralogy, Silliman's Chemistry, Fresenius's Analysis, Will's Outlines, Rose's Chemical Analysis.

The lectures on Chemistry by Professor SILLIMAN, Senior, commence the first week of the first term, and continue through the term. His lectures on Mineralogy are delivered during the second term, and those on Geology commence the first week of the third term and continue six weeks. Students in Mineralogy may also have the benefit of consultation with Professor DANA. The experimental lectures of Professor OLMSTED, on Natural Philosophy, commence the first Tuesday of November, and continue nearly at the rate of two a week, through the year. His lectures on Meteorology, and Astronomy commence at the beginning of the second term, and continue, daily, for about seven weeks.

SCHOOL OF ENGINEERING.

THE Course of Instruction embraces the following studies and exercises.

Surveying, in all its branches, with the adjustment and use of instruments, and operations in the field.

Drawing—topographical, geometrical, mechanical, architectural; with shading and tinting.

Descriptive Geometry—Shades and Shadows—Linear Perspective—Isometrical Projection; pursued in connection with systematic exercises in geometrical drawing.

Applications of Descriptive Geometry to Masonry and Stonecutting, in the construction of Arches, &c., and to Civil and Mechanical Engineering, generally.

The Principles of Architecture.

Analytical Geometry, and Differential and Integral Calculus.

Mechanics, including Hydraulics and Pneumatics;—Application of Mechanics to Machinery and Engineering.

The Science of Construction in its various departments; with a discussion of the nature, strength, and mode of preparation of building materials.

Engineering field-work; or the location of roads, surveys for excavations and embankments, &c. Use of astronomical instruments for the determination of time, latitude and longitude, &c.

This course will occupy two years. Students will be admitted to pursue a full or a partial course, at their option.

The preparatory mathematical studies required for admission to the full course, are Arithmetic, Algebra, Geometry, and Trigonometry.

The terms, or sessions, coincide with those in the Academical Department.

The tuition fee for the full course, for each term, is $30, to be paid in advance. The fee for the course of Surveying alone is $12. There is no charge for incidental expenses.

Students in this School have free access to the College Library, and to the mineralogical and geological cabinets.

The lectures of Professor SILLIMAN, Senior, upon Chemistry, Mineralogy, and Geology, and those of Professor OLMSTED, upon Natural Philosophy, Astronomy, and Meteorology, are also accessible.

TERMS OF ADMISSION.

Candidates for admission to the Freshman Class are examined in Cicero's Select Orations, the whole of Virgil, Sallust, Jacobs's, Colton's or Felton's Greek Reader, the first three books of Xenophon's Anabasis, Andrews and Stoddard's or Zumpt's Latin Grammar, Sophocles's, Crosby's or Kühner's Greek Grammar, Arnold's Latin Prose Composition to the Passive voice, (first XII Chapters,) Latin Prosody, Thomson's Higher Arithmetic, English Grammar, Geography, and Day's Algebra to Quadratic Equations.

Candidates for advanced standing, whether from other Colleges or not, in addition to the preparatory studies, are examined in those previously pursued by the classes which they propose to enter. No one can be admitted into the Senior Class, after the close of the January vacation.

The regular examination for admission into College, commences on the Monday preceding the public Commencement; but persons may be examined for an advanced standing in any other part of the collegiate terms. It is requested that they may not be offered in the vacations, except for very special reasons.

No one can be admitted to the Freshman Class, till he has completed his fourteenth year, nor to an advanced standing without a proportional increase of age.

Testimonials of good moral character are in all cases required; and those who are admitted from other Colleges must produce certificates of dismission in good standing. The students are not considered as regular members of the College, till, after a residence of at least six months, they have been admitted to matriculation, on satisfactory evidence of an unblemished moral character. Before this they are only students on probation. The laws of the College provide for the final separation from the institution of those, who, within a specified time, do not so far approve themselves to the Faculty as to be admitted to matriculation.

COURSE OF INSTRUCTION.

The Faculty, to whom are committed the government and instruction of the undergraduate students, consists of a President; a Professor of Divinity; a Professor of Natural Philosophy and Astronomy; a Professor of Rhetoric and English Literature; a Professor of Mathematics; a Professor of Moral Philosophy and Metaphysics; a Professor of Natural History; a Professor of the Latin Language and Literature; a Professor of the Greek Language and Literature; and seven Tutors.

The whole course of instruction occupies four years. In each year there are three terms or sessions.

The three younger classes are divided each into three parts; the Senior Class into two parts. Each of the four classes attends three recitations or lectures in a day; except on Wednesdays and Saturdays, when they have only two. The following scheme gives a general view of the studies pursued in each term:—

FRESHMAN CLASS.

I. Lincoln's Livy, begun.
Homer's Iliad, begun.
Day's Algebra.

II. Livy, continued.
Homer's Iliad, continued through four books; Herodotus, begun.
Playfair's Euclid, four books.

III. Horace, begun.
Herodotus, continued.
Euclid, finished.

Greek and Roman History and Antiquities are studied during the year.
Parts of the Greek Testament are also read.

SOPHOMORE CLASS.

I. Horace, continued.
Xenophon's Memorabilia, two books; Alcestis of Euripides.
Day's Mathematics; Nature and Use of Logarithms, Plane Trigonometry, and Mensuration of Superficies and Solids.

II. Cicero de Amicitia and de Senectute; Cicero de Officiis.
Prometheus of Aeschylus; Panegyricus of Isocrates.
Loomis's Analytical Geometry and Calculus.

III. Antigone of Sophocles.
Day's Mathematics; Isoperimetry, Mensuration of Heights and Distances, Navigation and Surveying.
Stanley's Spherical Geometry and Trigonometry.
Whately's Rhetoric, with the exception of Part IV, on Elocution.

JUNIOR CLASS.

I. Cicero de Officiis.
Gorgias of Plato.
Olmsted's Natural Philosophy; Mechanics, Hydrostatics, Hydraulics.

II. Tacitus.
Thucydides, begun.
Natural Philosophy; Pneumatics, Acoustics, Electricity, Magnetism.

III. Thucydides, continued.
Natural Philosophy; Optics.
Olmsted's Astronomy, to the Planets.
Whately's Logic.
Practical Surveying; } *At the option of*
Select Latin; Select Greek; Hebrew; or Modern Languages; } *the student.*

SENIOR CLASS.

I. Astronomy, finished.
Modern History.
Reid's Essays, (Walker's edition.)
Cousin's Psychology.
Oration of Demosthenes on the Crown.

II. Moral Philosophy.
Political Philosophy and Law of Nations.
Paley's Natural Theology.
Blair's Rhetoric.

III. Political Economy, Wayland's.
Evidences of Christianity.

Changes in the Greek and Latin authors recited are sometimes introduced in the latter part of the course; but these changes do not affect the *amount* of Greek and Latin required of those who apply for admission to an advanced standing.

The Kent Professor of Law gives instruction to the Senior Class during the third term.

A short course of Anatomy and Physiology, consisting of about twenty lectures, illustrated by natural and artificial preparations, is given to the Senior Class in the second term.

In addition to the recitations in the books here specified, the classes receive lectures and instruction from the Professors of the Greek and Latin languages; the Junior Class attends a course of experimental lectures on Natural Philosophy; and the Senior Class, courses of lectures on Chemistry, Mineralogy, Geology, Meteorology, Astronomy and History.

The lectures on Chemistry,* are given during the first term; those on Mineralogy during the second term, and those on Geology during the third term. The lectures of Professor OLMSTED, on Experimental Philosophy, addressed to the Junior Class, commence the first Tuesday of November, and are continued nearly at the rate of two a week, during the remainder of the College year. His lectures on Meteorology and Astronomy to the Senior Class, commence with the second term, and are continued daily to near the middle of the term, when those of Professor KNIGHT on Anatomy begin, and occupy the remainder of the term.

In the department of Elocution, the Sophomore and Junior Classes have frequent private exercises, preparatory to public declamation in the Chapel before the Professor of Rhetoric and the members of the class.

The members of the several classes attend also the private exercises and lectures of the Professor of Rhetoric. A course of lectures is delivered to the Senior Class, on the Oration of Demosthenes on the Crown. The Senior Class have exercises

* The lectures on Chemistry will be given during the present year by Professor JOHN A. PORTER; the lectures on Mineralogy and those on Geology will be given, as heretofore, by Professor SILLIMAN, Senior.

twice a week in English composition; the Senior and Junior classes twice a week in forensic disputation; the Sophomore Class, and the Freshman Class during the third term, once a week in English composition. The Junior, Sophomore and Freshman Classes are also instructed in Latin composition, and the Freshman Class in Greek composition.

Students, who desire instruction in the modern languages, may receive it, at their own expense, from competent teachers, engaged for the purpose by the Faculty.

The object of the system of instruction to the undergraduates in the College, is not to give a *partial* education, consisting of a few branches only; nor on the other hand, to give a *superficial* education, containing a little of almost every thing; nor to *finish* the details of either a professional or a practical education; but to *commence* a *thorough* course, and to carry it as far as the time of the student's residence here will allow. It is intended to maintain such a proportion between the different branches of literature and science, as to form a proper *symmetry* and *balance* of character. In laying the foundation of a thorough education, it is necessary that *all* the important faculties be brought into exercise. When certain mental endowments receive a much higher culture than others, there is a distortion in the intellectual character. The powers of the mind are not developed in their fairest proportions by studying languages alone, or mathematics alone, or natural or political science alone. The object, in the proper collegiate department, is not to teach that which is peculiar to any one of the *professions;* but to lay the foundation which is common to them all. There are separate schools of Theology, Law and Medicine, connected with the College, as well as in various parts of the country, which are open to all who are prepared to enter on professional studies. With these the undergraduate course is not intended to interfere. It contains those subjects only which ought to be understood by every one who aims at a thorough education. The principles of science and literature are the common foundation of all high intellectual attainments. They give that furniture, and discipline, and elevation to the mind, which are the best preparation for the study of a profession, or of the ope-

rations which are peculiar to the higher mercantile, manufacturing, or agricultural establishments.

For a more particular view of the plan of education in the College, see Reports on the Course of Instruction, published in Vol. XV, of the American Journal of Science.

Public examinations of the classes are held at the close of each term on the studies of the term; and twice in the College course, at the close of the Sophomore and Senior years, on the studies of the two preceding years.

The public Commencement is held on the last Thursday in July of each year. The first term begins seven weeks from the day before Commencement and continues fourteen weeks; the second begins on the first Wednesday in January and continues fourteen weeks; the third, of twelve weeks, begins on the first Wednesday in May and continues till Commencement. The intervening periods of seven, two, and three, or as the case may be, four weeks, are assigned for vacations.

No student is allowed to be absent, without special leave, except in vacations. The absence of a student in term time, even for a few days, occasions a much greater injury than is commonly supposed by parents or guardians. During the vacations, on the contrary, parents are earnestly advised not to allow their sons to remain at the College.

PUBLIC WORSHIP.

Prayers are attended in the College Chapel every morning and evening, with the reading of the Scriptures; when one of the Faculty officiates, and all the students are required to be present. They are also required to attend public worship in the Chapel on the Sabbath, except such as have permission to attend the worship of other denominations in town, to which their parents belong.

EXPENSES.

The College bills are made out by the Treasurer three times a year, at the close of each term; and are delivered to the students, who are required to present them to their parents, guardians, or patrons. The bills are payable at the close of the term, and if not paid by the expiration of two weeks after the commencement of the succeeding term, the student is liable to be prohibited from reciting.

The annual charges in the Treasurer's bill are,

For tuition, - - - - - - -	$39 00
For rent of half chamber in College, 7½ to 16½ dollars—average, - - - - -	12 00
For ordinary repairs and contingencies, -	2 40
For general damages, sweeping, &c. about	3 60
For expenses of public rooms, - - -	3 00
	$60 00

Besides this, the student pays for damages done by himself, for tuition in optional studies during part of Junior year, and a few additional charges on graduating.

Any person admitted to an advanced standing, unless coming from another College, pays to the Treasurer, the sum of five dollars as tuition money, for each term which has been completed by the class which he enters.

Notes of the several incorporated banks in this State, and such other notes as are taken by the banks in the city of New Haven, are received in payment of the bills. Drafts on Boston, New York or Philadelphia, may be transmitted direct to the Treasurer.

Board is obtained at prices varying from $1 75 to $3 00. To a majority of the students the cost of board is not above $2 50 a week. Fuel is procured by the Corporation and distributed to those students who apply for it, at cost and charges, and must be paid for at the time of ordering.

Students who wish to take lodgings in town are permitted to do so. But if, in consequence of this, any of the rooms in College are left vacant, the amount of the rent will be charged upon those who room out.

The students provide for themselves bed and bedding, furniture for their rooms, lights, books, stationery and washing. There are also, in the several classes and literary societies, taxes of a small amount. If books and furniture are sold, when the student has no further necessity for them, the expenses incurred by their use will not be great.

The following may be considered as a near estimate of the *necessary* expenses, without including apparel, pocket money, traveling, and board in vacations:

Treasurer's bill as above, - -	$60	$60
Board, 40 weeks, - - - - -	from 70 to	100

Students in the Freshman Class who occupy the recitation rooms, save their room rent and fuel in winter, and receive a small compensation in summer. Cheap board may be obtained in clubs, by those students who wish board at a lower rate than is common in boarding houses.

Indigent students are supplied with most of the text-books, without expense, from the Benevolent and Education Libraries.

A sum somewhat exceeding two thousand dollars, derived chiefly from permanent charitable funds, is annually applied by the Corporation for the relief of indigent students, who to the number of about one hundred have their tuition either wholly or in part remitted.

With regard to apparel, and what is called pocket money, no general estimate can be made. These are the articles in which the expenses of individuals differ most; and in which some are unwarrantably extravagant. There is nothing by which the character and scholarship of the students in this College are more endangered, than by a free indulgence in the use of money. Great caution with regard to this is requisite on the part of parents.

What is more than sufficient to defray the ordinary expenses, will expose the student to numerous temptations; and will not contribute either to his respectability or happiness.

As a precaution against extravagance, parents at a distance frequently deposit funds with some one of the Faculty; who, in that case, pays a particular attention to the pecuniary concerns of the student, settles his bills, corresponds with the parent, transmits an account of the expenditures, &c., for which he charges a commission.

SCHOLARSHIPS AND PREMIUMS.

The Berkeley Scholarship, yielding about forty-six dollars a year, is awarded to the student in each Senior Class, who passes the best examination in the Greek Testament, Xenophon's Cyropædia, and Homer's Iliad, Cicero's Tusculan Questions, Tacitus (except the Annals,) and Horace; provided he remains in New Haven as a graduate one, two or three years.

The Clark Scholarship, yielding a hundred and twenty dollars a year, is awarded to the student in each Senior Class, who passes the best examination on the studies of the College course; provided he remains in New Haven as a graduate one or two years, pursuing a course of study (not professional) under the direction of the Faculty.

The Bristed Scholarship, yielding about eighty dollars a year, is awarded to the student in the Sophomore or Junior Class, whenever there may be a vacancy, who passes the best examination in the Greek and Latin classics and the mathematics. The successful candidate receives the annuity, (forfeiting one-third in case of non-residence in New Haven,) until he would regularly take his second degree.

A Scholarship, yielding sixty dollars a year, is awarded to the student in each Freshman Class, who passes the best examination in Latin composition (excellence in which is essential to success), in the Greek of the year, and in the solution of algebraic

problems. The successful candidate enjoys the annuity under certain conditions during the four years of his College course.

The Townsend Premiums, five in number, each of twelve dollars, are awarded in the Senior Class for the best specimens of English composition.

The DeForest Prize Medal, of the value of one hundred dollars, is awarded in the Senior Class for the best specimen of English composition united with the best declamation.

In the other classes premiums are also given for Latin and English composition, for Declamation, and for solutions of mathematical problems.

Theological Department.

THE Instructors in this Department are a Professor of Didactic Theology, a Professor of Sacred Literature, the Professor of Divinity in the College, and a Professor of the Pastoral Charge.

The time of admission is at the beginning of the collegiate year. It is desirable that those who join this Department should be present at the commencement of the first term. Those admitted to an advanced standing will be expected to have previously gone over the studies pursued by their respective classes.

The conditions for entrance are hopeful piety, and a liberal education at some College, or such other literary acquisition as may be considered an equivalent preparation for theological studies.

The terms and vacations are the same with those in the College.

The regular course of instruction occupies three years, and comprises the following subjects:

JUNIOR CLASS.—Hebrew Grammar, (Roediger's Gesenius, translated by Conant,) Conant's Hebrew Exercises and Chrestomathy, Principles of Sacred Criticism and Hermeneutics, Critical and Exegetical study of the Hebrew and Greek Scriptures, Critical and Exegetical Dissertations, Lectures by the Professor of Sacred Literature on some topics in Introduction to Theology, and in Exegetical Theology, Lectures by the Professor of Didactic Theology on Mental Philosophy including the Will.

MIDDLE CLASS.—Lectures by the Professor of Didactic Theology, on Moral Philosophy, Moral Government, Natural Theology, Necessity and Evidences of Revelation, and Systematic Theology. Exegetical study of the Scriptures and Dissertations continued.

SENIOR CLASS.—Lectures on the Structure and Composition of Sermons, and on Public Prayer. Criticism of Skeletons and of Sermons, Exercises in Extemporaneous Speaking and Preaching before the Class, Lectures on the Pastoral Charge, on Revivals of Religion, on the History of Modern Missions, and on Expository Preaching, Lectures on Elocution attended by Practice in the Delivery of Sermons.

There are weekly Debates in the Rhetorical Society, at which the Professor of Didactic Theology presides, and in which the members of all the Classes participate.

The students have access to the College Library, and to the libraries of the several literary Societies in the College.

A building has been erected for the accommodation of students in which the rooms are free of rent; but each occupant is subject to a charge of $3,50 a year for incidental expenses. No other charges are made to the students.

In addition to the aid afforded by the American Education Society, provision is now made for efficient assistance to those who need it. Such persons also have an opportunity of attending, free of expense, the Lectures of Professor SILLIMAN, Professor OLMSTED and others, on Natural Science; and those preparing for missionary service, also on the Lectures in the Medical Department.

Law Department.

THIS Department is under the direction of a Faculty, consisting of the President of the College, and two Law Professors, to wit, Hon. CLARK BISSELL, LL. D., late Judge of the Supreme Court of the State; and Hon. HENRY DUTTON, late Judge of the New Haven County Court.

COURSE OF INSTRUCTION.

The students are required to peruse the most important elementary treatises, and are daily examined on the author they are reading, and receive at the same time explanations and illustrations of the subjects they are studying.

The School is divided into three reading classes. Each class is daily employed upon a lesson in the Class Book, and is separately examined, and every student can read in one or more of the three classes, as he finds himself able and inclined to perform the requisite labor.

Courses of Lectures are delivered by the Instructors, on all the titles and subjects of Common and Statute Law, and of Equity.

Three exercises, consisting of Lectures or Examinations of one hour each, are daily given by the Instructors, and at all of them each of the pupils is permitted to attend.

A moot court is held once a week or oftener, which employs the students in drawing pleadings, and investigating and arguing questions of law.

The students are called upon, from time to time, to draw declarations, pleadings, contracts, and other instruments connected with the practice of law, and to do the most important duties of an attorney's clerk.

They are occasionally required to write disquisitions on some topic of law, and collect the authorities to support their opinions.

The more advanced students are assisted in the study of the laws of the particular States in which they intend to establish themselves.

The following are some of the principal studies of the course: Blackstone's Commentaries; Real Estate; Personal Property; Contracts; Domestic Relations; Parties to Actions; Forms of Actions; Pleading; Evidence; Nisi Prius; Bills of Exchange and Promissory Notes; Insurance; Shipping; Corporations; Criminal Law; Equity; Constitution of the United States; Law of Nations; Conflict of Laws.

The students are furnished with the use of the elementary books, and have access, at all times, to the College libraries, and to a law library, comprising every important work, both ancient and modern. The law library contains the Revised Statutes, the Reports and the Digests of all the States in the Union.

The course of study occupies two years. The Summer and Spring vacations in this Department coincide with those in the Academical Department. There is also a recess of about two weeks near the first of January in each year.

The terms for tuition, with constant use of text-books, and ordinary use of the library, are as follows, payable in advance, unless for satisfactory reasons. For the whole course of two years, one hundred and fifty dollars. For one year, eighty dollars. For less than one year, ten dollars a month. For more than one year and less than two years, seven dollars a month after the first year.

The degree of Bachelor of Laws will be conferred by the President and Fellows, on liberally educated students who have been members of the Department eighteen months, and have complied with the regulations of the Institution, and passed a satisfactory examination. Those not liberally educated, will be graduated upon similar conditions, after two years' membership; and members of the Bar, after one year's membership subsequent to their admission to the Bar.

Medical Department.

THE Instructors in the Medical Institution, are a Professor of Chemistry and Pharmacy, a Professor of the Theory and Practice of Physic, a Professor of Surgery, a Professor of Obstetrics, a Professor of Anatomy and Physiology, and a Professor of Materia Medica and Therapeutics.

The annual course of lectures commences on the last Thursday of September, and continues four months. The lectures are so arranged, that at least five are given daily, and a part of the time six.

A Medical and Surgical Clinique is held every week, at the Connecticut Hospital, during the lecture term, at which a variety of cases is presented, for consultation and operations, in presence of the class.

The fees, which are required in advance, are $12,50 for each course, except that on Obstetrics, which is $6, with a Matriculation fee of $5—the whole amounting to $73,50. The tickets of all the Professors, or a part, may be taken any one season. Those who have attended two full courses of Lectures in this Institution, are entitled to admission to future courses gratis. Those who have attended one full course in this Institution, and also one full course in another incorporated Medical Institution, will be admitted to a full course on paying the Matriculation fee. Board, with room, &c., may be obtained at from $2,25 to $3 per week.

The students are entitled to gratuitous admission to the course of Lectures on Anatomy and Physiology, given by Professor KNIGHT, during the spring term, to the Senior Class in the Academical Institution, and to the courses by Professor SILLIMAN, on Mineralogy, during the spring, and on Geology, during the summer. They also have admission to the various other Lectures in the Academical Institution, on paying the fees of the several courses.

The Medical College building is spacious and commodious. The Anatomical Museum, already one of the most valuable in the country, has recently received important additions, at an expenditure of nearly $1,500; *and there will hereafter be an annual income of about* $1,000 *to be applied to similar purposes.* The arrangements for Dissections are ample, and subjects are supplied on the most reasonable terms. The Anatomical rooms, the Cabinet of the Materia Medica, the Museum of the Yale Natural History Society, the Cabinet of Minerals, and the Libraries of the Medical and Academical Institutions, are all open to students.

By the Statutes of the State, the requirements for the Degree of Doctor in Medicine are three years' study for those who are not Bachelors of Arts, and two years' for those who are; attendance upon two full courses of Lectures, either in this Institution,

or some other of a similar character; the attainment of twenty one years of age, and a good moral character; together with a satisfactory examination before the Board of Examiners for the State, at which the candidate must present a dissertation upon some subject connected with the Medical Sciences, written in a form prescribed by the Faculty. This Board consists of the Medical Professors of the College, *ex officiis*, and an equal number of persons chosen by the Fellows of the Medical Society of the State. Licenses to practice are granted by the President of the Society, upon the recommendation of the Board of Examiners, and candidates for a license must possess the same qualifications as those for a degree, except that attendance upon one course of Lectures only is required. The graduation fee is $15 —fee for a license, including diploma, $4,50. The examination is held immediately after the close of the Lectures, when the licenses are granted and the degrees conferred.

Department of Philosophy and the Arts.

It has long been felt at Yale College to be important to furnish resident graduates and others, with the opportunity of devoting themselves to special branches of study either not provided for at present, or not pursued as far as individual students may desire. With the hope of accomplishing this object more fully and systematically, the Corporation at their meeting in August, 1846, appointed a Committee to take this subject into consideration, and in accordance with the report of the Committee, at their next meeting in August, 1847, established a new department, called the Department of Philosophy and the Arts. The branches intended to be embraced in this department are such in general as are not included under Theology, Law and Medicine; or more particularly, Mathematical Science, Physical Science and its application to the Arts, Metaphysics, Philology, Literature

and History. Instruction in this department may be given by professors not belonging to the other departments, by the Academical professors, and by such others as the President and Fellows may approve. The Instructors for the year, with the President, compose the Faculty of the department. The instructions in the department are intended for graduates of this and other Colleges, and for such other young men as are desirous of pursuing special branches of study; but it is necessary for all students in philology and mathematical science, that they be thoroughly grounded in those studies.

The degree of Bachelor of Philosophy will be conferred by the President and Fellows, upon students in the Department of Philosophy and the Arts, after being connected with the Department for two years, and passing a satisfactory examination in three branches of study.

A School of Applied Chemistry and a School of Engineering are embraced within this department, of which a more particular notice may be found below. For the terms of entrance upon the several courses in the department, application may be made to the several instructors.

Professor SILLIMAN's lectures on Mineralogy and Geology, will be open to the students of this department.

Professor GIBBS proposes to give lectures on some points of general Philology.

Professor OLMSTED's lectures on Natural Philosophy and Astronomy will be open to the students of this department. He will also, if desired, give private instruction in Experimental Philosophy, and Astronomical Calculations.

Professor NOAH PORTER will instruct in Psychology, Logic and the History of Philosophy.

Professor NORTON will instruct in Civil and Mechanical Engineering.

Professor THACHER will instruct twice a week in Lucretius and in Latin Composition.

Professor SILLIMAN, Jr., will resume his duties in this department during the summer term of this year.

Professor HADLEY will instruct twice a week in Thucydides or Pindar.

Professor JOHN A. PORTER will give the course of lectures on Chemistry in the Academical department, during the present year, which will be open to the students of this department; he will also instruct in the applications of science to Agriculture and in Analytical Chemistry.

SCHOOL OF APPLIED CHEMISTRY.

According to the method pursued in this department, each student engages in a systematic course of experiment, in which he is superintended by the instructors. The course includes among other applications, the analysis of grains, soils, and minerals, the determination of the commercial value of drugs and chemicals and experiments in Medical Chemistry.

A course of lectures on Agricultural Chemistry by Professor JOHN A. PORTER will commence January 9th and continue two months and a half, at the rate of three lectures in each week. A special course in Analysis will accompany these lectures.

Professor SILLIMAN, Jr., will give a course of lectures, during the summer term of this year, on certain branches of Applied Chemistry.

The Laboratory is open to the class during the whole day at a charge of from $60 to $70 per term of twelve to fourteen weeks. This includes the expense of materials consumed and the use of apparatus. The fee for the lectures on Agricultural Chemistry is $10. Students are received for any period not less than a month, or to spend a portion of each day in the Laboratory; and are charged accordingly. Previous study of Chemistry is not essential to admission.

A mineralogical cabinet is deposited in the Laboratory for the use of students in this department; they will also have access to the College mineralogical and geological cabinets and to the libraries.

The text-books used will be Dana's Mineralogy, Silliman's Chemistry, Fresenius's Analysis, Will's Outlines, Rose's Chemical Analysis.

The lectures on Chemistry in the Academical department, commence the first week of the first term, and continue through the term. The lectures on Mineralogy are delivered during the second term, and those on Geology commence the first week of the third term and continue six weeks. Students in Mineralogy may also have the benefit of consultation with Professor DANA. The experimental lectures of Professor OLMSTED, on Natural Philosophy, commence the first Tuesday of November, and continue nearly at the rate of two a week, through the year. His lectures on Meteorology, and Astronomy commence at the beginning of the second term, and continue, daily, for about seven weeks.

SCHOOL OF ENGINEERING.

THE Course of Instruction embraces the following studies and exercises.

Surveying, in all its branches, with the adjustment and use of instruments, and operations in the field.

Drawing—topographical, geometrical, mechanical, architectural; with shading and tinting.

Descriptive Geometry—Shades and Shadows—Linear Perspective—Isometrical Projection; pursued in connection with systematic exercises in geometrical drawing.

Applications of Descriptive Geometry to Masonry and Stone-cutting, in the construction of Arches, &c., and to Civil and Mechanical Engineering, generally.

The Principles of Architecture.

Analytical Geometry, and Differential and Integral Calculus.

Mechanics, including Hydraulics and Pneumatics;—Application of Mechanics to Machinery and Engineering.

The Science of Construction in its various departments; with a discussion of the nature, strength, and mode of preparation of building materials.

Engineering field-work; or the location of roads, surveys for excavations and embankments, &c. Use of astronomical instruments for the determination of time, latitude and longitude, &c.

This course will occupy two years. Students will be admitted to pursue a full or a partial course, at their option.

The preparatory mathematical studies required for admission to the full course, are Arithmetic, Algebra, Geometry, and Trigonometry.

The terms, or sessions, coincide with those in the Academical Department.

The tuition fee for the full course, for each term, is $30, to be paid in advance. The fee for the course of Surveying alone is $12. There is no charge for incidental expenses.

Students in this School have free access to the College Library, and to the mineralogical and geological cabinets.

The lectures of Professor SILLIMAN, Senior, upon Mineralogy and Geology, those of Professor OLMSTED, upon Natural Philosophy, Astronomy, and Meteorology, and those of Professor JOHN A. PORTER upon Chemistry, in the Academical Department, are also accessible.

TIME AND CONDITIONS OF EXAMINATION.

THE REGULAR EXAMINATION for admission to College takes place on Monday and Tuesday preceding the public Commencement, beginning at 9 o'clock A. M. on Monday, and at 8 o'clock A. M. on Tuesday. The candidates assemble at Alumni Hall. There

will be another examination at the same place, on Tuesday and Wednesday, Sept. 11th and 12th, beginning at 9 o'clock A. M. on Tuesday, and at 8 o'clock A. M. on Wednesday. Persons may be examined for an advanced standing in any other part of the collegiate terms, but not in vacations, except in very special cases. No one can be admitted to the Senior Class, after the commencement of the second term.

ADVANCED STANDING.—All candidates for advanced standing, whether from other Colleges or not, in addition to the preparatory studies, are examined in those previously pursued by the classes which they propose to enter.

AGE.—No one can be admitted to the Freshman Class, till he has completed his fourteenth year, nor to an advanced standing without a proportional increase of age.

TESTIMONIALS.—Testimonials of good moral character are in all cases required; and those who are admitted from other Colleges must produce certificates of dismission in good standing.

BOND.—Every person, on being admitted, must also give to the Treasurer a bond, executed by his parent or guardian, for two hundred dollars to pay all charges which may arise under the laws of the College.

MATRICULATION.—The students are not considered as regular members of the College, till, after a residence of at least six months, they have been admitted to matriculation, on satisfactory evidence of an unblemished moral character. Before this they are only students on probation. The laws of the College provide for the final separation from the institution of those, who, within a specified time, do not so far approve themselves to the Faculty as to be admitted to matriculation.

COURSE OF INSTRUCTION.

THE FACULTY, to whom are committed the government and instruction of the undergraduate students, consists of a President; a Professor of Natural Philosophy and Astronomy; a Professor of Rhetoric and English Literature; a Professor of Mathematics; a Professor of Moral Philosophy and Metaphysics; a Professor

of Natural History; a Professor of the Latin Language and Literature; a Professor of the Greek Language and Literature; a Professor of Divinity; and seven Tutors.

The whole course of instruction occupies four years. In each year there are three terms or sessions.

The three younger classes are divided each into three parts; the Senior Class into two parts. Each of the four classes attends three recitations or lectures in a day; except on Wednesdays and Saturdays, when they have only two. The following scheme gives a general view of the studies pursued in each term:—

The Sophomore Class have frequent exercises in Elocution, and once a week have an exercise in Declamation in the Chapel, before the Professor of Rhetoric and the members of the Class.

ELECTIVE STUDIES.

THOSE students, who are desirous of pursuing the higher branches of the Mathematics, are allowed to choose Analytical Geometry in place of the regular Mathematics, in the third term of Sophomore Year, and the Differential and Integral Calculus, during the first two terms of Junior Year, in place of the Greek or the Latin studies of those terms.

During the third term of Junior Year, in addition to the required studies of the term, the members of the class are allowed to receive instruction in some select Greek or Latin; Hebrew; the Modern Languages; or Practical Surveying.

Students who desire instruction in the modern languages, may receive it, at their own expense, from competent teachers, engaged for the purpose by the Faculty.

EXAMINATIONS.

PUBLIC EXAMINATIONS of the classes are held at the close of each term on the studies of the term; and twice in the College course, at the close of the Sophomore and Senior years, on the studies of the two preceding years. The Biennial Examinations are conducted wholly in writing and are continued each for a period of between two and three weeks.

TERMS AND VACATIONS.

THE PUBLIC COMMENCEMENT is held on the last Thursday in July of each year. The first term begins seven weeks from the day before Commencement and continues fourteen weeks; the second begins on the first Wednesday in January and continues fourteen weeks; the third, of twelve weeks, begins on the first Wednesday in May and continues till Commencement. The intervening periods of seven, two, and three, or as the case may be, four weeks, are assigned for vacations.

LEAVE OF ABSENCE.—No student is allowed to be absent, without special leave, except in vacations. The absence of a student in term time, even for a few days, occasions a much greater injury than is commonly supposed by parents or guardians. During the vacations, on the contrary, parents are earnestly advised not to allow their sons to remain at the College.

PUBLIC WORSHIP.

PRAYERS are attended in the College Chapel every morning and evening, with the reading of the Scriptures; when one of the Faculty officiates, and all the students are required to be present.

Public worship is held in the Chapel on the Sabbath, which all the students are required to attend, except such as have special permission to attend the worship of other denominations, to which their parents belong. Such permission can be obtained only by presenting to the President a written request from the parent or guardian.

EXPENSES.

THE COLLEGE BILLS are made out by the Treasurer three times a year, at the close of each term; and are delivered to the students, who are required to present them to their parents, guardians, or patrons. The bills are payable at the close of the term,

and if not paid by the expiration of two weeks after the commencement of the succeeding term, the student is liable to be prohibited from reciting.

The annual charges in the Treasurer's bill are,

For tuition, - - - - - - - -	$39 00
For rent of half chamber in College, 7½ to 16½ dollars—average, - - - - -	12 00
For ordinary repairs and contingencies, -	2 40
For general damages, sweeping, &c. about	3 60
For expenses of public rooms, - - -	3 00
	$60 00

Besides this, the student pays for damages done by himself, for tuition in optional studies during part of Junior year, and a few additional charges on graduating.

If a student occupies a whole room the charge for rent is double that stated above.

Any person admitted to an advanced standing, unless coming from another College, pays to the Treasurer, the sum of five dollars as tuition money, for each term which has been completed by the class which he enters.

Notes of the several incorporated banks in this State, and such other notes as are taken by the banks in the city of New Haven, are received in payment of the bills. Drafts on Boston, New York or Philadelphia, may be transmitted direct to the Treasurer.

Board is obtained at prices varying from $2 00 to $3 00. To a majority of the students it is about $2 75 a week. Cheap board may be obtained in clubs, by those students who wish board at a lower rate than is common in boarding houses.

Students who wish to take lodgings in town are permitted to do so. But if, in consequence of this, any of the rooms in College are left vacant, the amount of the rent will be charged upon those who room in town. The expense of room rent in private houses is much greater than in College.

The students provide for themselves bed and bedding, furniture for their rooms, fuel, lights, books, stationery and washing. There are also, in the several classes and literary societies, taxes

of a small amount. If books and furniture are sold, when the student has no further necessity for them, the expenses incurred by their use will not be great.

The following may be considered as a near estimate of the *necessary* expenses, without including apparel, pocket money, traveling, and board in vacations:—

Treasurer's bill as above, - -		$60	$60
Board, 40 weeks, - - - -	from	80 to	120
Fuel and lights, - - - -	"	6 "	15
Use of books recited, and stationery,	"	5 "	15
Use of furniture, bed and bedding,	"	5 "	15
Washing, - - - - - -	"	12 "	18
Taxes in the Societies, &c. - -	"	6 "	8
Total,		$174 to	$251

FUEL is distributed to those students who apply for it, at cost and charges, and *must be paid for at the time of ordering.*

With regard to apparel, and what is called pocket money, no general estimate can be made. These are the articles in which the expenses of individuals differ most; and in which some are unwarrantably extravagant. There is nothing by which the character and scholarship of the students in this College are more endangered, than by a free indulgence in the use of money. Great caution with regard to this is requisite on the part of parents. What is more than sufficient to defray the ordinary expenses, will expose the student to numerous temptations; and will not contribute either to his respectability or happiness.

As a precaution against extravagance, parents at a distance frequently deposit funds with some one of the Faculty; who, in that case, pays a particular attention to the pecuniary concerns of the student, settles his bills, corresponds with the parent, transmits an account of the expenditures, &c., for which he charges a commission.

BENEFICIARY FUNDS.

A SUM somewhat exceeding two thousand dollars, derived chiefly from permanent charitable funds, is annually applied by

the Corporation for the relief of indigent students, who, to the number of about one hundred, have their tuition either wholly or in part remitted.

Means are provided for discharging the tuition ($13 per term) of those students who are preparing for the ministry of the Gospel.

Indigent students are also supplied with most of the text-books used in the College course, without expense, from the Benevolent and Education Libraries.

Students in the Freshman Class who occupy the recitation rooms, save their room rent and fuel in winter, and receive a small compensation in summer.

SCHOLARSHIPS.

THE BERKELEY SCHOLARSHIP, yielding about forty-six dollars a year, is awarded to the student in each Senior Class, who passes the best examination in the Greek Testament, Xenophon's Cyropædia, and Homer's Iliad, Cicero's Tusculan Questions, Tacitus, (except the Annals,) and Horace; provided he remains in New Haven as a graduate one, two or three years.

THE CLARK SCHOLARSHIP, yielding a hundred and twenty dollars a year, is awarded to the student in each Senior Class, who passes the best examination on the studies of the College course; provided he remains in New Haven as a graduate one or two years, pursuing a course of study (not professional) under the direction of the Faculty.

THE BRISTED SCHOLARSHIP, yielding about eighty dollars a year, is awarded to the student in the Sophomore or Junior Class, whenever there may be a vacancy, who passes the best examination in the Greek and Latin classics and the mathematics. The successful candidate receives the annuity, (forfeiting one-third in case of non-residence in New Haven,) until he would regularly take his second degree.

A SCHOLARSHIP, yielding sixty dollars a year, is awarded to the student in each Freshman Class, who passes the best examination in Latin composition (excellence in which is essential to suc-

cess), in the Greek of the year, and in the solution of algebraic problems. The successful candidate enjoys the annuity under certain conditions during the four years of his College course.

PREMIUMS.

The DeForest Prize Medal, of the value of one hundred dollars, will be awarded "to that scholar of the Senior Class, who shall write and pronounce an English Oration in the best manner."

The Townsend Premiums, five in number, each of twelve dollars, are awarded in the Senior Class for the best specimens of English composition.

The Berkeley Premiums for Latin composition are offered to the Junior, Sophomore, and Freshman Classes near the beginning of the third term.

The Clark Premiums will be offered, during the present year, for the best examination in the Latin of the second term of Junior year; for excellence in the department of the higher Mathematics of Junior year; and for the solution of problems in Practical Astronomy.

The College Premiums are also given in the Sophomore Class for English composition, at the end of the first and second terms, in the Sophomore Class for Declamation, and in the Sophomore and Freshman Classes for the solution of mathematical problems.

DEGREES.

The Degree of Bachelor of Arts is conferred on those persons who have attended and fulfilled the course of academical exercises, as appointed by law, for the space of four years, and have been approved on examination at the end of the course as candidates for the same. But no person can receive this degree, unless he shall have paid his dues to the Treasurer as early as the Monday before the Commencement.

Every Bachelor of Arts of three years' or longer standing may receive the Degree of Master of Arts on the payment of a fee of five dollars, provided he shall, in the interval, have sustained a good moral character. Application must be made to the President previous to the Commencement.

Theological Department.

THE INSTRUCTORS in this Department are a Professor of Didactic Theology, a Professor of Sacred Literature, a Professor of the Pastoral Charge, and the Professor of Divinity.

The TIME OF ADMISSION is at the beginning of the collegiate year. It is desirable that those who join this Department should be present at the commencement of the first term. Those admitted to an advanced standing will be expected to have previously gone over the studies pursued by their respective classes.

The CONDITIONS for entrance are hopeful piety, and a liberal education at some College, or such other literary acquisition as may be considered an equivalent preparation for theological studies.

The TERMS AND VACATIONS are the same with those in the College.

The REGULAR COURSE OF INSTRUCTION occupies three years, and comprises the following subjects:

JUNIOR CLASS.

Hebrew Grammar, (Roediger's Gesenius, translated by Conant).
Conant's Hebrew Exercises and Chrestomathy.
Principles of Sacred Criticism and Hermeneutics.
Critical and Exegetical study of the Hebrew and Greek Scriptures.
Critical and Exegetical Dissertations.
LECTURES by the Professor of Sacred Literature on some topics in Introduction to Theology, and in Exegetical Theology.
LECTURES by the Professor of Didactic Theology on Mental Philosophy including the Will

MIDDLE CLASS.

LECTURES by the Professor of Didactic Theology—
On Moral Philosophy.
Moral Government.
Natural Theology.
Necessity and Evidences of Revelation.
Systematic Theology.
Exegetical study of the Scriptures and Dissertations continued.

SENIOR CLASS.

LECTURES on the Structure and Composition of Sermons and on Public Prayer.
Criticism of Skeletons and of Sermons.
Exercises in Extemporaneous Speaking and Preaching before the Class.
LECTURES on the Pastoral Charge.
Revivals of Religion.
History of Modern Missions.
Expository Preaching.
Elocution, attended by Practice in the Delivery of Sermons.

There are weekly Debates in the Rhetorical Society, at which the Professor of Didactic Theology presides, and in which the members of all the Classes participate.

The students have access to the Theological Library, to the College Library, and to the libraries of the several literary Societies in the College.

A building has been erected for the accommodation of students in which the rooms are free of rent; but each occupant is subject to a charge of $3,50 a year for incidental expenses. No other charges are made to the students.

In addition to the aid afforded by the American Education Society, provision is now made for efficient assistance to those who need it. Such persons also have an opportunity of attending, free of expense, the Lectures of Professor SILLIMAN, Professor OLMSTED and others, on Natural Science; and those preparing for missionary service, also on the Lectures in the Medical Department.

Law Department.

THIS Department is under the direction of a FACULTY, consisting of the President of the College, and two Law Professors, Hon. CLARK BISSELL, LL. D., late Judge of the Supreme Court of the State; and Hon. HENRY DUTTON, LL. D., Governor of the State.

THE COURSE OF STUDY occupies two years. The Summer and Spring vacations in this Department coincide with those in the Academical Department. There is also a recess of about two weeks near the first of January in each year.

The School is divided into three reading classes. Each class is daily employed upon a lesson in the Class Book, and is separately examined, and every student can read in one or more of

the three classes, as he finds himself able and inclined to perform the requisite labor.

The students are required to peruse the most important elementary treatises, and are daily examined on the author they are reading, and receive at the same time explanations and illustrations of the subjects they are studying.

The following are some of the principal studies of the course: Blackstone's Commentaries; Real Estate; Personal Property; Contracts; Domestic Relations; Parties to Actions; Forms of Actions; Pleading; Evidence; Nisi Prius; Bills of Exchange and Promissory Notes; Insurance; Shipping; Corporations; Criminal Law; Equity; Constitution of the United States; Law of Nations; Conflict of Laws.

COURSES OF LECTURES are delivered by the Instructors, on all the titles and subjects of Common and Statute Law, and of Equity.

Three exercises, consisting of Lectures or Examinations of one hour each, are daily given by the Instructors, and at all of them each of the pupils is permitted to attend.

A MOOT COURT is held once a week or oftener, which employs the students in drawing pleadings, and investigating and arguing questions of law.

The students are called upon, from time to time, to draw declarations, pleadings, contracts, and other instruments connected with the practice of law, and to do the most important duties of an attorney's clerk.

They are occasionally required to write disquisitions on some topic of law, and collect the authorities to support their opinions.

The more advanced students are assisted in the study of the laws of the particular States in which they intend to establish themselves.

The students are furnished with the use of the elementary books, and have access, at all times, to the College libraries, and to a law library, comprising every important work, both ancient and modern. The law library contains the Revised Statutes, the Reports and the Digests of all the States in the Union.

THE TERMS FOR TUITION, with constant use of text-books, and ordinary use of the library, are as follows, payable in advance,

unless for satisfactory reasons. For the whole course of two years, one hundred and fifty dollars. For one year, eighty dollars. For less than one year, ten dollars a month. For more than one year and less than two years, seven dollars a month after the first year.

The DEGREE of Bachelor of Laws will be conferred by the President and Fellows, on liberally educated students who have been members of the Department eighteen months, and have complied with the regulations of the Institution, and passed a satisfactory examination. Those not liberally educated, will be graduated upon similar conditions, after two years' membership; and members of the Bar, after one year's membership subsequent to their admission to the Bar.

Medical Department.

THE INSTRUCTORS in the Medical Department are a Professor of Chemistry and Pharmacy, a Professor of the Theory and Practice of Physic, a Professor of Surgery, a Professor of Obstetrics, a Professor of Anatomy and Physiology, and a Professor of Materia Medica and Therapeutics.

THE ANNUAL COURSE OF LECTURES commences on Thursday, seven weeks after the College Commencement, (Sept. 13th, 1855,) and continues four months. The lectures are so arranged, that at least five are given daily, and a part of the time six.

A Medical and Surgical Clinique is held every week, at the Connecticut Hospital, during the lecture term, at which a variety of cases is presented, for consultation and operations, in presence of the class.

THE FEES, which are required in advance, are $12,50 for each course, except that on Obstetrics, which is $6, with a Matriculation fee of $5—the whole amounting to $73,50. The tickets of all the Professors, or a part, may be taken in any one season. Those who have attended two full courses of Lectures in this Institution, are entitled to admission to future courses gratis. Those who have attended one full course in this Institution, and also one full course in another incorporated Medical Institution, will be admitted to a full course on paying the Matriculation fee.

The students are entitled to gratuitous admission to the course of Lectures on Anatomy and Physiology, given by Professor KNIGHT, during the spring term, to the Senior Class in the Academical Department, and to the courses by Professor SILLIMAN, on Mineralogy, during the spring, and on Geology, during the summer. They also have admission to the various other Lectures in the Academical Department, on paying the fees of the several courses.

The Medical College building is spacious and commodious. The Anatomical Museum, already one of the most valuable in the country, has recently received important additions, at an expenditure of nearly $1,500; *and there will hereafter be an annual income of about* $1,000 *to be applied to similar purposes.* The arrangements for Dissections are ample, and subjects are supplied on the most reasonable terms. The Anatomical rooms, the Cabinet of the Materia Medica, the Museum of the Yale Natural History Society, the Cabinet of Minerals, and the Libraries of the Medical and Academical Departments, are all open to students.

By the Statutes of the State, the requirements for the DEGREE of Doctor in Medicine are three years' study for those who are not Bachelors of Arts, and two years' for those who are; attendance upon two full courses of Lectures, either in this Institution, or some other of a similar character; the attainment of twenty one years of age, and a good moral character; together with a satisfactory examination before the Board of Examiners for the State, at which the candidate must present a dissertation upon some subject connected with the Medical Sciences, written in a form prescribed by the Faculty. This Board consists of the Medical Professors of the College, *ex officiis*, and an equal number of persons chosen by the Fellows of the Medical Society of the State. Licenses to practice are granted by the President of the Society, upon the recommendation of the Board of Examiners, and candidates for a license must possess the same qualifications as those for a degree, except that attendance upon one course of Lectures only is required. The graduation fee is $15—fee for a license, including diploma, $4,50. The examination is held immediately after the close of the Lectures, when the licenses are granted and the degrees conferred.

Department of Philosophy and the Arts.

THE DESIGN of this Department is to furnish resident graduates and others, with the opportunity of devoting themselves to special branches of study, either not otherwise provided for, or not pursued as far as individual students may desire. The branches intended to be embraced in this department are such in general as are not included under Theology, Law and Medicine; or more particularly, Mathematical Science, Physical Science and its application to the Arts, Metaphysics, Philology, Literature and History. Instruction in this department may be given by professors not belonging to the other departments, by the Academical professors, and by such others as the President and Fellows may approve. The Instructors for the year, with the President, compose the Faculty of the department. It is necessary for all students in philology and mathematical science, that they be thoroughly grounded in those studies.

For the TERMS OF ENTRANCE upon the several courses in the department, application may be made to the several instructors.

Professor SILLIMAN'S lectures on Mineralogy and Geology will be open to the students of this department.

Professor GIBBS proposes to give lectures on some points of general Philology.

Professor OLMSTED'S lectures on Natural Philosophy and Astronomy will be open to the students of this department. He will also, if desired, give private instruction in Experimental Philosophy, and Astronomical Calculations.

Professor NOAH PORTER will instruct in Psychology, Logic and the History of Philosophy.

Professor NORTON will instruct in Civil and Mechanical Engineering.

Professor THACHER will instruct twice a week in Lucretius and in Latin Composition.

Professor SILLIMAN, Jr.'s lectures on Chemistry before the Academical students will be open to the students of this department.

Professor HADLEY will instruct twice a week in Pindar or Theocritus.

Professor JOHN A. PORTER will instruct in the applications of science to Agriculture and in Analytical Chemistry.

Professor WHITNEY will give instruction in Sanskrit from Bopp's Grammar and Nalus, or such other text-books as may be agreed upon, and in the rudiments of the Ancient and Modern Persian, and of the Egyptian languages.

YALE SCIENTIFIC SCHOOL.

THIS SCHOOL, which is embraced within the Department of Philosophy and the Arts, is under the immediate supervision of Professors WILLIAM A. NORTON, BENJAMIN SILLIMAN, Jr., and JOHN A. PORTER, and includes courses of instruction in Applied Chemistry and in Engineering.

APPLIED CHEMISTRY.

ACCORDING to the method pursued in this department, each student engages in a systematic course of experiment, in which he is superintended by the instructors. The course includes among other applications, the analysis of grains, soils, and minerals, the determination of the commercial value of drugs and chemicals, and experiments in Medical Chemistry.

THE TEXT-BOOKS used will be Dana's Mineralogy, Silliman's Chemistry, Fresenius's Analysis, Will's Outlines, Rose's Chemical Analysis.

A COURSE OF LECTURES on Agricultural Chemistry by Professor JOHN A. PORTER will commence January 8th and continue two months and a half, at the rate of three lectures in each week. A special course in Analysis will accompany these lectures.

Professor SILLIMAN, Jr. will give instruction in Chemical Mineralogy to such persons as may desire it.

THE ANALYTICAL LABORATORY is open to the class during the whole day at a charge of from $60 to $70 per term of twelve to fourteen weeks. This includes the expense of materials consumed and the use of apparatus. The charge is diminished in the case of students who are connected with the school for a period less than a full term, or spend only a portion of each day

in the Laboratory. The fee required of the students in this school for the lectures on Agricultural Chemistry is $10; in the case of those connected with other departments of the College it is $5. There is also a Matriculation fee of $5. Previous study of Chemistry is not essential to admission.

A MINERALOGICAL CABINET is deposited in the Laboratory for the use of students in this department; they will also have access to the College mineralogical and geological cabinets and to the libraries.

THE LECTURES on Chemistry in the Academical department, commence the first week of the first term, and continue through the term. The lectures on Mineralogy are delivered during the second term, and those on Geology commence the first week of the third term, and continue six weeks. Students in Mineralogy may also have the benefit of consultation with Professor DANA. The experimental lectures of Professor OLMSTED, on Natural Philosophy, commence about the first of November, and continue nearly at the rate of two a week, through the year. His lectures on Meteorology and Astronomy commence at the beginning of the second term, and continue, daily, for about seven weeks.

ENGINEERING.

THE COURSE OF INSTRUCTION embraces the following studies and exercises.

Surveying, in all its branches, with the adjustment and use of instruments, and operations in the field.

Drawing—topographical, geometrical, mechanical, architectural; with shading and tinting.

Descriptive Geometry—Shades and Shadows—Linear Perspective—Isometrical Projection; pursued in connection with systematic exercises in geometrical drawing.

Applications of Descriptive Geometry to Masonry and Stonecutting, in the construction of Arches, &c., and to Civil and Mechanical Engineering, generally.

The Principles of Architecture.

Analytical Geometry, and Differential and Integral Calculus.

Mechanics, including Hydraulics and Pneumatics;—Application of Mechanics to Machinery and Engineering.

The Science of Construction in its various departments; with a discussion of the nature, strength, and mode of preparation of building materials.

Engineering field-work; or the location of roads, surveys for excavations and embankments, &c. Use of astronomical instruments for the determination of time, latitude and longitude, &c.

THIS COURSE will occupy two years. Students will be admitted to pursue a full or a partial course, at their option.

THE PREPARATORY MATHEMATICAL STUDIES required for admission to the full course, are Arithmetic, Algebra, Geometry, and Trigonometry.

THE TERMS, or SESSIONS, coincide with those in the Academical Department.

THE TUITION FEE for the full course, for each term, is $30, to be paid in advance. The fee for the course of Surveying alone is $12. The Matriculation fee is $5. There is no charge for incidental expenses.

Students in this School have free access to the College Library, and to the mineralogical and geological cabinets.

Professor SILLIMAN, Jr. will give, during the second term, a short course of lectures to the students of this school, on the chemistry of Materials used in Construction.

THE LECTURES of Professor SILLIMAN, Senior, on Mineralogy and Geology, those of Professor OLMSTED, on Natural Philosophy, Astronomy, and Meteorology, and those of Professor SILLIMAN, Jr., on Chemistry, in the Academical Department, are also accessible, on payment of the fees.

THE DEGREE of Bachelor of Philosophy will be conferred by the President and Fellows, upon students in the Department of Philosophy and the Arts, after being connected with the Department for two years, and passing a satisfactory examination in three branches of study.

In the case of students connected with the School of Chemistry or Engineering, the two departments of science on which this examination for a degree is held, must both be pursued in the same school.

LIBRARY.

THE COLLEGE LIBRARY is designed for the use of the several Faculties of the College, Resident Graduates, Students connected with the Theological, Law, Medical and Philosophical Schools, and the members of the Senior and Junior Classes in the Academical Department.

THE THEOLOGICAL LIBRARY, in the Trumbull Gallery Building, the LAW LIBRARY, in the Law College, the MEDICAL LIBRARY, in the Medical College, and the SCIENTIFIC LIBRARY, in the Analytical Laboratory, are intended for the especial use of those who are connected with these several departments.

The whole number of books in the College Library is about - - -	30,000
" " in the Libraries of the professional schools, -	5,000
" " in the Libraries of the Literary Societies, -	27,000
Total, - - - - - - - - - - - -	62,000

TRUMBULL GALLERY.

THIS Building was erected in 1831, and is divided into two apartments.

THE NORTH GALLERY contains the collection of original pictures by Col. TRUMBULL, which was arranged here in 1832, under the eye of the artist. At his death in 1843, the pictures became the property of the College, upon the condition that the proceeds of the Exhibition should be forever applied in aid of the education of indigent students in Yale College.

The eight Historical Pictures of scenes in the American Revolution,—the originals from which were painted by the artist those now in the rotunda of the National Capitol,—with portraits of many of the actors on both sides, form an unique feature of this gallery and give it a high value.

THE SOUTH GALLERY contains about sixty pictures, including portraits of many, whose names are intimately connected with the early history of the College and of the Colony.

CABINET.

THE MINERALOGICAL AND GEOLOGICAL CABINET now embraces over 30,000 specimens. The amount of funds hitherto expended upon it, mostly through the liberality of the friends of the College, is over 25,000 dollars. During the past season it has been refitted and rearranged at an expense of $1500, and considerable additions of specimens have also been made. It is especially rich in minerals, and is also liberally furnished with specimens illustrating the several Geological Formations. There is an extensive suite of Aerolites, including the largest mass of Meteoric Iron in any public collection in the world.

Academical Department.

TERMS OF ADMISSION.

Candidates for admission to the Freshman Class are examined in the following books,—

Cicero's Select Orations.
The Bucolics, Georgics, and the first six books of the Æneid of Virgil.
Sallust.
Andrews and Stoddard's or Zumpt's Latin Grammar.
Latin Prosody.
Arnold's Latin Prose Composition, to the Passive voice, (first XII Chapters).

Jacobs', Colton's or Felton's Greek Reader.
Xenophon's Anabasis, first three books.
Sophocles', Crosby's or Kühner's Greek Grammar.

Thomson's Higher Arithmetic.
Day's Algebra, (Revised Edition), to Quadratic Equations.
Playfair's Euclid, first two books.
English Grammar.
Geography.

TIME AND CONDITIONS OF EXAMINATION.

THE REGULAR EXAMINATION for admission to College takes place on Monday and Tuesday preceding Commencement, beginning at 9 o'clock A. M. on Monday, and at 8 o'clock A. M. on Tuesday. The candidates assemble at Graduates' Hall. There will be another examination at the same place, on Tuesday and Wednesday, September 16th and 17th, beginning at 9 o'clock A. M. on Tuesday, and at 8 o'clock A. M. on Wednesday. Persons may be examined for an advanced standing in any other part of the collegiate terms, but not in vacations, except in very special cases. No one can be admitted to the Senior Class, after the commencement of the second term.

ADVANCED STANDING.—All candidates for advanced standing, whether from other Colleges or not, in addition to the preparatory studies, are examined in those previously pursued by the classes which they propose to enter.

AGE.—No one can be admitted to the Freshman Class, till he has completed his fourteenth year, nor to an advanced standing without a proportional increase of age.

TESTIMONIALS.—Testimonials of good moral character are in all cases required; and those who are admitted from other Colleges must produce certificates of dismission in good standing.

BOND.—Every person, on being admitted, must give to the Treasurer a bond, executed by his parent or guardian, for two hundred dollars, to pay all charges which may arise under the laws of the College.

MATRICULATION.—The students are not considered as regular members of the College, till, after a residence of at least six months, they have been admitted to matriculation, on satisfactory evidence of an unblemished moral character. Before this they are only students on probation. The laws of the College provide for the final separation from the institution of those, who, within a specified time, do not so far approve themselves to the Faculty as to be admitted to matriculation.

COURSE OF INSTRUCTION.

THE WHOLE COURSE OF INSTRUCTION occupies four years. In each year there are three terms or sessions.

DIVISIONS.—The three younger classes are divided each into three parts; the Senior Class into two parts.

RECITATIONS.—Each of the four classes attends three recitations or lectures in a day; except on Wednesdays and Saturdays, when they have only two.

THE FOLLOWING SCHEME gives a general view of the studies pursued in each term:—

SCHEME OF STUDY.

FRESHMAN CLASS.

FIRST TERM.

Greek.—Homer's Iliad, two books.
Latin.—Lincoln's Livy; Arnold's Latin Prose Composition.
Mathematics.—Day's Algebra, to the Binomial Theorem.

SECOND TERM.

Astronomy.—Lectures.
Anatomy.—Lectures.
Mineralogy and Geology.—Lectures.

THIRD TERM.

Political Philosophy.—Kent's Commentaries, Vol. I. Law of Nations. Lectures on the Constitution of the United States.

Theology.—Paley's Evidences of Christianity. Lectures.

LECTURES TO UNDERGRADUATES.

FIRST TERM.

SENIOR CLASS.

Chemistry—Professor SILLIMAN, Junior, daily, (except Monday), at 12 o'clock, at the Chemical Laboratory. Attendance is voluntary after the first six weeks of the term.

History—The PRESIDENT, Monday, at 10 o'clock, at No. 131 Lyceum.

Demosthenes on the Crown—Professor LARNED, Monday, at 4½ o'clock, at No. 131 Lyceum.

Mental Philosophy—Professor NOAH PORTER, Monday, at 12 o'clock, and Thursday, at 10 o'clock, at No. 131 Lyceum.

Eloquence—Professor GOODRICH, Thursday, at 4½ o'clock, at No. 131 Lyceum.

JUNIOR CLASS.

Natural Philosophy—Professor OLMSTED, Tuesday and Friday, at 3 o'clock, at the Philosophical Chamber, Cabinet Hall, beginning about the 1st of November.

SECOND TERM.

SENIOR CLASS.

Meteorology and Astronomy—Professor OLMSTED, daily, for seven weeks, at 9 o'clock, at the Philosophical Chamber, Cabinet Hall.

Anatomy—Professor KNIGHT, daily, for three weeks, from March 1st, at 9 o'clock, at the Medical College.

Mineralogy and Geology—Professor DANA, daily, during the last four weeks of the term, at 9 o'clock, at the Geological Chamber, Cabinet Hall.

Political Philosophy—The PRESIDENT, Monday and Thursday, at 11 o'clock, at No. 131 Lyceum.

Moral Philosophy—Professor NOAH PORTER, Tuesday and Friday, at 11 o'clock, at No. 131 Lyceum.

Natural Theology—Professor FISHER, Monday and Tuesday, at 4½ o'clock, at No. 131 Lyceum.

JUNIOR CLASS.

Natural Philosophy—Professor OLMSTED, Tuesday and Friday, after March 1st, at 4½ o'clock, at the Philosophical Chamber, Cabinet Hall.

THIRD TERM.

SENIOR CLASS.

Constitution of the United States—Professor DUTTON, daily, at 11 o'clock, at No. 131 Lyceum.

Evidences of Christianity—Professor FISHER, four times a week, at 5 o'clock, at No. 131 Lyceum.

JUNIOR CLASS.

Optics—Professor OLMSTED, twice a week, at 3 o'clock, at the Philosophical Chamber, Athenæum.

EXERCISES IN DECLAMATION AND COMPOSITION.

THE Senior and Junior Classes have exercises in forensic disputation twice a week.

The Senior Class have exercises in English composition twice a week.

The Sophomore Class, during the whole year, and the Freshman Class, during the third term, have exercises in English composition once a week.

The Sophomore Class have regular exercises in Elocution, during the whole year, and once a week have an exercise in Declamation in the Chapel, before the Professor of Rhetoric and the members of the Class.

ELECTIVE STUDIES.

THOSE students, who are desirous of pursuing the higher branches of the Mathematics, are allowed to choose Analytical Geometry in place of the regular Mathematics, in the third term of Sophomore Year, and the Differential and Integral Calculus, during the first two terms of Junior Year, in place of the Greek or the Latin studies of those terms.

During the third term of Junior Year, in addition to the required studies of the term, the members of the class are allowed to receive instruction in some select Greek or Latin; Hebrew; the Modern Languages; or Practical Surveying.

Students who desire instruction in the modern languages, may receive it, at their own expense, from competent teachers, engaged for the purpose by the Faculty.

VOCAL MUSIC.

SCIENTIFIC INSTRUCTION is given in vocal music, twice a week during the year.—The exercises in this department are open to all the classes.

THE ENTIRE COURSE extends through two years, and has especial reference to sacred music.

EXAMINATIONS.

PUBLIC EXAMINATIONS of the classes are held at the close of each term on the studies of the term; and twice in the College course, at the close of the Sophomore and Senior years, on the studies of the two preceding years.

THE BIENNIAL EXAMINATIONS are conducted wholly in writing and are continued each for a period of between two and three weeks.

TERMS AND VACATIONS.

THE PUBLIC COMMENCEMENT is held on the last Thursday in July of each year. The first term begins seven weeks from the day before Commencement and continues fourteen weeks; the second begins on the first Wednesday in January and continues fourteen weeks; the third, of twelve weeks, begins on the first Wednesday in May and continues till Commencement. The intervening periods of seven, two, and three, or as the case may be, four weeks, are assigned for vacations.

LEAVE OF ABSENCE.—No student is allowed to be absent, without special leave, except in vacations. The absence of a student in term time, even for a few days, occasions a much greater injury than is commonly supposed by parents or guardians. During the vacations, on the contrary, parents are earnestly advised not to allow their sons to remain at the College.

PUBLIC WORSHIP.

PRAYERS are attended in the College Chapel every morning and evening, with the reading of the Scriptures; when one of the Faculty officiates, and all the students are required to be present.

PUBLIC WORSHIP is held in the Chapel on the Sabbath, which all the students are required to attend, except such as have special permission to attend the worship of other denominations, to which their parents belong. Such permission can be obtained only by presenting to the President a written request from the parent or guardian.

EXPENSES.

THE COLLEGE BILLS are made out by the Treasurer three times a year, at the close of each term; and are delivered to the students, who are required to present them to their parents, guardians, or patrons. The bills are payable at the close of the term, and if not paid by the expiration of two weeks after the commencement of the succeeding term, the student is liable to be prohibited from reciting.

TREASURER'S BILL.

The annual charges in the Treasurer's bill are,

For tuition,	$39 00
For rent of half chamber in College, 7½ to 16½ dollars—average,	12 00
For ordinary repairs and contingencies,	2 40
For general damages, sweeping, &c., about	3 60
For expenses of public rooms,	3 00
	$60 00

OTHER CHARGES.—Besides this, the student pays for damages done by himself, for tuition in optional studies during part of Junior year, and a few additional charges on graduating.

STUDENTS ROOMING ALONE.—If a student occupies a whole room the charge for rent is double that stated above.

ADVANCED STANDING.—Any person admitted to an advanced standing, unless coming from another College, pays the sum of five dollars as tuition money, for each term which has been completed by the class which he enters.

NOTES of the several incorporated banks in this State, and such other notes as are taken by the banks in the city of New Haven, are received in payment of the bills. Drafts on Boston, New York or Philadelphia, may be transmitted direct to the Treasurer.

BOARD.—Board is obtained at prices varying from $2 25 to $3 50. To a majority of the students it is about $3 00 a week. Board may be obtained in clubs, by those students who wish it at a lower rate than is common in boarding houses. No student is allowed to be a boarder in any hotel or house of public entertainment in the city of New Haven.

LODGINGS IN TOWN.—Students who wish to take lodgings in town are permitted to do so. But if, in consequence of this, any of the rooms in College are left vacant, the amount of the rent will be charged upon those who room in town. The expense of room rent in private houses is much greater than in College. The students living out of College are not allowed to room in any house or building, in which a family does not reside.

FURNITURE, BOOKS, &c.—The students provide for themselves bed and bedding, furniture for their rooms, fuel, lights, books, stationery and washing. There are also, in the several classes and literary societies, taxes of a small amount. If books and furniture are sold, when the student has no further necessity for them, the expenses incurred by their use will not be great.

FUEL is distributed to those students who apply for it, at cost and charges, and *must be paid for at the time of ordering.*

NECESSARY EXPENSES.—The following may be considered as a near estimate of the *necessary* expenses, without including apparel, pocket money, traveling, and board in vacations:—

Treasurer's bill as above,		$60	$60
Board, 40 weeks,	from	90 to	140
Fuel and lights,	"	10 "	20
Use of books recited, and stationery,	"	5 "	15
Use of furniture, bed and bedding,	"	5 "	15
Washing,	"	12 "	18
Taxes in the Societies, &c.	"	8 "	12
Total,		$190 to	$280

GENERAL EXPENSES.—With regard to apparel, and what is called pocket money, no general estimate can be made. These are the articles in which the expenses of individuals differ most; and in which some are unwarrantably extravagant. There is nothing by which the character and scholarship of the students in this College are more endangered, than by a free indulgence in the use of money. Great caution with regard to this is requisite on the part of parents. What is more than sufficient to defray the ordinary expenses, will expose the student to numerous temptations; and will not contribute either to his respectability or happiness.

College guardian.—As a precaution against extravagance, parents at a distance frequently deposit funds with some one of the Faculty; who, in that case, pays a particular attention to the pecuniary concerns of the student, settles his bills, corresponds with the parent, transmits an account of the expenditures, &c., for which he charges a commission.

BENEFICIARY FUNDS.

A sum somewhat exceeding two thousand dollars, derived chiefly from permanent charitable funds, is annually applied by the Corporation for the relief of indigent students, especially those who are preparing for the ministry of the Gospel. Nearly one hundred have their tuition either wholly or in part remitted.

Text-Books.—Indigent students are also supplied with most of the text-books used in the College course, without expense, by loan from the Benevolent and Education Libraries.

Recitation rooms.—Students in the Freshman Class who occupy the recitation rooms, save their room rent and fuel in winter, and receive a small compensation in summer.

SCHOLARSHIPS.

The Berkeley Scholarship, yielding about forty-six dollars a year, is awarded to the student in each Senior Class, who passes the best examination in the Greek Testament, Xenophon's Cyropædia, and Homer's Iliad, Cicero's Tusculan Questions, Tacitus, (except the Annals,) and Horace; provided he remains in New Haven as a graduate one, two or three years.

The Clark Scholarship, yielding a hundred and twenty dollars a year, is awarded to the student in each Senior Class, who passes the best examination on the studies of the College course; provided he remains in New Haven as a graduate one or two years, pursuing a course of study (not professional) under the direction of the Faculty.

The Bristed Scholarship, yielding about eighty dollars a year, is awarded to the student in the Sophomore or Junior Class,

whenever there may be a vacancy, who passes the best examination in the Greek and Latin classics and the mathematics. The successful candidate receives the annuity, (forfeiting one-third in case of non-residence in New Haven,) until he would regularly take his second degree.

A SCHOLARSHIP, yielding sixty dollars a year, is awarded to the student in each Freshman Class, who passes the best examination in Latin composition (excellence in which is essential to success), in the Greek of the year, and in the solution of algebraic problems. The successful candidate enjoys the annuity under certain conditions during the four years of his College course.

PREMIUMS.

THE DEFOREST PRIZE MEDAL, of the value of one hundred dollars, will be awarded "to that scholar of the Senior Class, who shall write and pronounce an English Oration in the best manner."

THE TOWNSEND PREMIUMS, five in number, each of twelve dollars, are awarded in the Senior Class for the best specimens of English composition.

THE DEFOREST MATHEMATICAL PREMIUMS, (the first consisting of a gold medal of the value of ten dollars, with ten dollars in money, the second of ten dollars in money,) are given to two members of the Senior Class for the best solution of problems in both abstract and concrete mathematics.

THE BERKELEY PREMIUMS for Latin composition are offered to the Junior, Sophomore, and Freshman Classes near the beginning of the third term.

THE CLARK PREMIUMS will be offered, during the present year, for the best examination in the Latin of the second term of Junior year; for excellence in the department of the higher Mathematics of Junior year; and for the solution of problems in Practical Astronomy.

THE COLLEGE PREMIUMS are given in the Sophomore Class for English composition, at the end of the first and second terms, in the Sophomore Class for Declamation, and in the Sophomore and Freshman Classes for the solution of mathematical problems.

DEGREES.

BACHELOR OF ARTS.—The Degree of Bachelor of Arts is conferred on those persons who have attended and fulfilled the course of academical exercises, as appointed by law, and have been approved on examination at the end of the course as candidates for the same. But candidates for this degree are required to pay their dues to the Treasurer as early as the Monday before Commencement.

MASTER OF ARTS.—Every Bachelor of Arts of three years' or longer standing may receive the Degree of Master of Arts on the payment of a fee of five dollars, provided he shall, in the interval, have sustained a good moral character. Application must be made to the President previous to Commencement.

Theological Department.

THE FACULTY of this Department consists of the President of the College, a Professor of Didactic Theology, a Professor of Sacred Literature, a Professor of the Pastoral Charge, and the Professor of Divinity.

The TIME OF ADMISSION is at the beginning of the collegiate year. It is desirable that those who join this Department should be present at the commencement of the first term. Those admitted to an advanced standing will be expected to have previously gone over the studies pursued by their respective classes.

The CONDITIONS for entrance are hopeful piety, and a liberal education at some College, or such other literary acquisition as may be considered an equivalent preparation for theological studies.

The TERMS AND VACATIONS are the same with those in the Academical Department.

The REGULAR COURSE OF INSTRUCTION occupies three years, and comprises the following subjects:

JUNIOR CLASS.

Hebrew Grammar, (Roediger's Gesenius, translated by Conant).
Conant's Hebrew Exercises and Chrestomathy.
Principles of Sacred Criticism and Hermeneutics.

Critical and Exegetical study of the Hebrew and Greek Scriptures.
Critical and Exegetical Dissertations.
LECTURES by the Professor of Sacred Literature on some topics in Introduction to Theology, and in Exegetical Theology.
LECTURES by the Professor of Didactic Theology on Mental Philosophy, including the Will.

MIDDLE CLASS.

LECTURES by the Professor of Didactic Theology—
On Moral Philosophy.
Moral Government.
Natural Theology.
Necessity and Evidences of Revelation.
Systematic Theology.
Exegetical study of the Scriptures and Dissertations continued.

SENIOR CLASS.

LECTURES on the Structure and Composition of Sermons and on Public Prayer.
Criticism of Skeletons and of Sermons.
Exercises in Extemporaneous Speaking and Preaching before the Class.
LECTURES on the Pastoral Charge.
Revivals of Religion.
History of Modern Missions.
Expository Preaching.
Elocution, attended by Practice in the Delivery of Sermons.

RHETORICAL SOCIETY.—There are weekly Debates in the Rhetorical Society, at which the Professor of Didactic Theology presides, and in which the members of all the Classes participate.

LIBRARIES.—The students have access to the Theological Library, to the College Library, and to the libraries of the several literary Societies in the College.

EXPENSES.—A building has been erected for the accommodation of students in which the rooms are free of rent; but each occupant is subject to a charge of $3,50 a year for incidental expenses. No other charges are made to the students.

BENEFICIARY AID.—In addition to the aid afforded by the American Education Society, provision is now made for efficient assistance to those who need it. Such persons also have an opportunity of attending, free of expense, the Lectures of Professor SILLIMAN, Professor OLMSTED and others, on Natural Science; and those preparing for missionary service, also on the Lectures in the Medical Department.

Law Department.

THE FACULTY of this Department consists of the President of the College, and two Law Professors, Hon. HENRY DUTTON, LL. D., late Governor of the State, and Hon. THOMAS B. OSBORNE, late Judge of the County Court.

TERMS AND VACATIONS.—The year commences on the seventh Monday after Commencement. There is a recess of two weeks, embracing Christmas and New-year's day, and a Spring vacation of three weeks. Students may enter the School, at any time, but it is recommended that they do so as early as practicable after the commencement of the first term.

CLASSES.—The School is divided into classes. Each class is daily employed upon a lesson in the Class Book, and is separately examined, and every student can read in one or more of the classes, as he finds himself able and inclined to perform the requisite labor.

RECITATIONS, &c.—Two exercises, consisting of Lectures or Recitations, accompanied by oral expositions, are daily given by the Instructors.

THE WHOLE COURSE OF INSTRUCTION occupies two years. The following are some of the principal studies of the course :—

Blackstone's Commentaries.	Bills of Exchange.
Real Estate.	Promissory Notes.
Personal Property.	Insurance.
Contracts.	Shipping.
Domestic Relations.	Corporations.
Parties to Actions.	Criminal Law.
Forms of Actions.	Equity.
Pleading.	
Evidence.	Constitution of the United States.
Nisi Prius.	Law of Nations.
	Conflict of Laws.

The students are required to peruse the most important elementary treatises, and are daily examined on the author they are reading, and receive at the same time explanations and illustrations of the subjects they are studying.

COURSES OF LECTURES are delivered by the Instructors, on the most important subjects of Common and Statute Law, and of Equity.

A MOOT COURT is held once a week or oftener, which employs the students in drawing pleadings, and investigating and arguing questions of law.

PLEADINGS.—The students are called upon, from time to time, to draw declarations, pleadings, contracts, and other instruments connected with the practice of law, and to do the most important duties of an attorney's clerk.

LEGAL OPINIONS.—They are occasionally required to write disquisitions on some topic of law, and collect the authorities to support their opinions.

LAWS OF PARTICULAR STATES.—The more advanced students are assisted in the study of the laws of the particular States in which they intend to establish themselves.

LIBRARIES.—The students are furnished with the use of the elementary books, and have access to the College libraries, and to a valuable law library. The law library contains the Revised Statutes, the Reports and the Digests of all the States in the Union.

EXPENSES.—The terms of tuition, with constant use of text-books, and ordinary use of the library, are as follows, payable in advance, unless for satisfactory reasons. For the whole course of two years, one hundred and fifty dollars. For one year, eighty dollars. For less than one year, ten dollars a month. For more than one year and less than two years, seven dollars a month after the first year.

DEGREE.—The Degree of Bachelor of Laws will be conferred by the President and Fellows, on liberally educated students who have been members of the Department eighteen months, and have complied with the regulations of the Institution, and passed a satisfactory examination. Those not liberally educated, will be graduated upon similar conditions, after two years' membership; and members of the Bar, after one year's membership subsequent to their admission to the Bar.

Medical Department.

THE FACULTY of the Medical Department consists of the President of the College, a Professor of Chemistry and Pharmacy, a Professor of the Theory and Practice of Physic, a Professor of Surgery, a Professor of Obstetrics, a Professor of Anatomy and Physiology, and a Professor of Materia Medica and Therapeutics.

THE ANNUAL COURSE OF LECTURES commences on Thursday, seven weeks after the College Commencement, (Sept. 18th, 1856,) and continues four months. The lectures are so arranged, that at least five are given daily, and a part of the time six—as follows:

Principles and Practice of Surgery—Professor KNIGHT, daily, at 9 o'clock.
Anatomy and Physiology—Professor CHARLES HOOKER, daily, at 10 o'clock.
Materia Medica and Therapeutics—Professor BRONSON, daily, at 11 o'clock.
Chemistry—Professor SILLIMAN, Junior, daily, at 12 o'clock.
Theory and Practice of Physic—Professor WORTHINGTON HOOKER, daily, at 2½ o'clock.
Obstetrics—Professor BEERS, Monday, Wednesday and Friday, at 3½ o'clock.

The Lectures on Chemistry are given at the Chemical Laboratory;—the Lecture-rooms of the other Professors are in the Medical College.

A MEDICAL AND SURGICAL CLINIQUE is held every week, at the Connecticut Hospital, during the lecture term, at which a variety of cases is presented, for consultation and operations, in presence of the class.

ACADEMICAL LECTURES.—The students are entitled to gratuitous admission to the course of Lectures on Anatomy and Physiology, given by Professor KNIGHT, during the spring term, to the Senior Class in the Academical Department, and to the courses by Professor DANA, on Mineralogy and Geology, during the spring term. They also have admission to the various other Lectures in the Academical Department, on paying the fees of the several courses.

THE MEDICAL COLLEGE BUILDING is spacious and commodious. The arrangements for Dissections are ample, and subjects are supplied on the most reasonable terms. The Anatomical Museum, the Cabinet of the Materia Medica, the Museum of the Yale Natural History Society, the Cabinet of Minerals, and the Libraries of the Medical and Academical Departments, are all open to students.

EXPENSES.—The Fees, which are required in advance, are $12,50 for each course, except that on Obstetrics, which is $6, with a Matriculation fee of $5—the whole amounting to $73,50. The tickets of all the Professors, or a part, may be taken in any one season. Those who have attended two full courses of Lectures in this Institution, are entitled to admission to future courses gratis. Those who have attended one full course in this Institution, and also one full course in another incorporated Medical Institution, will be admitted to a full course on paying the Matriculation fee. The graduation fee is $15—fee for a license, including diploma, $4,50.

DEGREE.—By the Statutes of the State, the requirements for the Degree of Doctor in Medicine are three years' study for those who are not Bachelors of Arts, and two years' for those who are; attendance upon two full courses of Lectures, either in this Institution, or some other of a similar character; the attainment of twenty-one years of age, and a good moral character; together with a satisfactory examination before the Board of Examiners for the State, at which the candidate must present a dissertation upon some subject connected with the Medical Sciences, written in a form prescribed by the Faculty. This Board consists of the Medical Professors of the College, *ex officiis*, and an equal number of persons chosen by the Fellows of the Medical Society of the State. Licenses to practice are granted by the President of the Society, upon the recommendation of the Board of Examiners, and candidates for a license must possess the same qualifications as those for a degree, except that attendance upon one course of Lectures only is required. The examination is held immediately after the close of the Lectures, when the licenses are granted and the degrees conferred.

PRIVATE MEDICAL SCHOOL.

THERE is a Private Medical School for the purpose of daily recitation. The instructors are Doctors C. Hooker, H. Bronson, W. Hooker, and P. A. Jewett. The year is divided into two terms. The first term corresponds with the course of lectures of the Medical Institution. The second begins in the middle of February and extends to Commencement, having a vacation of a fortnight in the first part of May. Fees for the first term, $10; for the second, $40.

Department of Philosophy and the Arts.

THE DESIGN of this Department is to furnish resident graduates and others, with the opportunity of devoting themselves to special branches of study, either not otherwise provided for, or not pursued as far as individual students may desire.

THE BRANCHES intended to be embraced in this department are such in general as are not included under Theology, Law and Medicine; or more particularly, Mathematical Science, Physical Science and its application to the Arts, Metaphysics, Philology, Literature and History.

INSTRUCTION in this department may be given by Professors not belonging to the other departments, by the Academical professors, and by such others as the President and Fellows may approve.

FACULTY.—The Instructors for the year, with the President, compose the Faculty of the department.

PREPARATORY STUDIES.—It is necessary for all students in philology and mathematical science, that they be thoroughly grounded in those studies.

FOR THE TERMS OF ENTRANCE upon the several courses in the department, application may be made to the several instructors.

LECTURES AND INSTRUCTION.

Professor GIBBS, on General Philology.

Professor OLMSTED, on Natural Philosophy and Astronomy, the Academical courses of Lectures. Also if desired, private lessons in experimental physics and mathematical astronomy.

Professor NOAH PORTER, on Psychology, Logic, and the History of Philosophy.

Professor THACHER—Lucretius and Latin Composition; instruction twice a week.

Professor HADLEY—Pindar and Theocritus; instruction twice a week.

Professor WHITNEY—Sanskrit from Bopp's Grammar and Nalus, or such other text-books as may be agreed upon. Also the rudiments of the Ancient and Modern Persian, and of the Egyptian languages.

YALE SCIENTIFIC SCHOOL.

THE BRANCHES of Chemistry, Natural Science and Engineering, in the Department of Philosophy and the Arts, are embraced under the title of the YALE SCIENTIFIC SCHOOL, as follows:

CHEMISTRY AND NATURAL SCIENCE.

THIS DIVISION OF THE SCHOOL is under the immediate supervision of Professors JAMES D. DANA, BENJAMIN SILLIMAN, Jr. and JOHN A. PORTER, with Mr. SAMUEL W. JOHNSON, 1st Assistant, and Professor CHARLES H. PORTER, 2nd Assistant.

COURSE OF INSTRUCTION.—The students in Chemistry in this Department engage in a systematic course of experiment in Analytical Chemistry, in which they are superintended by the Instructors. The following are among the particular applications it includes:—The analysis of grains, soils, minerals, the determination of the commercial value of drugs and chemicals and experiments in Medical Chemistry. Previous study of Chemistry is not essential to admission.

THE TEXT-BOOKS used are Dana's Mineralogy, Silliman's Chemistry, Fresenius's Analysis, Will's Outlines, Rose's Chemical Analysis.

LECTURES.

FIRST TERM.

General Chemistry—Professor SILLIMAN, Jr.

SECOND TERM.

Mineralogy and Geology—Professor DANA.
Chemistry Applied to the Arts—Professor SILLIMAN, Jr.
Agricultural Chemistry—Professor JOHN A. PORTER.

THIRD TERM.

Chemistry of Building Materials—Professor SILLIMAN, Jr.
Chemical Philosophy—Professor JOHN A. PORTER.

The Lectures on General Chemistry and those on Mineralogy and Geology are open both to the Academical and Scientific students. The other courses are designed wholly for the students of this school.

The Lectures on Agricultural Chemistry sommence January 7th, and continue two months and a half at the rate of three lectures in each week. A special course in Analysis will accompany these lectures.

THE WHOLE COURSE occupies two years. Students are received to a full or partial course at their option.

THE TERMS AND VACATIONS coincide with those in the Academical Department.

EXPENSES.—THE ANALYTICAL LABORATORY is open to the class from 9 A. M. to 5 P. M., at a charge of $50 a term, including mate-

rials and use of apparatus belonging to the Laboratory. Average cost of apparatus to be purchased by each student, $5,00. Lectures free to Laboratory students. The matriculation fee is $3.

A MINERALOGICAL CABINET is deposited in the Laboratory for the use of students in this department; they will also have access to the College mineralogical and geological cabinets and to the libraries.

ENGINEERING.

THIS DIVISION OF THE SCHOOL is under the supervision of Professor WILLIAM A. NORTON, assisted by ALONZO T. MOSMAN, B. PH.

THE COURSE OF INSTRUCTION embraces the following studies and exercises:

Surveying, in all its branches, with the adjustment and use of instruments, and operations in the field.

Drawing—topographical, geometrical, mechanical, architectural; with shading and tinting.

Descriptive Geometry—Shades and Shadows—Linear Perspective—Isometrical Projection; pursued in connection with systematic exercises in geometrical drawing.

Applications of Descriptive Geometry to Masonry and Stone-cutting, in the construction of Arches, &c., and to Civil and Mechanical Engineering, generally.

The Principles of Architecture.

Analytical Geometry, and Differential and Integral Calculus.

Mechanics, including Hydraulics and Pneumatics;—Application of Mechanics to Machinery and Engineering.

The Science of Construction in its various departments; with a discussion of the nature, strength, and mode of preparation of building materials.

Engineering field-work; or the location of roads, surveys for excavations and embankments, &c. Use of astronomical instruments for the determination of time, latitude and longitude, &c.

LECTURES.—The lectures of Professor SILLIMAN, Jr., during the third term, on the Chemistry of Building Materials, are open to the students; and also the lectures of Professor DANA, on Mineralogy and Geology, those of Professor SILLIMAN, Jr., on General Chemistry, and those of Professor OLMSTED, on Natural Philosophy, Astronomy, and Meteorology, in the Academical Department.

THE FULL COURSE will occupy two years. Students will be admitted to pursue a full or a partial course, at their option.

THE PREPARATORY MATHEMATICAL STUDIES required for admission to the full course, are Arithmetic, Algebra, Geometry, and Trigonometry.

THE TERMS, or SESSIONS, coincide with those in the Academical Department.

EXPENSES.—The tuition fee for the full course, for each term, is $30, to be paid in advance. The fee for the course of Surveying alone is $12. The Matriculation fee is $3. There is no charge for incidental expenses.

LIBRARY, &c.—Students in this School have access to the College Library, and to the mineralogical and geological cabinets.

DEGREE.—The Degree of Bachelor of Philosophy will be conferred by the President and Fellows, upon students in the Department of Philosophy and the Arts, after being connected with the Department for two years, and passing a satisfactory examination in three branches of study.

In the case of students connected with the divisions of Chemistry or Engineering, the two departments of science on which this examination for a degree is held, must both be pursued in the same division of the school.

Library and Cabinet.

THE COLLEGE LIBRARY is designed for the use of the several Faculties of the College, Graduates resident at the College, students connected with the Theological, Law, Medical and Philosophical Schools, and the members of the Senior and Junior Classes in the Academical Departments.

THE THEOLOGICAL LIBRARY, in the Trumbull Gallery Building, the LAW LIBRARY, in the Law College, the MEDICAL LIBRARY, in the Medical College, and the SCIENTIFIC LIBRARY, in the Analytical Laboratory, are intended for the especial use of those who are connected with these several departments.

The whole number of books in the College Library is about - - -	33,000
" " in the Libraries of the professional schools, -	5,000
" " in the Libraries of the Literary Societies, -	25,000
Total, - - - - - - - - - - - -	63,000

THE MINERALOGICAL AND GEOLOGICAL CABINET, embracing about thirty thousand specimens, is accessible to the students of the several departments.

YALE COLLEGE.

Academical Department.

TERMS OF ADMISSION.

CANDIDATES for admission to the Freshman Class are examined in the following books,—

Cicero's Select Orations.
The Bucolics, Georgics, and the first six books of the Æneid of Virgil.
Sallust.
Andrews and Stoddard's or Zumpt's Latin Grammar.
Latin Prosody.
Arnold's Latin Prose Composition, to the Passive voice, (first XII Chapters).

Jacobs', Colton's or Felton's Greek Reader.
Xenophon's Anabasis, first three books.
Sophocles', Crosby's or Kühner's Greek Grammar.

Thomson's Higher Arithmetic.
Day's Algebra, (Revised Edition), to Quadratic Equations.
Playfair's Euclid, first two books.
English Grammar.
Geography.

TIME AND CONDITIONS OF EXAMINATION.

THE REGULAR EXAMINATION for admission to College takes place on Monday and Tuesday preceding Commencement, beginning at 9 o'clock A. M. on Monday and at 8 o'clock A. M. on Tuesday. The candidates assemble at Graduates Hall. There will be another examination at the same place, on Tuesday and Wednesday, September 15th and 16th, beginning at 9 o'clock A. M. on Tuesday, and at 8 o'clock A. M. on Wednesday. Persons may be examined for an advanced standing in any other part of the collegiate terms, but not in vacations, except in very special cases. No one can be admitted to the Senior Class, after the commencement of the second term.

ADVANCED STANDING.—All candidates for advanced standing, whether from other Colleges or not, in addition to the preparatory studies, are examined in those previously pursued by the classes which they propose to enter.

AGE.—No one can be admitted to the Freshman Class, till he has completed his fourteenth year, nor to an advanced standing without a proportional increase of age.

TESTIMONIALS.—Testimonials of good moral character are in all cases required; and those who are admitted from other Colleges must produce certificates of dismission in good standing.

BOND.—Every person, on being admitted, must give to the Treasurer a bond, executed by his parent or guardian, for two hundred dollars, to pay all charges which may arise under the laws of the College.

MATRICULATION.—The students are not considered as regular members of the College, till, after a residence of at least six months, they have been admitted to matriculation on satisfactory evidence of an unblemished moral character. Before this they are only students on probation. The laws of the College provide for the final separation from the institution of those, who, within a specified time, do not so far approve themselves to the Faculty as to be admitted to matriculation.

COURSE OF INSTRUCTION.

THE WHOLE COURSE OF INSTRUCTION occupies four years. In each year there are three terms or sessions.

DIVISIONS.—The Freshman class is divided into four parts, the Sophomore and Junior classes each into three parts, and the Senior class into two.

RECITATIONS.—Each of the four classes attends three recitations or lectures in a day; except on Wednesdays and Saturdays, when they have only two.

THE FOLLOWING SCHEME gives a general view of the studies pursued in each term:—

SCHEME OF STUDY.

FRESHMAN CLASS.

History of Philosophy.—Schwegler.

LECTURES TO ACADEMICAL STUDENTS.

FIRST TERM.

SENIOR CLASS.

Chemistry—Professor SILLIMAN, Junior, daily, (except Monday), during the first six weeks of the term, at 12 o'clock, at the Chemical Laboratory.

Mineralogy and Geology—Professor DANA, daily, during the last six weeks of the term, at 9 o'clock, at the Geological Chamber, Cabinet Hall.

History—The PRESIDENT, Monday, at 10 o'clock, at No. 131 Lyceum.

Mental Philosophy—Professor NOAH PORTER, Monday, at 12 o'clock, and Thursday, at 10 o'clock, at No. 131 Lyceum.

Eloquence—Professor GOODRICH, Thursday, at 4½ o'clock, at No. 131 Lyceum.

JUNIOR CLASS.

Natural Philosophy—Professor OLMSTED, Tuesday and Friday, at 3 o'clock, at the Philosophical Chamber, Cabinet Hall, beginning about the 1st of November.

SECOND TERM.

SENIOR CLASS.

Meteorology and Astronomy—Professor OLMSTED, daily, for seven weeks, at 9 o'clock, at the Philosophical Chamber, Cabinet Hall.

Anatomy—Professor KNIGHT, daily, for three weeks, from March 1st, at 9 o'clock, at the Medical College.

Political Philosophy—The PRESIDENT, Monday, Tuesday, Thursday and Friday, the first half of the term, at 11 o'clock, at No. 131 Lyceum.

JUNIOR CLASS.

Optics—Professor OLMSTED, twice a week, at 3 o'clock, at the centre room, Graduates Hall.

EXERCISES IN DECLAMATION AND COMPOSITION.

The Senior and Junior Classes have exercises in forensic disputation twice a week.

The Senior Class have exercises in English composition twice a week.

The Sophomore Class, during the whole year, and the Freshman Class, during the third term, have exercises in English composition once a week.

The Sophomore Class have regular exercises in Elocution, during the whole year, and once a week have an exercise in Declamation in the Chapel, before the Professor of Rhetoric and the members of the Class.

ELECTIVE STUDIES.

Those students, who are desirous of pursuing the higher branches of the Mathematics, are allowed to choose Analytical Geometry in place of the regular Mathematics, in the third term of Sophomore Year, and the Differential and Integral Calculus, during the first two terms of Junior Year, in place of the Greek or the Latin studies of those terms.

During the third term of Junior Year, in addition to the required studies of the term, the members of the class receive at their option instruction in select Greek or Latin; Hebrew; the Modern Languages; or Practical Surveying.

Students who desire instruction in the modern languages, may receive it, at their own expense, from competent teachers, engaged for the purpose by the Faculty.

VOCAL MUSIC.

Scientific instruction is given in vocal music, twice a week during the year.—The exercises in this department are open to all the classes.

The entire course extends through two years, and has especial reference to sacred music.

EXAMINATIONS.

PUBLIC EXAMINATIONS of the classes are held at the close of each term on the studies of the term; and twice in the College course, at the close of the Sophomore and Senior years, on the studies of the two preceding years.

The biennial examinations are conducted wholly in writing and are continued each for a period of between two and three weeks.

TERMS AND VACATIONS.

THE PUBLIC COMMENCEMENT is held on the last Thursday in July of each year. The first term begins seven weeks from the day before Commencement and continues fourteen weeks; the second begins on the first Wednesday in January and continues fourteen weeks; the third, of twelve weeks, begins on the first Wednesday in May and continues till Commencement. The intervening periods of seven, two, and three, or as the case may be, four weeks, are assigned for vacations.

LEAVE OF ABSENCE.—No student is allowed to be absent, without special leave, except in vacations. The absence of a student in term time, even for a few days, occasions a much greater injury than is commonly supposed by parents or guardians. During the vacations, on the contrary, parents are earnestly advised not to allow their sons to remain at the College.

PUBLIC WORSHIP.

PRAYERS are attended in the College Chapel every morning and evening, with the reading of the Scriptures; when one of the Faculty officiates, and all the students are required to be present.

PUBLIC WORSHIP is held in the Chapel on the Sabbath, which all the students are required to attend, except such as have special permission to attend the worship of other denominations, to which their parents belong. Such permission can be obtained only by presenting to the President a written request from the parent or guardian.

EXPENSES.

THE COLLEGE BILLS are made out by the Treasurer three times a year, at the close of each term, and are delivered to the students, who are required to present them to their parents, guardians, or patrons. The bills are payable at the close of the term, and if not paid by the expiration of two weeks after the commencement of the succeeding term, the student is liable to be prohibited from reciting.

TREASURER'S BILL.

The annual charges in the Treasurer's bill are,

For tuition, - - - - - - - - - - - - -	$45 00
" rent and care of half room in College, average of four years,	17 44
" expenses of public rooms, - - - - - - - - -	3 00
" ordinary repairs, general damages, and incidentals, about, -	3 56
	$69 00

OTHER CHARGES.—Besides this bill, the student pays for tuition in optional studies during part of Junior year, a small sum for the use of books which he may draw from the College Library, and additional charges at graduation, amounting to $9 50.

STUDENTS ROOMING ALONE.—If a student occupies a whole room the charge for rent and care is double that stated above.

ADVANCED STANDING.—Any person admitted to an advanced standing, unless coming from another College, pays the sum of five dollars as tuition money, for each term which has been completed by the class which he enters.

NOTES of the several incorporated banks in this State, and such other notes as are taken by the banks in the city of New Haven, are received in payment of the bills. Drafts on Boston, New York or Philadelphia, may be transmitted direct to the Treasurer.

BOARD.—Board is obtained at prices varying from $2 25 to $3 50. To a majority of the students it is about $3 00 a week. Board may be obtained in clubs, by those students who wish it at a lower rate than is common in boarding houses. No student is allowed to be a boarder in any hotel or house of public entertainment.

LODGINGS IN TOWN.—Students who wish to take lodgings in town are permitted to do so. But if, in consequence of this, any of the rooms in College are left vacant, the amount of the rent will be assessed upon those who room in town. The expense of room rent in private

houses is much greater than in College. The students living out of College are not allowed to room in any house or building, in which a family does not reside.

FURNITURE, BOOKS, &c.—The students provide for themselves bed and bedding, furniture for their rooms, fuel, lights, books, stationery and washing. There are also, in the several classes and literary societies, taxes of a small amount. If books and furniture are sold, when the student has no further necessity for them, the expenses incurred by their use will not be great.

FUEL is distributed to those students who apply for it, at cost and charges, and *must be paid for at the time of ordering.*

NECESSARY EXPENSES.—The following may be considered as a near estimate of the *necessary* expenses, without including apparel, pocket money, traveling, and board in vacations:—

Treasurer's bill as above,			$69		$69
Board, 40 weeks,	from	$90	to	$140
Fuel and lights,	"	10	"	20
Use of books recited, and stationery,	"	5	"	15
Use of furniture, bed and bedding,	"	5	"	20
Washing,	"	12	"	24
Taxes in the Societies, &c.	"	9	"	12
Total,		$200	to	$300

GENERAL EXPENSES.—With regard to apparel, and what is called pocket money, no general estimate can be made. These are the articles in which the expenses of individuals differ most, and in which some are unwarrantably extravagant. There is nothing by which the character and scholarship of the students in this College are more endangered, than by a free indulgence in the use of money. Great caution with regard to this is requisite on the part of parents. What is more than sufficient to defray the ordinary expenses, will expose the student to numerous temptations, and will not contribute either to his respectability or happiness.

COLLEGE GUARDIAN.—As a precaution against extravagance, parents at a distance frequently deposit funds with some one of the Faculty; who, in that case, pays a particular attention to the pecuniary concerns of the student, settles his bills, corresponds with the parent, transmits an account of the expenditures, &c., for which he charges a commission.

BENEFICIARY FUNDS.

A SUM exceeding two thousand dollars, derived partly from permanent charitable funds, is annually applied by the Corporation for the relief of indigent students, especially those who are preparing for the ministry of the Gospel. About seventy have their tuition either wholly or in part remitted. There are also nine scholarships, yielding each about $60 per annum, which may be given to such students as shall be selected.

TEXT-BOOKS.—Indigent students are also supplied with most of the text-books used in the College course, without expense, by loan from the Benevolent and Educational Libraries.

RECITATION ROOMS.—Students in the Freshman Class who occupy the recitation rooms, save their room rent and fuel in winter, and receive a small compensation in summer.

SCHOLARSHIPS.

THE BERKELEY SCHOLARSHIP, yielding about forty-six dollars a year, is awarded to the student in each Senior Class, who passes the best examination in the Greek Testament, Xenophon's Cyropædia, and Homer's Iliad, Cicero's Tusculan Questions, Tacitus, (except the Annals,) and Horace; provided he remains in New Haven as a graduate one, two or three years.

THE CLARK SCHOLARSHIP, yielding a hundred and twenty dollars a year, is awarded to the student in each Senior Class, who passes the best examination on the studies of the College course; provided he remains in New Haven as a graduate one or two years, pursuing a course of study (not professional) under the direction of the Faculty.

T BRISTED SCHOLARSHIP, yielding about ninety-three dollars a year, is awarded whenever there may be a vacancy, to the student in the Sophomore or Junior Class, who passes the best examination in the Greek and Latin classics and the mathematics. The successful candidate receives the annuity, (forfeiting one-third in case of non-residence in New Haven,) until he would regularly take his second degree.

A SCHOLARSHIP, yielding sixty dollars a year, is awarded to the student in each Freshman Class, who passes the best examination in Latin composition (excellence in which is essential to success), in the Greek of the year, and in the solution of algebraic problems. The successful candidate enjoys the annuity under certain conditions during the four years of his College course.

PREMIUMS.

The DeForest Prize Medal, of the value of one hundred dollars, will be awarded "to that scholar of the Senior Class, who shall write and pronounce an English Oration in the best manner."

The Townsend Premiums, five in number, each of twelve dollars, are awarded in the Senior Class for the best specimens of English composition.

The Senior Mathematical Prizes, (the first consisting of a gold medal of the value of ten dollars, with ten dollars in money, the second of ten dollars in money,) are given to two members of the Senior Class for the best solution of problems in both abstract and concrete mathematics.

The Berkeley Premiums for Latin composition are offered to the Junior, Sophomore, and Freshman Classes near the beginning of the third term.

The Clark Premiums will be offered, during the present year, for the best examination in the Latin of the second term of Junior year; for excellence in the department of the higher Mathematics of Junior year; and for the solution of problems in Practical Astronomy.

The College Premiums are given in the Sophomore Class for English composition, at the end of the first and second terms, in the Sophomore Class for Declamation, and in the Sophomore and Freshman Classes for the solution of mathematical problems.

DEGREES.

Bachelor of Arts.—The Degree of Bachelor of Arts is conferred on those persons who have attended and fulfilled the course of academical exercises, as appointed by law, and have been approved on examination at the end of the course as candidates for the same. But candidates for this degree are required to pay their dues to the Treasurer as early as the Monday before Commencement.

Master of Arts.—Every Bachelor of Arts of three years' or longer standing may receive the Degree of Master of Arts on the payment of a fee of five dollars, provided he shall, in the interval, have sustained a good moral character. Application must be made to the President previous to Commencement.

Theological Department.

THE FACULTY of this Department consists of the President of the College, a Professor of Didactic Theology, a Professor of Sacred Literature, a Professor of the Pastoral Charge, and the Professor of Divinity.

The TIME OF ADMISSION is at the beginning of the collegiate year. It is desirable that those who join this Department should be present at the commencement of the first term. Those admitted to an advanced standing will be expected to have previously gone over the studies pursued by their respective classes.

The CONDITIONS for entrance are hopeful piety, and a liberal education at some College, or such other literary acquisition as may be considered an equivalent preparation for theological studies.

The TERMS AND VACATIONS are the same with those in the Academical Department.

The REGULAR COURSE OF INSTRUCTION occupies three years, and comprises the following subjects:

JUNIOR CLASS.

Hebrew Grammar, (Roediger's Gesenius, translated by Conant).
Conant's Hebrew Exercises and Chrestomathy.
Principles of Sacred Criticism and Hermeneutics.
Critical and Exegetical study of the Hebrew and Greek Scriptures.
Critical and Exegetical Dissertations.
LECTURES by the Professor of Sacred Literature on some topics introductory to Theology, and in Exegetical Theology.
LECTURES by the Professor of Didactic Theology on Mental Philosophy, including the Will.

MIDDLE CLASS.

LECTURES by the Professor of Didactic Theology—
On Moral Philosophy.
Moral Government.
Natural Theology.
Necessity and Evidences of Revelation.
Systematic Theology.
Exegetical study of the Scriptures and Dissertations continued.

SENIOR CLASS.

LECTURES on the Structure and Composition of Sermons and on Public Prayer.
Criticism of Skeletons and of Sermons.
Exercises in Extemporaneous Speaking and Preaching before the Class.
LECTURES on the Pastoral Charge.
Revivals of Religion.
History of Modern Missions.
Expository Preaching.
Elocution, attended by Practice in the Delivery of Sermons.

RHETORICAL SOCIETY.—There are weekly Debates in the Rhetorical Society, at which the Professor of Didactic Theology presides, and in which the members of all the Classes participate.

LIBRARIES.—The students have access to the Theological Library, to the College Library, and to the libraries of the several literary Societies in the College.

EXPENSES.—A building has been erected for the accommodation of students in which the rooms are free of rent; but each occupant is subject to a charge of $3,50 a year for incidental expenses. No other charges are made to the students.

BENEFICIARY AID.—In addition to the aid afforded by the American Education Society, provision is now made for efficient assistance to those who need it. Such persons also have an opportunity of attending, free of expense, the Lectures of Professors OLMSTED, DANA and SILLIMAN, on Natural Science; and those preparing for missionary service, also the Lectures in the Medical Department.

Law Department.

THE FACULTY of this Department consists of the President of the College, and two Law Professors, Hon. HENRY DUTTON, LL. D., late Governor of the State, and Hon. THOMAS B. OSBORNE, LL. D., late Judge of the County Court.

TERMS AND VACATIONS.—The year commences on the seventh Monday after Commencement. There is a recess of two weeks, embracing Christmas and New-year's day, and a Spring vacation of three weeks. Students may enter the School at any time, but it is recommended that they do so as early as practicable after the commencement of the first term.

CLASSES.—The School is divided into classes. Each class is daily employed upon a lesson in the Class Book, and is separately examined, and every student can read in one or more of the classes, as he finds himself able and inclined to perform the requisite labor.

RECITATIONS, &c.—Two exercises, consisting of Lectures or Recitations, accompanied by oral expositions, are daily given by the Instructors.

THE WHOLE COURSE OF INSTRUCTION occupies two years. The following are some of the principal studies of the course:—

Blackstone's Commentaries.	Bills of Exchange.
Real Estate.	Promissory Notes.
Personal Property.	Insurance.
Contracts.	Shipping.
Domestic Relations.	Corporations.
Parties to Actions.	Criminal Law.
Forms of Actions.	Equity.
Pleading.	
Evidence.	Constitution of the United States.
Nisi Prius.	Law of Nations.
	Conflict of Laws.

The students are required to peruse the most important elementary treatises, and are daily examined on the author they are reading, and receive at the same time explanations and illustrations of the subjects they are studying.

COURSES OF LECTURES are delivered by the Instructors, on the most important subjects of Common and Statute Law, and of Equity.

A MOOT COURT is held once a week or oftener, which employs the students in drawing pleadings, and investigating and arguing questions of law.

PLEADINGS.—The students are called upon, from time to time, to draw declarations, pleadings, contracts, and other instruments connected with the practice of law, and to do the most important duties of an attorney's clerk.

LEGAL OPINIONS.—They are occasionally required to write disquisitions on some topic of law, and collect the authorities to support their opinions.

LAWS OF PARTICULAR STATES.—The more advanced students are assisted in the study of the laws of the particular States in which they intend to establish themselves.

LIBRARIES.—The students are furnished with the use of the elementary books. and have access to the College libraries, and to a valuable law library.

EXPENSES.—The terms of tuition, with constant use of text-books, and ordinary use of the library, are as follows, payable in advance, unless for satisfactory reasons. For the whole course of two years, one hundred and fifty dollars. For one year, eighty dollars. For less than one year, ten dollars a month. For more than one year and less than two years, seven dollars a month after the first year.

DEGREE.—The Degree of Bachelor of Laws will be conferred by the President and Fellows, on liberally educated students who have

been members of the Department eighteen months, and have complied with the regulations of the Institution, and passed a satisfactory examination. Those not liberally educated, will be graduated upon similar conditions, after two years' membership; and members of the Bar, after one year's membership subsequent to their admission to the Bar. The fee for the diploma is $5.

Medical Department.

THE FACULTY of the Medical Department consists of the President of the College, a Professor of Surgery, a Professor of Anatomy and Physiology, a Professor of Materia Medica and Therapeutics, a Professor of Chemistry and Pharmacy, a Professor of the Theory and Practice of Physic, and a Professor of Obstetrics.

THE ANNUAL COURSE OF LECTURES commences on Thursday, seven weeks after the College Commencement, (Sept. 17th, 1857,) and continues four months. The lectures are so arranged, that at least five are given daily, and a part of the time six—as follows:

Principles and Practice of Surgery—Professor KNIGHT, daily, at 9 o'clock.
Anatomy and Physiology—Professor CHARLES HOOKER, daily, at 10 o'clock.
Materia Medica and Therapeutics—Professor BRONSON, daily, at 11 o'clock.
Chemistry—Professor SILLIMAN, Junior, daily, at 12 o'clock.
Theory and Practice of Physic—Professor WORTHINGTON HOOKER, daily, at 2½ o'clock.
Obstetrics—Professor JEWETT, Monday, Wednesday and Friday, at 3½ o'clock.

The Lectures on Chemistry are given at the Chemical Laboratory; —the Lecture-rooms of the other Professors are in the Medical College.

A MEDICAL AND SURGICAL CLINIQUE is held every week, at the Connecticut Hospital, during the Lecture term, at which a variety of cases is presented, for consultation and operations, in presence of the class.

ACADEMICAL LECTURES.—The students are entitled to gratuitous admission to the course of Lectures on Anatomy and Physiology, given by Professor KNIGHT, during the spring term, to the Senior Class in the Academical Department. They also have admission to the various other Lectures in the Academical Department, on paying the fees of the several courses.

THE MEDICAL COLLEGE BUILDING is spacious and commodious. The arrangements for Dissections are ample, and subjects are supplied on the most reasonable terms. The Anatomical Museum, the Cabinet of the Materia Medica, the Museum of the Yale Natural History Society,

the Cabinet of Minerals, and the Libraries of the Medical and Academical Departments, are all open to students.

EXPENSES.—The Fees, which are required in advance, are $12,50 for each course, except that on Obstetrics, which is $6, with a Matriculation fee of $5—the whole amounting to $73,50. The tickets of all the Professors, or a part, may be taken in any one season. Those who have attended two full courses of Lectures in this Institution, are entitled to admission to future courses gratis. Those who have attended one full course in this Institution, and also one full course in another incorporated Medical Institution, will be admitted to a full course on paying the Matriculation fee. The graduation fee is $15—fee for a license, including diploma, $4,50.

DEGREE.—By the Statutes of the State, the requirements for the Degree of Doctor in Medicine are three years' study for those who are not Bachelors of Arts, and two years' for those who are; attendance upon two full courses of Lectures, either in this Institution, or some other of a similar character; the attainment of twenty-one years of age, and a good moral character; together with a satisfactory examination before the Board of Examiners for the State, at which the candidate must present a dissertation upon some subject connected with the Medical Sciences, written in a form prescribed by the Faculty. This Board consists of the Medical Professors of the College, *ex officio*, and an equal number of persons chosen by the Fellows of the Medical Society of the State. Licenses to practice are granted by the President of the Society, upon the recommendation of the Board of Examiners, and candidates for a license must possess the same qualifications as those for a degree, except that attendance upon one course of Lectures only is required. The examination is held immediately after the close of the Lectures, when the licenses are granted and degrees conferred.

PRIVATE MEDICAL SCHOOL.

THERE is a Private Medical School for the purpose of daily recitation. The instructors are Doctors C. Hooker, H. Bronson, W. Hooker, and P. A. Jewett. The year is divided into two terms. The first term corresponds with the course of lectures of the Medical Institution. The second begins in the middle of February and extends to Commencement, having a vacation of a fortnight in the first part of May. Fees for the first term, $10; for the second, $40.

Department of Philosophy and the Arts.

THE DESIGN of this Department is to furnish resident graduates and others, with the opportunity of devoting themselves to special branches of study, either not otherwise provided for, or not pursued as far as individual students may desire.

THE BRANCHES intended to be embraced in this department are such in general as are not included under Theology, Law and Medicine; or more particularly, Mathematical Science, Physical Science and its application to the Arts, Metaphysics, Philology, Literature and History.

INSTRUCTION in this department may be given by Professors not belonging to the other departments, by the Academical professors, and by such others as the President and Fellows may approve.

FACULTY.—The Instructors for the year, with the President, compose the Faculty of the department.

PREPARATORY STUDIES.—It is necessary for all students in philology and mathematical science, that they be thoroughly grounded in those studies.

FOR THE TERMS OF ENTRANCE upon the several courses in the department, application may be made to the several instructors.

LECTURES AND INSTRUCTION.

Professor GIBBS, on General Philology.

Professor OLMSTED, on Natural Philosophy and Astronomy, the Academical courses of Lectures. Also if desired, private lessons in experimental physics and mathematical astronomy.

Professor NOAH PORTER, on Psychology, Logic, and the History of Philosophy.

Professor THACHER—Lucretius and Latin Composition; instruction twice a week.

Professor HADLEY—Pindar and Theocritus; instruction twice a week.

Professor WHITNEY—Sanskrit from Bopp's Grammar and Nalus, or such other text-books as may be agreed upon. Also the rudiments of the Ancient and Modern Persian, and of the Egyptian languages.

Professor NEWTON.—Such branches of the Higher Mathematics as may be agreed upon with the student.

DEGREE.—The Degree of Bachelor of Philosophy will be conferred by the President and Fellows, upon students in the Department of Philosophy and the Arts, after being connected with the Department for two years, and passing a satisfactory examination in three branches of study. The fee for a diploma is $5.

In the case of students connected with the divisions of Chemistry or Engineering, the two departments of science on which this examination for a degree is held, must both be pursued in the same division of the school.

YALE SCIENTIFIC SCHOOL.

UNDER the Department of Philosophy and the Arts, the Yale Scientific School is organized to give systematic instruction in Natural Science, Chemistry and Engineering.

NATURAL SCIENCE, CHEMISTRY AND AGRICULTURE.

THIS division of the School is under the immediate supervision of Professors JAMES D. DANA, BENJAMIN SILLIMAN, JR., JOHN A. PORTER, GEORGE J. BRUSH, and SAMUEL W. JOHNSON, assisted in Analytical Chemistry by Mr. HENRY M. SEELY, and in General and Analytical Chemistry by Professor CHARLES H. PORTER.

LECTURES.

FIRST TERM.

General Chemistry—Professor SILLIMAN, Jr.
Geology—Professor DANA.
Qualitative Chemical Analysis—Professor JOHNSON.

SECOND TERM.

Chemistry of Building Materials—Professor SILLIMAN, Jr.
Chemistry, and General Principles of Agriculture—Professor JOHN A. PORTER.
Practical Agriculture and Rural Economy—Professor JOHNSON.

THIRD TERM.

Mineralogy—Professor DANA.
Chemistry Applied to the Arts—Professor SILLIMAN, Jr.
Organic Chemistry—Professor JOHN A. PORTER.
Use of the Blowpipe—Professor JOHNSON.

The Lectures of Prof. Olmsted on Natural Philosophy, Meteorology and Astronomy are also accessible to the students.

Parallel with several of the above courses are Recitations conducted by the Instructors of the School.

AGRICULTURE.—A Special Course of Agricultural Instruction designed to meet the wants of practical farmers, will begin with the opening of the winter term, and continue through the months of January and February.

In addition to the Lectures above announced, it is intended to provide sufficient other instruction, by lecture, recitation, &c., to give the agricultural student full occupation during the continuance of the course.

PRACTICAL CHEMISTRY.—The *Analytical Laboratory* is fully equipped with means of practical instruction in all branches of Analytical and Experimental Chemistry, and is open daily from 9 A. M. to 6 P. M.

throughout the academic year. Students work through a course of Qualitative and Quantitative Analysis, and are afterwards guided in the study of any special department of Experimental Chemistry, or in original investigations. Previous study of chemistry is highly desirable, but not essential to admission. Accurate record is kept of the attendance and proficiency of the student.

The whole course occupies two years. Students are received to a full or partial course at their option.

The terms and vacations are the same as in the Academical Department.

EXPENSES.—For Laboratory instruction, and supplies of ordinary reagents and materials, fires, and apparatus, $50 per term. Lectures per course, from $3 to $10. Articles to be provided by the student, average $5 per term. Fee on matriculation, $3. All fees to be paid in advance.

TEXT-BOOKS.—*General Chemistry*, Silliman, Porter, Gregory, Regnault, Miller. *Analytical Chemistry*, Fresenius, Will, Liebig and Wöhler's Handbooks. *Mineralogy*, Dana. *Geology*, Lyell. *Agriculture*, Norton's Elements, Stoeckhardt's Chemical Field Lectures, Johnston's Lectures.

Students in the Scientific School have access to the College Library and to the Mineralogical and Geological collections.

ENGINEERING.

THIS DIVISON OF THE SCHOOL is under the supervision of Professor WILLIAM A. NORTON, assisted by Mr. WILLIAM A. ANTHONY and Mr. LOUIS BAIL.

THE COURSE OF INSTRUCTION embraces the following studies and exercises:

Surveying, in all its branches, with the adjustment and use of instruments, and operations in the field.

Drawing—topographical, geometrical, mechanical, architectural; with shading and tinting.

Descriptive Geometry—Shades and Shadows—Linear Perspective—Isometrical Projection; pursued in connection with systematic exercises in geometrical drawing.

Applications of Descriptive Geometry to Masonry and Stone-cutting, in the construction of Arches, &c., and to Civil and Mechanical Engineering, generally.

The Principles of Architecture.

Analytical Geometry, and Differential and Integral Calculus.

Mechanics, including Hydraulics and Pneumatics;—Application of Mechanics to Machinery and Engineering.

The Science of Construction in its various departments; with a discussion of the nature, strength, and mode of preparation of building materials.

Engineering field-work; or the location of roads, surveys for excavations and embankments, &c. Use of astronomical instruments for the determination of time, latitude and longitude, &c.

LECTURES.—The lectures of Professor SILLIMAN, Jr., during the second term, on the Chemistry of Building Materials, are open to the students; and also the lectures of Professor DANA, on Mineralogy and Geology, those of Professor SILLIMAN, Jr., on General Chemistry, and those of Professor OLMSTED, on Natural Philosophy, Astronomy, and Meteorology, in the Academical Department.

THE FULL COURSE will occupy two years. Students will be admitted to pursue a full or a partial course, at their option.

THE PREPARATORY MATHEMATICAL STUDIES required for admission to the full course, are Arithmetic, Algebra, Geometry, and Trigonometry.

THE TERMS, or SESSIONS, coincide with those in the Academical Department.

Library and Cabinet.

THE COLLEGE LIBRARY is designed for the use of the several Faculties of the College, students connected with the Theological, Law, Medical and Philosophical Departments, and the members of the Senior and Junior Classes in the Academical Department.

Each of the professional schools has connected with it a separate library.

The whole number of books in the College Library beside pamphlets is about	33,500
" " in the Libraries of the professional schools, -	5,000
" " in the Libraries of the Literary Societies, -	25,000
Total, - - - - - - - - - - - -	63,500

The Library of the American Oriental Society is now kept in the College Library-Building.

THE MINERALOGICAL AND GEOLOGICAL CABINET, embracing about thirty thousand specimens, is accessible to the students of the several departments.

GENERAL STATEMENT.

Academical Department.

TERMS OF ADMISSION.

CANDIDATES for admission to the Freshman Class are examined in the following books,—

Cicero's Select Orations.
The Bucolics, Georgics, and the first six books of the Æneid of Virgil.
Sallust.
Andrews and Stoddard's or Zumpt's Latin Grammar.
Latin Prosody.
Arnold's Latin Prose Composition, to the Passive voice, (first XII Chapters).

Jacobs', Colton's or Felton's Greek Reader.
Xenophon's Anabasis, first three books.
Sophocles', Crosby's or Kühner's Greek Grammar.

Thomson's Higher Arithmetic.
Day's Algebra, (Revised Edition), to Quadratic Equations.
Playfair's Euclid, first two books.
English Grammar.
Geography.

TIME AND CONDITIONS OF EXAMINATION.

THE REGULAR EXAMINATION for admission to College takes place on Monday and Tuesday preceding Commencement, beginning at 9 o'clock A. M. on Monday and at 8 o'clock A. M on Tuesday. The candidates assemble at Graduates Hall. Another examination will be held at the same place, on Tuesday and Wednesday, September 14th and 15th, beginning at 9 o'clock A. M. on Tuesday, and at 8 o'clock A. M. on Wednesday. Persons may be examined for an advanced standing in any other part of the collegiate terms, but not in vacations, except in very special cases. No one can be admitted to the Senior Class, after the commencement of the second term.

ADVANCED STANDING.—All candidates for advanced standing, whether from other Colleges or not, in addition to the preparatory studies, are examined in those previously pursued by the classes which they propose to enter.

AGE.—No one can be admitted to the Freshman Class, till he has completed his fourteenth year, nor to an advanced standing without a proportional increase of age.

TESTIMONIALS.—Testimonials of good moral character are in all cases required; and those who are admitted from other Colleges must produce certificates of dismission in good standing.

BOND.—Every person, on being admitted, must give to the Treasurer a bond, executed by his parent or guardian, for two hundred dollars, to pay all charges which may arise under the laws of the College.

MATRICULATION.—The students are not considered as regular members of the College, till, after a residence of at least six months, they have been admitted to matriculation on satisfactory evidence of an unblemished moral character. Before this they are only students on probation. The laws of the College provide for the final separation from the institution of those, who, within a specified time, do not so far approve themselves to the Faculty as to be admitted to matriculation.

COURSE OF INSTRUCTION.

THE WHOLE COURSE OF INSTRUCTION occupies four years. In each year there are three terms or sessions.

DIVISIONS.—The Freshman, Sophomore and Junior classes are each divided into three parts, and the Senior class into two.

RECITATIONS.—Each of the four classes attends three recitations or lectures in a day; except on Wednesdays and Saturdays, when they have only two.

THE FOLLOWING SCHEME gives a general view of the studies pursued in each term:—

EXERCISES IN DECLAMATION AND COMPOSITION.

THE Senior and Junior Classes have exercises in forensic disputation twice a week.

The Senior Class have exercises in English composition twice a week.

The Sophomore Class, during the whole year, and the Freshman Class, during the third term, have exercises in English composition once a week.

The Sophomore Class have regular exercises in Elocution, during the whole year, and once a week have an exercise in Declamation in the Chapel, before the Professor of Rhetoric and the members of the Class.

ELECTIVE STUDIES.

THOSE students, who are desirous of pursuing the higher branches of the Mathematics, are allowed to choose Analytical Geometry in place of the regular Mathematics, in the third term of Sophomore Year, and the Differential and Integral Calculus, during the first two terms of Junior Year, in place of the Greek or the Latin studies of those terms.

During the third term of Junior Year, in addition to the required studies of the term, the members of the class receive at their option instruction in the French or German Languages, in select Greek or Latin, or in Mineralogy.

Students, who are desirous of pursuing Hebrew, may obtain gratuitous instruction in that language from the Professor of Sacred Literature.

VOCAL MUSIC.

SCIENTIFIC INSTRUCTION is given in vocal music, twice a week during the year.—The exercises in this department are open to all the classes.

The entire course extends through two years, and has especial reference to sacred music.

EXAMINATIONS.

PUBLIC EXAMINATIONS of the classes are held at the close of each term on the studies of the term; and twice in the College course, at the close of the Sophomore and Senior years, on the studies of the two preceding years.

The biennial examinations are conducted wholly in writing, and are continued each for a period of between two and three weeks.

TERMS AND VACATIONS.

THE PUBLIC COMMENCEMENT is held on the last Thursday in July of each year. The first term begins seven weeks from the day before Commencement and continues fourteen weeks; the second begins on the first Wednesday in January and continues fourteen weeks; the third, of twelve weeks, begins on the first Wednesday in May and continues till Commencement. The intervening periods of seven, two, and three, or as the case may be, four weeks, are assigned for vacations.

LEAVE OF ABSENCE.—No student is allowed to be absent, without special leave, except in vacations. The absence of a student in term time, even for a few days, occasions a much greater injury than is commonly supposed by parents or guardians. During the vacations, on the contrary, parents are earnestly advised not to allow their sons to remain at the College.

PUBLIC WORSHIP.

PRAYERS are attended in the College Chapel every morning and evening, with the reading of the Scriptures; when one of the Faculty officiates, and all the students are required to be present.

PUBLIC WORSHIP is held in the Chapel on the Sabbath, which all the students are required to attend, except such as have special permission to attend the worship of other denominations, to which their parents belong. Such permission can be obtained only by presenting to the President a written request from the parent or guardian.

EXPENSES.

THE COLLEGE BILLS are made out by the Treasurer three times a year, at the close of each term, and are delivered to the students, who are required to present them to their parents, guardians, or patrons. The bills are payable at the close of the term, and if not paid by the expiration of two weeks after the commencement of the succeeding term, the student is liable to be prohibited from reciting.

TREASURER'S BILL.

The annual charges in the Treasurer's bill are,

For tuition, - - - - - - - - - - - - -	$45 00
" rent and care of half room in College, average of four years,	17 44
" expenses of public rooms, - - - - - - - - -	3 00
" ordinary repairs, general damages, and incidentals, about, -	3 56
	$69 00

OTHER CHARGES.—Besides this bill, the student pays for tuition in optional studies during part of Junior year, a small sum for the use of books which he may draw from the College Library, and additional charges at graduation, amounting to $9 50.

STUDENTS ROOMING ALONE.—If a student occupies a whole room, the charge for rent and care is double that stated above.

ADVANCED STANDING.—Any person admitted to an advanced standing, unless coming from another College, pays the sum of five dollars as tuition money, for each term which has been completed by the class which he enters.

NOTES of the several incorporated banks in this State, and such other notes as are taken by the banks in the city of New Haven, are received in payment of the bills. Drafts on Boston or New York may be transmitted direct to the Treasurer.

BOARD.—Board is obtained at prices varying from $2 50 to $3 50. To a majority of the students it is about $3 00 a week. Board may be obtained in clubs, by those students who wish it at a lower rate than is common in boarding houses. No student is allowed to be a boarder in any hotel or house of public entertainment.

LODGINGS IN TOWN.—Students who wish to take lodgings in town are permitted to do so. But if, in consequence of this, any of the rooms in College are left vacant, the amount of the rent will be assessed upon those who room in town. The expense of room rent in private

houses is much greater than in College. The students living out of College are not allowed to room in any house or building, in which a family does not reside.

FURNITURE, BOOKS, &c.—The students provide for themselves bed and bedding, furniture for their rooms, fuel, lights, books, stationery and washing. There are also, in the several classes and literary societies, taxes of a small amount. If books and furniture are sold, when the student has no further necessity for them, the expenses incurred by their use will not be great.

FUEL is distributed to those students who apply for it, at cost and charges, and *must be paid for at the time of ordering.*

NECESSARY EXPENSES.—The following may be considered as a near estimate of the *necessary* expenses, without including apparel, pocket money, traveling, and board in vacations:—

Treasurer's bill as above,			$69		$69
Board, 40 weeks,	from	100	to	140	
Fuel and lights,	"	10	"	20

GENERAL EXPENSES.—With regard to apparel, and what is called pocket money, no general estimate can be made. These are the articles in which the expenses of individuals differ most, and in which some are unwarrantably extravagant. There is nothing by which the character and scholarship of the students in this College are more endangered, than by a free indulgence in the use of money. Great caution with regard to this is requisite on the part of parents. What is more than sufficient to defray the ordinary expenses, will expose the student to numerous temptations, and will not contribute either to his respectability or happiness.

COLLEGE GUARDIAN.—As a precaution against extravagance, parents at a distance frequently deposit funds with some one of the Faculty; who, in that case, pays a particular attention to the pecuniary concerns of the student, settles his bills, corresponds with the parent, transmits an account of the expenditures, &c., for which he charges a commission.

BENEFICIARY FUNDS.

A SUM exceeding two thousand dollars, derived partly from permanent charitable funds, is annually applied by the Corporation for the relief of indigent students, especially those who are preparing for the ministry of the Gospel. More than fifty have their tuition either wholly or in part remitted. There are also nine scholarships, yielding each about $60 per annum, which may be given to such students as shall be selected.

TEXT-BOOKS.—Indigent students are also supplied with most of the text-books used in the College course, without expense, by loan from the Benevolent and Educational Libraries.

RECITATION ROOMS.—Students in the Freshman Class who occupy the recitation rooms, save their room rent and fuel in winter, and receive a small compensation in summer.

SCHOLARSHIPS.

THE BERKELEY SCHOLARSHIP, yielding about forty-six dollars a year, is awarded to the student in each Senior Class, who passes the best examination in the Greek Testament, Xenophon's Cyropædia, and Homer's Iliad, Cicero's Tusculan Questions, Tacitus, (except the Annals,) and Horace; provided he remains in New Haven as a graduate one, two or three years.

THE CLARK SCHOLARSHIP, yielding a hundred and twenty dollars a year, is awarded to the student in each Senior Class, who passes the best examination in the studies of the College course; provided he remains in New Haven as a graduate one or two years, pursuing a course of study (not professional) under the direction of the Faculty.

THE BRISTED SCHOLARSHIP, yielding about ninety-five dollars a year, is awarded whenever there may be a vacancy, to the student in the Sophomore or Junior Class, who passes the best examination in the Greek and Latin classics and the mathematics. The successful candidate receives the annuity, (forfeiting one-third in case of non-residence in New Haven,) until he would regularly take his second degree.

A SCHOLARSHIP, yielding sixty dollars a year, is awarded to the student in each Freshman Class, who passes the best examination in Latin composition (excellence in which is essential to success), in the Greek of the year, and in the solution of algebraic problems. The successful candidate enjoys the annuity under certain conditions during the four years of his College course.

PREMIUMS.

The DeForest Prize Medal, of the value of one hundred dollars, will be awarded "to that scholar of the Senior Class, who shall write and pronounce an English Oration in the best manner."

The Townsend Premiums, five in number, each of twelve dollars, are awarded in the Senior Class for the best specimens of English composition.

The Senior Mathematical Prizes, (the first consisting of a gold medal of the value of ten dollars, with ten dollars in money, the second of ten dollars in money,) are given to two members of the Senior Class for the best solution of problems in both abstract and concrete mathematics.

The Berkeley Premiums for Latin composition are offered to the Junior, Sophomore, and Freshman Classes near the beginning of the third term.

The Clark Premiums will be offered, during the present year, for the best examination in the Latin of the second term of Junior year; for excellence in the department of the higher Mathematics of Junior year; and for the solution of problems in Practical Astronomy.

The College Premiums are given in the Sophomore Class for English composition, at the end of the first and second terms, in the Sophomore Class for Declamation, and in the Sophomore and Freshman Classes for the solution of mathematical problems.

DEGREES.

Bachelor of Arts.—The Degree of Bachelor of Arts is conferred on those persons who have completed the course of academical exercises, as appointed by law, and have been approved on examination at the end of the course as candidates for the same. Candidates for this degree are required to pay their dues to the Treasurer as early as the Monday before Commencement.

Master of Arts.—Every Bachelor of Arts of three years' or longer standing may receive the Degree of Master of Arts on the payment of a fee of five dollars, provided he shall, in the interval, have sustained a good moral character. Application must be made to the President previous to Commencement.

Theological Department.

THE FACULTY of this Department consists of the President of the College, a Professor of Didactic Theology, a Professor of Sacred Literature, a Professor of the Pastoral Charge, and the Professor of Divinity.

The TIME OF ADMISSION is at the beginning of the collegiate year. It is desirable that those who join this Department should be present at the commencement of the first term. Those admitted to an advanced standing will be expected to have previously gone over the studies pursued by their respective classes.

The CONDITIONS for entrance are hopeful piety, and a liberal education at some College, or such other literary acquisition as may be considered an equivalent preparation for theological studies.

The TERMS AND VACATIONS are the same with those in the Academical Department.

The REGULAR COURSE OF INSTRUCTION occupies three years, and comprises the following subjects:

JUNIOR CLASS.

Hebrew Grammar, (Roediger's Gesenius, translated by Conant).
Conant's Hebrew Exercises and Chrestomathy.
Principles of Sacred Criticism and Hermeneutics.
Critical and Exegetical study of the Hebrew and Greek Scriptures.
Critical and Exegetical Dissertations.
LECTURES by the Professor of Sacred Literature on some topics introductory to Theology, and in Exegetical Theology.
LECTURES by the Professor of Didactic Theology on Mental Philosophy, including the Will.

MIDDLE CLASS.

LECTURES by the Professor of Didactic Theology—
On Moral Philosophy.
Moral Government.
Natural Theology.
Necessity and Evidences of Revelation.
Systematic Theology.
Exegetical study of the Scriptures and Dissertations continued.

SENIOR CLASS.

LECTURES on the Structure and Composition of Sermons and on Public Prayer.
Criticism of Skeletons and of Sermons.
Exercises in Extemporaneous Speaking and Preaching before the Class.
LECTURES on the Pastoral Charge.
Revivals of Religion.
History of Modern Missions.
Expository Preaching.
Elocution, attended by Practice in the Delivery of Sermons.

RHETORICAL SOCIETY.—There are weekly Debates in the Rhetorical Society, at which the Professor of Didactic Theology presides, and in which the members of all the Classes participate.

LIBRARIES.—The students have access to the College Library, and to the libraries of the literary Societies in the College.

EXPENSES.—A building has been erected for the accommodation of students, in which the rooms are free of rent; but each occupant is subject to a charge of $3,50 a year for incidental expenses. No other charges are made to the students.

BENEFICIARY AID.—In addition to the aid afforded by the American Education Society, provision is now made for efficient assistance to those who need it. Such persons also have an opportunity of attending, free of expense, the Lectures of Professors OLMSTED, DANA and SILLIMAN, on Natural Science; and those preparing for missionary service, also the Lectures in the Medical Department.

Law Department.

THE FACULTY of this Department consists of the President of the College, and two Law Professors, Hon. HENRY DUTTON, LL. D., late Governor of the State, and Hon. THOMAS B. OSBORNE, LL. D., late Judge of the County Court.

TERMS AND VACATIONS.—The year commences on the seventh Monday after Commencement. There is a recess of two weeks, embracing Christmas and New-year's day, and a Spring vacation of three weeks. Students may enter the School at any time, but it is recommended that they do so as early as practicable after the commencement of the first term.

CLASSES.—The School is divided into classes. Each class is daily employed upon a lesson in the Class Book, and is separately examined, and every student can read in one or more of the classes, as he finds himself able and inclined to perform the requisite labor.

RECITATIONS, &c.—Two exercises, consisting of Lectures or Recitations, accompanied by oral expositions, are daily given by the Instructors.

THE WHOLE COURSE OF INSTRUCTION occupies two years. The following are some of the principal studies of the course:—

Blackstone's Commentaries.	Bills of Exchange.
Real Estate.	Promissory Notes.
Personal Property.	Insurance.
Contracts.	Shipping.
Domestic Relations.	Corporations.
Parties to Actions.	Criminal Law.
Forms of Actions.	Equity.
Pleading.	
Evidence.	Constitution of the United States.
Nisi Prius.	Law of Nations.
	Conflict of Laws.

The students are required to perusé the most important elementary treatises, and are daily examined on the author they are reading, and receive at the same time explanations and illustrations of the subjects they are studying.

COURSES OF LECTURES are delivered by the Instructors, on the most important subjects of Common and Statute Law, and of Equity.

A MOOT COURT is held once a week or oftener, which employs the students in drawing pleadings, and investigating and arguing questions of law.

PLEADINGS.—The students are called upon, from time to time, to draw declarations, pleadings, contracts, and other instruments connected with the practice of law, and to do the most important duties of an attorney's clerk.

LEGAL OPINIONS.—They are occasionally required to write disquisitions on some topic of law, and collect the authorities to support their opinions.

LAWS OF PARTICULAR STATES.—The more advanced students are assisted in the study of the laws of the particular States in which they intend to establish themselves.

LIBRARIES.—The students are furnished with the use of the elementary books. and have access to the College libraries, and to a valuable law library.

EXPENSES.—The terms of tuition, with constant use of text-books, and ordinary use of the library, are as follows, payable in advance, unless for satisfactory reasons. For the whole course of two years, one hundred and fifty dollars. For one year, eighty dollars. For less than one year, ten dollars a month. For more than one year and less than two years, seven dollars a month after the first year.

DEGREE.—The Degree of Bachelor of Laws will be conferred by the President and Fellows, on liberally educated students who have

been members of the Department eighteen months, and have complied with the regulations of the Institution, and passed a satisfactory examination. Those not liberally educated, will be graduated upon similar conditions, after two years' membership; and members of the Bar, after one year's membership subsequent to their admission to the Bar. The fee for the diploma is $5.

Medical Department.

THE FACULTY of the Medical Department consists of the President of the College, a Professor of Surgery, a Professor of Anatomy and Physiology, a Professor of Materia Medica and Therapeutics, a Professor of Chemistry and Pharmacy, a Professor of the Theory and Practice of Physic, and a Professor of Obstetrics.

THE ANNUAL COURSE OF LECTURES commences on Thursday, (Sept. 16th, 1858,) seven weeks after the College Commencement, and continues four months. The lectures are so arranged, that at least five are given daily, and a part of the time six—as follows:

Principles and Practice of Surgery—Professor KNIGHT, daily, at 9 o'clock.
Anatomy and Physiology—Professor CHARLES HOOKER, daily, at 10 o'clock.
Materia Medica and Therapeutics—Professor BRONSON, daily, at 11 o'clock.
Chemistry—Professor SILLIMAN, Junior, daily, at 12 o'clock.
Theory and Practice of Physic—Professor WORTHINGTON HOOKER, daily, at 2½ o'clock.
Obstetrics—Professor JEWETT, Monday, Wednesday and Friday, at 3½ o'clock.

The Lectures on Chemistry are given at the Chemical Laboratory; —the Lecture-rooms of the other Professors are in the Medical College.

A MEDICAL AND SURGICAL CLINIQUE is held every week, at the Connecticut Hospital, during the Lecture term, at which a variety of cases is presented, for consultation and operations, in presence of the class.

ACADEMICAL LECTURES.—The students are entitled to gratuitous admission to the course of Lectures on Anatomy and Physiology, given by Professor KNIGHT, during the spring term, to the Senior Class in the Academical Department. They also have admission to the various other Lectures in the Academical Department, on paying the fees of the several courses.

THE MEDICAL COLLEGE BUILDING is spacious and commodious. The arrangements for Dissections are ample, and subjects are supplied on the most reasonable terms. The Anatomical Museum, the Cabinet of the Materia Medica, the Museum of the Yale Natural History Society,

the Cabinet of Minerals, and the Libraries of the Medical and Academical Departments, are all open to students.

EXPENSES.—The Fees, which are required in advance, are $12,50 for each course, except that on Obstetrics, which is $6, with a Matriculation fee of $5—the whole amounting to $73,50. The tickets of all the Professors, or a part, may be taken in any one season. Those who have attended two full courses of Lectures in this Institution, are entitled to admission to future courses gratis. Those who have attended one full course in this Institution, and also one full course in another incorporated Medical Institution, will be admitted to a full course on paying the Matriculation fee. The graduation fee is $15—fee for a license, including diploma, $4,50.

DEGREE.—By the Statutes of the State, the requirements for the Degree of Doctor in Medicine are three years' study for those who are not Bachelors of Arts, and two years' study for those who are; attendance upon two full courses of Lectures, either in this Institution, or some other of a similar character; the attainment of twenty-one years of age, and a good moral character; together with a satisfactory examination before the Board of Examiners for the State, at which the candidate must present a dissertation upon some subject connected with the Medical Sciences, written in a form prescribed by the Faculty. This Board consists of the Medical Professors of the College, *ex officio*, and an equal number of persons chosen by the Fellows of the Medical Society of the State. Licenses to practice are granted by the President of the Medical Society, upon the recommendation of the Board of Examiners, and candidates for a license must possess the same qualifications as those for a degree, except that attendance upon one course of Lectures only is required. The examination is held immediately after the close of the Lectures, when the licenses are granted and degrees conferred.

PRIVATE MEDICAL SCHOOL.

THERE is a Private Medical School for the purpose of daily recitation. The instructors are Doctors H. Bronson, W. Hooker, P. A. Jewett and L. J. Sanford. The year is divided into two terms. The first term corresponds with the course of lectures of the Medical Institution. The second begins in the middle of February and extends to Commencement, having a vacation of a fortnight in the first part of May. Fees for the first term, $10; for the second, $40.

Department of Philosophy and the Arts.

THE DESIGN of this Department is to furnish resident graduates and others, with the opportunity of devoting themselves to special branches of study, either not otherwise provided for, or not pursued as far as individual students may desire.

THE BRANCHES intended to be embraced in this department are such in general as are not included under Theology, Law and Medicine; or more particularly, Mathematical Science, Physical Science and its application to the Arts, Metaphysics, Philology, Literature and History.

INSTRUCTION in this department may be given by Professors not belonging to the other departments, by the Academical professors, and by such others as the President and Fellows may approve.

FACULTY.—The Instructors for the year, with the President, compose the Faculty of the department.

PREPARATORY STUDIES.—It is necessary that all students in philology and mathematical science, should come thoroughly prepared in the elements of those studies.

FOR THE TERMS OF ENTRANCE upon the several courses in the department, application may be made to the several instructors.

LECTURES AND INSTRUCTION.

Professor GIBBS, on General Philology.

Professor OLMSTED, on Natural Philosophy and Astronomy, the Academical courses of Lectures. Also if desired, private lessons in experimental physics and mathematical astronomy.

Professor NOAH PORTER, on Psychology, Logic, and the History of Philosophy.

Professor THACHER—Lucretius and Latin Composition; instruction twice a week.

Professor HADLEY—Pindar and Theocritus; instruction twice a week.

Professor WHITNEY—Sanskrit from Bopp's Grammar and Nalus, or such other text-books as may be agreed upon. Also the rudiments of the Ancient and Modern Persian, and of the Egyptian languages.

Professor NEWTON.—Such branches of the Higher Mathematics as may be agreed upon with the student.

DEGREE.—The Degree of Bachelor of Philosophy will be conferred by the President and Fellows, upon students in the Department of Philosophy and the Arts, after being connected with the Department for two years, and passing a satisfactory examination in three branches of study. The fee for a diploma is $5.

In the case of students connected with the divisions of Chemistry or Engineering, the two departments of science on which this examination for a degree is held, must both be pursued in the same division of the school.

YALE SCIENTIFIC SCHOOL.

UNDER the Department of Philosophy and the Arts, the Yale Scientific School is organized to give systematic instruction in Natural Science, Chemistry, Agriculture and Engineering.

NATURAL SCIENCE, CHEMISTRY AND AGRICULTURE.

THIS division of the School is under the immediate supervision of Professors JAMES D. DANA, BENJAMIN SILLIMAN, JR., JOHN A. PORTER, GEORGE J. BRUSH, and SAMUEL W. JOHNSON, assisted in Analytical Chemistry by Mr. EDWARD H. TWINING.

LECTURES.

FIRST TERM.

General Chemistry—(50 lectures)—Professor SILLIMAN, Jr.
Geology—(40 lectures and recitations)—Professor DANA.
**Chemistry of the non-metallic elements*—(30 lectures)—Professor JOHNSON.

SECOND TERM.

Chemistry of Building Materials—(12 lectures)—Professor SILLIMAN, Jr.
**Chemistry, and General Principles of Agriculture*—(30 lectures)—Professor JOHNSON.
**Chemistry of the Metals*—(30 lectures)—Professor BRUSH.

THIRD TERM.

**Crystallography and General Mineralogy*—(30 lectures and recitations)—Professor DANA.
**Organic Chemistry*—(30 lectures)—Professor JOHN A. PORTER.
**Use of the Blowpipe*—(20 hours of practice)—Professor BRUSH.

The Lectures of Professor Olmsted on Natural Philosophy, Meteorology and Astronomy are also accessible to the students.

PRACTICAL CHEMISTRY.—The *Analytical Laboratory* is fully equipped with means of practical instruction in all branches of Analytical and Experimental Chemistry, and is open daily from 9 A. M. to 6 P. M. throughout the academic year. Students work through a course of Qualitative and Quantitative Analysis, and are afterwards guided in the study of any special department of Experimental Chemistry, or in original investigations. Previous study of chemistry is highly desirable, but not essential to admission. Special courses in *Qualitative Analysis* will be given each term.

The whole course occupies two years. Students are received to a full or partial course at their option.

The terms and vacations are the same as in the Academical Department.

* Lectures three times per week.

EXPENSES.—Matriculation fee, $3. For Laboratory instruction, and supplies of ordinary reagents and materials, fires, apparatus, and use of Chemical Library, $51 per term. Cost of apparatus and materials to be supplied by the student, $5 to $10 per term. Lectures—to Laboratory students, free; to others, $3 to $10 each course. All fees to be paid in advance.

TEXT-BOOKS.—*General Chemistry*, Miller, Graham, Regnault, Gregory, Silliman, Porter, Cooke. *Analytical Chemistry*, Rose, Fresenius, Will, Bolley, Liebig, Wöhler. *Mineralogy*, Dana. *Geology*, Lyell, Phillips. *Agriculture*, Norton's Elements, Stoeckhardt's Chemical Field Lectures, Johnston's Lectures.

Students in the Scientific School have access to the College Library and to the Mineralogical and Geological collections.

ENGINEERING.

THIS DIVISION OF THE SCHOOL is under the supervision of Professor WILLIAM A. NORTON, assisted by Mr. LOUIS BAIL.

THE COURSE OF INSTRUCTION embraces the following studies and exercises:

Surveying, in all its branches, with the adjustment and use of instruments, and operations in the field.

Drawing—topographical, geometrical, mechanical, architectural; with shading and tinting.

Descriptive Geometry—Shades and Shadows—Linear Perspective—Isometrical Projection; pursued in connection with systematic exercises in geometrical drawing.

Applications of Descriptive Geometry to Masonry and Stone-cutting, in the construction of Arches, &c., and to Civil and Mechanical Engineering, generally.

The Principles of Architecture.

Analytical Geometry, and Differential and Integral Calculus.

Mechanics, including Hydraulics and Pneumatics;—Application of Mechanics to Machinery and Engineering.

The Science of Construction in its various departments; with a discussion of the nature, strength, and mode of preparation of building materials.

Engineering field-work; or the location of roads, surveys for excavations and embankments, &c. Use of astronomical instruments for the determination of time, latitude and longitude, &c.

LECTURES.—The lectures of Professor SILLIMAN, Jr., during the second term, on the Chemistry of Building Materials, are open to the students; and also the lectures of Professor DANA, on Mineralogy and Geology, those of Professor SILLIMAN, Jr., on General Chemistry, and

those of Professor OLMSTED, on Natural Philosophy, Astronomy, and Meteorology, in the Academical Department.

THE FULL COURSE will occupy two years. Students will be admitted to pursue a full or a partial course, at their option.

THE PREPARATORY MATHEMATICAL STUDIES required for admission to the full course, are Arithmetic, Algebra, Geometry, and Trigonometry.

THE SESSIONS coincide with those in the Academical Department.

EXPENSES.—The tuition fee for the full course, for each term, is $33, to be paid in advance. The fee for the course of Surveying alone is $12. There is no charge for incidental expenses.

Library and Cabinet.

THE COLLEGE LIBRARY is designed for the use of the several Faculties of the College, students connected with the Theological, Law, Medical and Philosophical Departments, and the members of the Senior and Junior Classes in the Academical Department.

Each of the professional schools has connected with it a separate library.

The whole number of books in the College Library beside pamphlets is about		35,000
" " in the Libraries of the professional schools,	-	5,000
" " in the Libraries of the Literary Societies,	-	25,000
Total, - - - - - - - - - - - - ,		65,000

The Library of the American Oriental Society is now kept in the College Library-Building.

THE MINERALOGICAL AND GEOLOGICAL CABINET, embracing about thirty thousand specimens, is accessible to the students of the several departments.

FRESHMEN, 134.

GENERAL STATEMENT.

Academical Department.

TERMS OF ADMISSION.

CANDIDATES for admission to the Freshman Class are examined in the following books,—

Cicero's Select Orations.
The Bucolics, Georgics, and the first six books of the Æneid of Virgil.
Sallust.
Latin Grammar,—Andrews and Stoddard, or Zumpt.
Latin Prosody.
Arnold's Latin Prose Composition, to the Passive voice, (first XII Chapters).

Greek Reader,—Jacobs, Colton, or Felton.
Xenophon's Anabasis, first three books.
Greek Grammar,—Sophocles, Crosby, or Kühner.

Thomson's Higher Arithmetic.
Day's Algebra, (Revised Edition), to Quadratic Equations.
Playfair's Euclid, first two books.
English Grammar.
Geography.

Note.—The attention of candidates is particularly called to the requirements in Mathematics, in which many are found deficient.

TIME AND CONDITIONS OF EXAMINATION.

THE REGULAR EXAMINATION for admission to College takes place on Monday and Tuesday preceding Commencement, beginning at 9 o'clock A. M. on Monday and at 8 o'clock A. M. on Tuesday. The candidates assemble at Graduates Hall. Another examination will be held at the same place, on Tuesday and Wednesday, September 13th and 14th, beginning at 9 o'clock A. M. on Tuesday, and at 8 o'clock A. M. on Wednesday. Persons may be examined for an advanced standing in any other part of the collegiate terms, but not in vacations, except in very special cases. No one can be admitted to the Senior Class, after the commencement of the second term.

ADVANCED STANDING.—All candidates for advanced standing, whether from other Colleges or not, in addition to the preparatory studies, are examined in those previously pursued by the classes which they propose to enter.

AGE.—No one can be admitted to the Freshman Class, till he has completed his fourteenth year, nor to an advanced standing without a proportional increase of age.

TESTIMONIALS.—Testimonials of good moral character are in all cases required; and those who are admitted from other Colleges must produce certificates of dismission in good standing.

BOND.—Every person, on being admitted, must give to the Treasurer a bond, executed by his parent or guardian, for two hundred dollars, to pay all charges which may arise under the laws of the College.

MATRICULATION.—The students are not considered as regular members of the College, till, after a residence of at least six months, they have been admitted to matriculation on satisfactory evidence of an unblemished moral character. Before this they are only students on probation. The laws of the College provide for the final separation from the institution of those, who, within a specified time, do not so far approve themselves to the Faculty as to be admitted to matriculation.

COURSE OF INSTRUCTION.

THE WHOLE COURSE OF INSTRUCTION occupies four years. In each year there are three terms or sessions.

DIVISIONS.—The Freshman, Sophomore and Junior classes are each divided into three parts, and the Senior class into two.

RECITATIONS.—Each of the four classes attends three recitations or lectures in a day; except on Wednesdays and Saturdays, when they have only two.

THE FOLLOWING SCHEME gives a general view of the studies pursued in each term:—

SCHEME OF STUDY.

FRESHMAN CLASS.

FIRST TERM.

Greek.—Homer's Iliad, two books.
Latin.—Lincoln's Livy; Arnold's Latin Prose Composition.

SOPHOMORE CLASS.

FIRST TERM.

Greek.—Xenophon's Memorabilia; Alcestis of Euripides; Greek Composition.
Latin.—The Satires and Epistles of Horace; Latin Composition.
Mathematics.—Day's Mathematics;—Nature and use of Logarithms, Plane Trigonometry; Stanley's Mathematical Tablas.
Rhetoric.—Lectures on Elocution, with Practice. Declamations. Compositions.

SECOND TERM.

Greek.—Prometheus of Æschylus; Panegyricus of Isocrates.
Latin.—Cicero de Officiis; Latin Composition.
Mathematics.—Day's Mathematics—Mensuration of Superficies and Solids, Isoperimetry, Mensuration of Heights and Distances; Stanley's Spherics.
Rhetoric.—Declamations. Compositions.

THIRD TERM.

Greek.—Antigone of Sophocles.
Latin.—Cicero de Officils.
Mathematics.—Day's Mathematics—Navigation, Surveying; Loomis's Conic Sections, or Loomis's Analytical Geometry, (see Elective Studies).
Rhetoric.—Whately's Rhetoric, (with the exception of Part IV, on Elocution). Declamations. Compositions.

JUNIOR CLASS.

FIRST TERM.

Greek.—Gorgias of Plato.
Latin.—Cicero: Tusculan Disputations; Latin Composition.
Mathematics.—Todhunter's Calculus, (see Elective Studies).
Natural Philosophy.—Olmsted's Natural Philosophy:—Mechanics. Lectures.
Rhetoric.—Forensic Disputations.

SECOND TERM.

Greek.—Thucydides.
Latin.—Tacitus; Latin Composition.
Mathematics.—Todhunter's Calculus, (see Elective Studies).
Natural Philosophy.—Olmsted's Natural Philosophy:—Hydrostatics, Hydraulics, Pneumatics, Acoustics, Electricity, Magnetism. Lectures.
Rhetoric.—Forensic Disputations.

THIRD TERM.

Natural Philosophy.—Olmsted's Natural Philosophy:—Optics. Lectures.
Astronomy.—Olmsted's Astronomy, to the Planets.
Logic.—Whately's Logic.
Elective Studies. { Modern Languages. Ancient Languages. Mineralogy.

SENIOR CLASS.

FIRST TERM.

Astronomy.—Olmsted's Astronomy, finished.
History.—Guizot's History of Civilization. Lectures.
Mental Philosophy.—Reid's Essays (Walker's edition); Stewart's Elements. Lectures.
Rhetoric.—Oration of Demosthenes on the Crown. Lectures on Eloquence. Compositions. Forensic Disputations.
Chemistry.—Silliman's Chemistry. Lectures, with Recitations.
Mineralogy and Geology.—Lectures with Recitations.

SECOND TERM.

Moral Philosophy.—Stewart's Active and Moral Powers; Whewell's Elements of Morality. Lectures.
Political Philosophy.—Political Economy; Lieber's Civil Liberty and Self Government. Lectures.
Theology.—Paley's Natural Theology. Butler's Analogy. Lectures.
Rhetoric.—Blair's Rhetoric. Lectures. Compositions. Forensic Disputations.
Meteorology.—Lectures.
Astronomy.—Lectures.
Anatomy.—Lectures.

THIRD TERM.

Political Philosophy.—Kent's Commentaries, Vol. I. Law of Nations. Lectures on the Constitution of the United States.

Theology.—Paley's Evidences of Christianity. Lectures.

History of Philosophy.—Cousin.

LECTURES TO ACADEMICAL STUDENTS.

FIRST TERM.

SENIOR CLASS.

Chemistry—Professor SILLIMAN, Jr., five days in the week, during the first six weeks of the term, at the Chemical Laboratory.

Geology—Professor DANA, four days in the week, during the last seven weeks of the term, at the Geological Chamber, Cabinet Hall.

History—The PRESIDENT, Monday and Thursday, during the first half of the term, at 10 o'clock, at No. 131 Lyceum.

Mental Philosophy—Professor NOAH PORTER, Monday, at 12 o'clock, and Thursday, at 10 o'clock, for the last half of the term, at No. 131 Lyceum.

Eloquence—Professor GOODRICH, twice a week for the first half of the term, at 4½ o'clock, at No. 131 Lyceum.

JUNIOR CLASS.

Natural Philosophy—Professor OLMSTED, Tuesday and Friday, at 3 o'clock, at the Philosophical Chamber, Cabinet Hall, beginning about the 1st of November.

SECOND TERM.

SENIOR CLASS.

Meteorology and Astronomy—Professor OLMSTED, daily, for seven weeks, at 9 o'clock, at the Philosophical Chamber, Cabinet Hall.

Anatomy—Professor KNIGHT, daily, for three weeks, from March 1st, at 9 o'clock, at the Medical College.

Political Philosophy—The PRESIDENT, Monday, Tuesday, Thursday and Friday, the first half of the term, at 12 o'clock, at No. 131 Lyceum.

Moral Philosophy—Professor NOAH PORTER, Monday, Tuesday, Thursday and Friday, for the last half of the term, at 11 o'clock, at No. 131 Lyceum.

JUNIOR CLASS.

Natural Philosophy—Professor OLMSTED, Tuesday and Friday, after March 1st, at 4½ o'clock, at the Philosophical Chamber, Cabinet Hall.

THIRD TERM.

SENIOR CLASS.

Constitution of the United States—Professor DUTTON, at 11 o'clock, at No. 131 Lyceum —fourteen lectures.

Evidences of Christianity—Professor FISHER, four times a week, for three weeks, at 5 o'clock, at No. 131 Lyceum.

JUNIOR CLASS.

Optics—Professor OLMSTED, twice a week, at 3 o'clock.

EXERCISES IN DECLAMATION AND COMPOSITION.

The Senior and Junior Classes have exercises in forensic disputation twice a week.

The Senior Class have exercises in English composition twice a week.

The Sophomore Class, during the whole year, and the Freshman Class, during the third term, have exercises in English composition once a week.

The Sophomore Class have regular exercises in Elocution, during the whole year, and once a week have an exercise in Declamation in the Chapel, before the Professor of Rhetoric and the members of the Class.

ELECTIVE STUDIES.

Those students, who are desirous of pursuing the higher branches of the Mathematics, are allowed to choose Analytical Geometry in place of the regular Mathematics, in the third term of Sophomore Year, and the Differential and Integral Calculus, during the first two terms of Junior Year, in place of the Greek or the Latin studies of those terms.

During the third term of Junior Year, in addition to the required studies of the term, the members of the class receive at their option instruction in the French or German Languages, in select Greek or Latin, or in Mineralogy.

Students, who are desirous of pursuing Hebrew, may obtain gratuitous instruction in that language from the Professor of Sacred Literature.

VOCAL MUSIC.

Instruction is given in vocal music, twice a week during the year. The exercises in this department are open to all the classes.

The entire course extends through two years, and has especial reference to sacred music.

EXAMINATIONS.

PUBLIC EXAMINATIONS of the classes are held at the close of each term on the studies of the term; and twice in the College course, at the close of the Sophomore and Senior years, on the studies of the two preceding years.

The biennial examinations are conducted wholly in writing, and are continued each for a period of between two and three weeks.

TERMS AND VACATIONS.

THE PUBLIC COMMENCEMENT is held on the last Thursday in July of each year. The first term begins seven weeks from the day before Commencement and continues fourteen weeks; the second begins on the first Wednesday in January and continues fourteen weeks; the third, of twelve weeks, begins on the first Wednesday in May and continues till Commencement. The intervening periods of seven, two, and three, or as the case may be, four weeks, are assigned for vacations.

LEAVE OF ABSENCE.—No student is allowed to be absent, without special leave, except in vacations. The absence of a student in term time, even for a few days, occasions a much greater injury than is commonly supposed by parents or guardians. During the vacations, on the contrary, parents are earnestly advised not to allow their sons to remain at the College.

PUBLIC WORSHIP.

PRAYERS are attended in the College Chapel every morning and evening, with the reading of the Scriptures; when one of the Faculty officiates, and all the students are required to be present.

PUBLIC WORSHIP is held in the Chapel on the Sabbath, which all the students are required to attend, except such as have special permission to attend the worship of other denominations, to which their parents belong. Such permission can be obtained only by presenting to the President a written request from the parent or guardian.

EXPENSES.

THE COLLEGE BILLS are made out by the Treasurer three times a year, at the close of each term, and are delivered to the students, who are required to present them to their parents or guardians. The bills are payable at the close of the term, and if not paid by the expiration of two weeks after the commencement of the succeeding term, the student is liable to be prohibited from reciting.

TREASURER'S BILL.

The annual charges in the Treasurer's bill are,

For tuition, - - - - - - - - - - - - -	$45 00
" rent and care of half room in College, average of four years,	17 44
" expenses of public rooms, - - - - - - - - -	3 00
" ordinary repairs, general damages, and incidentals, about, -	3 56
	$69 00

OTHER CHARGES.—Besides this bill, the student pays for tuition in optional studies during part of Junior year, a small sum for the use of books which he may draw from the College Library, and additional charges at graduation, amounting to $12 00. If a student occupies a whole room, the charge for rent and care is double that stated above.

ADVANCED STANDING.—Any person admitted to an advanced standing, unless coming from another College, pays the sum of five dollars as tuition money, for each term which has been completed by the class which he enters.

NOTES of the several incorporated banks in this State, and such other notes as are taken by the banks in the city of New Haven, are received in payment of the bills. Drafts on Boston or New York may be transmitted direct to the Treasurer.

BOARD.—Board is obtained at prices varying from $2 50 to $3 50 a week. To a majority of the students it is about $3 00. Board may be obtained in clubs, by those students who wish it at a lower rate than is common in boarding houses. No student is allowed to be a boarder in any hotel or house of public entertainment.

LODGINGS IN TOWN.—Students who wish to take lodgings in town are permitted to do so. But if, in consequence of this, any of the rooms in College are left vacant, the amount of the rent will be assessed upon those who room in town. The expense of room rent in private

houses is much greater than in College. The students living out of College are not allowed to room in any house or building, in which a family does not reside.

FURNITURE, BOOKS, &c.—The students provide for themselves bed and bedding, furniture for their rooms, fuel, lights, books, stationery and washing. There are also, in the several classes and literary societies, taxes of a small amount. If books and furniture are sold, when the student has no further necessity for them, the expenses incurred by their use will not be great.

FUEL is distributed to those students who apply for it, at cost and charges, and *must be paid for at the time of ordering.*

NECESSARY EXPENSES.—The following may be considered as a near estimate of the *necessary* annual expenses, without including apparel, pocket money, traveling, and board in vacations:—

Treasurer's bill (average),			$72	$72
Board, 40 weeks,	from	100	to	140
Fuel and lights,	"	12	"	20
Use of books recited, and stationery,	"	5	"	15
Use of furniture, bed and bedding,	"	5	"	20
Washing,	"	12	"	21
Taxes in the Societies, &c.	"	9	"	12
Total,		$215	to	$300

GENERAL EXPENSES.—With regard to apparel, and what is called pocket money, no general estimate can be made. These are the articles in which the expenses of individuals differ most, and in which some are unwarrantably extravagant. There is nothing by which the character and scholarship of the students in this College are more endangered, than by a free indulgence in the use of money. Great caution with regard to this is requisite on the part of parents. What is more than sufficient to defray the ordinary expenses, will expose the student to numerous temptations, and will not contribute either to his respectability or happiness.

COLLEGE GUARDIAN.—As a precaution against extravagance, parents at a distance frequently deposit funds with some one of the Faculty; who, in that case, pays a particular attention to the pecuniary concerns of the student, settles his bills, corresponds with the parent, and transmits an account of the expenditures, for which services he charges a commission.

BENEFICIARY FUNDS.

A SUM exceeding twenty-four hundred dollars, derived partly from permanent charitable funds, is annually applied by the Corporation for the relief of indigent students, especially those who are preparing for the ministry of the Gospel. More than fifty have their tuition either wholly or in part remitted. There are also thirteen scholarships, each yielding somewhat more than enough to pay the tuition, which may be given to such students as shall be selected by the founders or by the Faculty.

TEXT-BOOKS.—Indigent students are also supplied with most of the text-books used in the College course, without expense, by loan from the Benevolent and Educational Libraries.

RECITATION ROOMS.—Students in the Freshman Class who occupy the recitation rooms, save their room rent and fuel in winter, and receive a small compensation in summer.

SCHOLARSHIPS.

THE BERKELEY SCHOLARSHIP, yielding about forty-six dollars a year, is awarded to the student in each Senior Class, who passes the best examination in the Greek Testament (Pauline Epistles), the first book of Thucydides, and the first six books of Homer's Iliad, Cicero's Tusculan Questions, Tacitus, (except the Annals,) and Horace; provided he remains in New Haven as a graduate one, two or three years.

THE CLARK SCHOLARSHIP, yielding a hundred and twenty dollars a year, is awarded to the student in each Senior Class, who passes the best examination in the studies of the College course; provided he remains in New Haven as a graduate one or two years, pursuing a course of study (not professional) under the direction of the Faculty.

THE BRISTED SCHOLARSHIP, yielding about ninety-five dollars a year, is awarded whenever there may be a vacancy, to the student in the Sophomore or Junior Class, who passes the best examination in the Greek and Latin classics and the mathematics. The successful candidate receives the annuity, (forfeiting one-third in case of non-residence in New Haven,) until he would regularly take his second degree.

A SCHOLARSHIP, yielding sixty dollars a year, is awarded to the student in each Freshman Class, who passes the best examination in Latin composition (excellence in which is essential to success), in the Greek of the year, and in the solution of algebraic problems. The successful candidate enjoys the annuity under certain conditions during the four years of his College course.

PREMIUMS.

The DeForest Prize Medal, of the value of one hundred dollars, will be awarded "to that scholar of the Senior Class, who shall write and pronounce an English Oration in the best manner."

The Townsend Premiums, five in number, each of twelve dollars, are awarded in the Senior Class for the best specimens of English composition.

The Senior Mathematical Prizes, (the first consisting of a gold medal of the value of ten dollars, with ten dollars in money, the second of ten dollars in money,) are given to two members of the Senior Class for the best solution of problems in both abstract and concrete mathematics.

The Berkeley Premiums for Latin composition are offered to the Junior, Sophomore, and Freshman Classes near the beginning of the third term.

The Clark Premiums will be offered, during the present year, for excellence in the department of the higher Mathematics of Junior year; and for the solution of problems in Practical Astronomy.

The College Premiums are given in the Sophomore Class for English composition, at the end of the first and second terms, in the Sophomore Class for Declamation, and in the Sophomore and Freshman Classes for the solution of mathematical problems.

DEGREES.

Bachelor of Arts.—The Degree of Bachelor of Arts is conferred on those persons who have completed the course of academical exercises, as appointed by law, and have been approved on examination at the end of the course as candidates for the same. Candidates for this degree are required to pay their dues to the Treasurer as early as the Monday before Commencement.

Master of Arts.—Every Bachelor of Arts of three years' or longer standing may receive the Degree of Master of Arts on the payment of a fee of five dollars, provided he shall, in the interval, have sustained a good moral character. Application must be made to the President previous to Commencement.

Theological Department.

THE FACULTY of this Department consists of the President of the College, a Professor of Didactic Theology, a Professor and Assistant Professor of Sacred Literature, a Professor of the Pastoral Charge, and the Professor of Divinity.

The TIME OF ADMISSION is at the beginning of the collegiate year. It is desirable that those who join this Department should be present at the commencement of the first term. Those admitted to an advanced standing will be expected to be prepared in the studies previously pursued by their respective classes.

The CONDITIONS for entrance are hopeful piety, and a liberal education at some College, or such other literary acquisition as may be considered an equivalent preparation for theological studies.

The TERMS AND VACATIONS are the same with those in the Academical Department.

The REGULAR COURSE OF INSTRUCTION occupies three years, and comprises the following subjects:

JUNIOR CLASS.

Hebrew Grammar, (Roediger's Gesenius, translated by Conant).
Conant's Hebrew Exercises and Chrestomathy.
Principles of Sacred Criticism and Hermeneutics.
Critical and Exegetical study of the Hebrew and Greek Scriptures.
Critical and Exegetical Dissertations.
LECTURES by the Professor of Sacred Literature on some topics introductory to Theology, and in Exegetical Theology.
LECTURES by the Professor of Didactic Theology on Mental Philosophy, including the Will.

MIDDLE CLASS.

LECTURES by the Professor of Didactic Theology—
On Moral Philosophy.
Moral Government.
Natural Theology.
Necessity and Evidences of Revelation.
Systematic Theology.
Exegetical study of the Scriptures and Dissertations continued.

SENIOR CLASS.

LECTURES on the Structure and Composition of Sermons and on Public Prayer.
Criticism of Sermons and of Plans of Sermons.
Exercises in Extemporaneous Speaking and Preaching before the Class.
LECTURES on the Pastoral Charge.
Revivals of Religion.
History of Modern Missions.
Expository Preaching.
Elocution, attended by Practice in the Delivery of Sermons.

RHETORICAL SOCIETY.—There are weekly Debates in the Rhetorical Society, at which one of the Professors presides, and in which the members of all the Classes participate.

LIBRARIES.—The students have access to the College Library, and to the libraries of the literary Societies in the College.

EXPENSES.—A building has been erected for the accommodation of students, in which the rooms are free of rent; but each occupant is subject to a charge of $3,50 a year for incidental expenses. No other charges are made to the students.

BENEFICIARY AID.—In addition to the aid afforded by the American Education Society, provision is now made for efficient assistance to those who need it. Such persons also have an opportunity of attending, free of expense, the Lectures of Professors OLMSTED, DANA and SILLIMAN, on Natural Science; and those preparing for missionary service, also the Lectures in the Medical Department.

Law Department.

THE FACULTY of this Department consists of the President of the College, and two Law Professors, Hon. HENRY DUTTON, LL. D., late Governor of the State, and Hon. THOMAS B. OSBORNE, LL. D., late Judge of the County Court.

TERMS AND VACATIONS.—The year commences on the seventh Monday after Commencement. There is a recess of two weeks, embracing Christmas and New-year's day, and a Spring vacation of three weeks. The summer term commences on the Monday next preceding the first Wednesday in May. Students may enter the School at any time, but it is recommended that they do so as early as practicable after the commencement of the first term.

CLASSES.—The School is divided into classes. Each class is daily employed upon a lesson in the Class Book, and is separately examined, and every student can read in one or more of the classes, as he finds himself able and inclined to perform the requisite labor.

RECITATIONS, &c.—Two exercises, consisting of Lectures or Recitations, accompanied by oral expositions, are daily given by the Instructors.

THE WHOLE COURSE OF INSTRUCTION occupies two years. The following are some of the principal studies of the course:—

Blackstone's Commentaries.
Real Estate.
Personal Property.
Contracts.
Domestic Relations.

Parties to Actions.
Forms of Actions.
Pleading.
Evidence.
Nisi Prius.

Bills of Exchange.
Promissory Notes.
Insurance.
Shipping.
Corporations.

Criminal Law.
Equity.

Constitution of the United States.
Law of Nations.
Conflict of Laws.

The students are required to peruse the most important elementary treatises, and are daily examined on the author they are reading, and receive at the same time explanations and illustrations of the subjects they are studying.

COURSES OF LECTURES are delivered by the Instructors, on the most important subjects of Common and Statute Law, and of Equity.

A MOOT COURT is held once a week or oftener, which employs the students in drawing pleadings, and investigating and arguing questions of law.

PLEADINGS.—The students are called upon, from time to time, to draw declarations, pleadings, contracts, and other instruments connected with the practice of law, and to do the most important duties of an attorney's clerk.

LEGAL OPINIONS.—They are occasionally required to write disquisitions on some topic of law, and collect the authorities to support their opinions.

LAWS OF PARTICULAR STATES.—The more advanced students are assisted in the study of the laws of the particular States in which they intend to establish themselves.

LIBRARIES.—The students are furnished with the use of the elementary books. and have access to the College libraries, and to a valuable law library.

EXPENSES.—The terms of tuition, with constant use of text-books, and ordinary use of the library, are as follows, payable in advance, unless for satisfactory reasons. For the whole course of two years, one hundred and fifty dollars. For one year, eighty dollars. For less than one year, ten dollars a month. For more than one year and less than two years, seven dollars a month after the first year.

DEGREE.—The Degree of Bachelor of Laws will be conferred by the President and Fellows, on liberally educated students who have

been members of the Department eighteen months, and have complied with the regulations of the Institution, and passed a satisfactory examination. Those not liberally educated, will be graduated upon similar conditions, after two years' membership; and members of the Bar, after one year's membership subsequent to their admission to the Bar. The fee for the diploma is $5.

Medical Department.

THE FACULTY of the Medical Department consists of the President of the College, a Professor of Surgery, a Professor of Anatomy and Physiology, a Professor of Materia Medica and Therapeutics, a Professor of Chemistry and Pharmacy, a Professor of the Theory and Practice of Physic, and a Professor of Obstetrics.

THE ANNUAL COURSE OF LECTURES commences on Thursday, (Sept. 15th, 1859,) seven weeks after the College Commencement, and continues four months. The lectures are so arranged, that at least five are given daily, and a part of the time six—as follows:

Principles and Practice of Surgery—Professor KNIGHT, daily, at 9 o'clock.
Anatomy and Physiology—Professor CHARLES HOOKER, daily, at 10 o'clock.
Materia Medica and Therapeutics—Professor BRONSON, daily, at 11 o'clock.
Chemistry—Professor SILLIMAN, Junior, daily, at 12 o'clock.
Theory and Practice of Physic—Professor WORTHINGTON HOOKER, daily, at 2½ o'clock.
Obstetrics—Professor JEWETT, Monday, Wednesday and Friday, at 3½ o'clock.

The Lectures on Chemistry are given at the Chemical Laboratory;—the Lecture-rooms of the other Professors are in the Medical College.

A MEDICAL AND SURGICAL CLINIQUE is held every week, at the Connecticut Hospital, during the Lecture term, at which a variety of cases is presented, for consultation and operations, in presence of the class.

ACADEMICAL LECTURES.—The students are entitled to gratuitous admission to the course of Lectures on Anatomy and Physiology, given by Professor KNIGHT, during the spring term, to the Senior Class in the Academical Department. They also have admission to the various other Lectures in the Academical Department, on paying the fees of the several courses.

THE NEW MEDICAL COLLEGE BUILDING on York street, now nearly finished, will be occupied the next term. This building has been carefully planned, so as to afford the most ample and convenient accom-

modations. The arrangements for Dissections are ample, and subjects are supplied on the most reasonable terms. The Anatomical Museum, the Cabinet of the Materia Medica, the Museum of the Yale Natural History Society, the Cabinet of Minerals, and the Libraries of the Medical and Academical Departments, are all open to students.

EXPENSES.—The Fees, which are required in advance, are $12,50 for each course, except that on Obstetrics, which is $6, with a Matriculation fee of $5—the whole amounting to $73,50. The tickets of all the Professors, or a part, may be taken in any one season. Those who have attended two full courses of Lectures in this Institution, are entitled to admission to future courses gratis. Those who have attended one full course in this Institution, and also one full course in another incorporated Medical Institution, will be admitted to a full course on paying the Matriculation fee. The graduation fee is $15;—fee for a license, including diploma, $4,50.

DEGREE.—By the Statutes of the State, the requirements for the Degree of Doctor in Medicine are three years' study for those who are not Bachelors of Arts, and two years' study for those who are; attendance upon two full courses of Lectures, either in this Institution, or some other of a similar character; the attainment of twenty-one years of age, and a good moral character; together with a satisfactory examination before the Board of Examiners for the State, at which the candidate must present a dissertation upon some subject connected with the Medical Sciences, written in a form prescribed by the Faculty. This Board consists of the Medical Professors of the College, *ex officio*, and an equal number of persons chosen by the Fellows of the Medical Society of the State. Licenses to practice are granted by the President of the Medical Society, upon the recommendation of the Board of Examiners, and candidates for a license must possess the same qualifications as those for a degree, except that attendance upon one course of Lectures only is required. The examination is held immediately after the close of the Lectures, when the licenses are granted and degrees conferred.

PRIVATE MEDICAL SCHOOL.

THERE is a Private Medical School for the purpose of daily recitation. The instructors are Doctors H. Bronson, W. Hooker, P. A. Jewett and L. J. Sanford. The year is divided into two terms. The first term

corresponds with the course of lectures of the Medical Institution. The second begins in the middle of February and extends to Commencement, having a vacation of a fortnight in the first part of May. Fees for the first term, $10; for the second, $40.

Department of Philosophy and the Arts.

THE DESIGN of this Department is to furnish resident graduates and others, with the opportunity of devoting themselves to special branches of study, either not otherwise provided for, or not pursued as far as individual students may desire.

THE BRANCHES intended to be embraced in this department are such in general as are not included under Theology, Law and Medicine; or more particularly, Mathematical Science, Physical Science and its application to the Arts, Metaphysics, Philology, Literature and History.

INSTRUCTION in this department may be given by Professors not belonging to the other departments, by the Academical professors, and by such others as the President and Fellows may approve.

FACULTY.—The Instructors for the year, with the President, compose the Faculty of the department.

PREPARATORY STUDIES.—It is necessary that all students in philology and mathematical science, should come thoroughly prepared in the elements of those studies.

FOR THE TERMS OF ENTRANCE upon the several courses in the department, application may be made to the several instructors.

LECTURES AND INSTRUCTION.

Professor GIBBS, on General Philology.

Professor OLMSTED, on Natural Philosophy and Astronomy, the Academical courses of Lectures. Also if desired, private lessons in experimental physics and mathematical astronomy.

Professor NOAH PORTER, on Psychology, Logic, and the History of Philosophy.

Professor THACHER—Lucretius and Latin Composition; instruction twice a week.

Professor HADLEY—Pindar and Theocritus; instruction twice a week.

Professor WHITNEY will instruct in the Sanskrit language, and in the History, Antiquities, and Literature of India and other Oriental countries; also, in the comparative philology of the Indo-European languages, and the general principles of linguistic study. He will also give instruction to such as may desire it in the modern European languages.

Professor NEWTON.—Such branches of the Higher Mathematics as may be agreed upon with the student.

DEGREE.—The Degree of Bachelor of Philosophy will be conferred by the President and Fellows, upon students in the Department of Philosophy and the Arts, after being connected with the Department for two years, and passing a satisfactory examination in two departments of science, and the French or German language. The fee for a diploma is $5.

In the case of students connected with the divisions of Chemistry or Engineering, the two departments of science on which this examination for a degree is held, must both be pursued in the same division of the school.

YALE SCIENTIFIC SCHOOL.

UNDER the Department of Philosophy and the Arts, the Yale Scientific School is organized to give systematic instruction in Natural Science, Chemistry, Agriculture and Engineering.

NATURAL SCIENCE, CHEMISTRY AND AGRICULTURE.

THIS division of the School is under the immediate supervision of Professors JAMES D. DANA, BENJAMIN SILLIMAN, JR., JOHN A. PORTER, GEORGE J. BRUSH, and SAMUEL W. JOHNSON, assisted in Analytical Chemistry by Mr. EDWARD H. TWINING.

LECTURES.

FIRST TERM.

General Chemistry—(50 lectures)—Professor SILLIMAN, Jr.
Geology—(40 lectures and recitations)—Professor DANA.
Chemistry of the non-metallic elements—(30 lectures)—Professor JOHNSON.

SECOND TERM.

Chemistry of Building Materials—(12 lectures)—Professor SILLIMAN, Jr.
Chemistry, and General Principles of Agriculture—(30 lectures)—Professor JOHNSON.
Chemistry of the Metals—(30 lectures)—Professor BRUSH.

THIRD TERM.

Crystallography and General Mineralogy—(30 lectures and recitations)—Professor DANA.
Organic Chemistry—(30 lectures)—Professor JOHN A. PORTER.
Use of the Blowpipe—(20 hours of practice)—Professor BRUSH.

The Lectures of Professor Olmsted on Natural Philosophy, Meteorology and Astronomy are also accessible to the students.

PRACTICAL CHEMISTRY.—The *Analytical Laboratory*, in charge of Professors Johnson and Brush, is fully equipped with means of practi-

cal instruction in all branches of Analytical and Experimental Chemistry, and is open daily from 9 A. M. to 6 P. M. throughout the academic year. Students work through a course of Qualitative and Quantitative Analysis, and are afterwards guided in the study of any special department of Experimental Chemistry, or in original investigations. Previous study of chemistry is highly desirable, but not essential to admission. Special courses in *Qualitative Analysis* will be given each term.

The whole course occupies two years. Students are received to a full or partial course at their option.

The terms and vacations are the same as in the Academical Department.

EXPENSES.—Matriculation fee, $3. For Laboratory instruction, and supplies of ordinary reagents and materials, fires, apparatus, and use of Chemical Library, $51 per term. Cost of apparatus and materials to be supplied by the student, $5 to $10 per term. Lectures—to Laboratory students, free; to others, $3 to $10 each course. All fees to be paid in advance.

TEXT-BOOKS.—*General Chemistry*, Miller, Graham, Regnault, Gregory, Silliman, Porter, Cooke. *Analytical Chemistry*, Rose, Fresenius, Will, Bolley, Liebig, Wöhler. *Mineralogy*, Dana. *Geology*, Lyell, Phillips. *Agriculture*, Norton's Elements, Stoeckhardt's Chemical Field Lectures, Johnston's Lectures.

Students in the Scientific School have access to the College Library and to the Mineralogical and Geological collections.

ENGINEERING.

THIS DIVISION OF THE SCHOOL is under the supervision of Professor WILLIAM A. NORTON, assisted by Mr. LOUIS BAIL.

THE COURSE OF INSTRUCTION embraces the following studies and exercises:

Surveying, in all its branches, with the adjustment and use of instruments, and operations in the field.

Drawing—topographical, geometrical, mechanical, architectural; with shading and tinting.

Descriptive Geometry—Shades and Shadows—Linear Perspective—Isometrical Projection; pursued in connection with systematic exercises in geometrical drawing.

Applications of Descriptive Geometry to Masonry and Stone-cutting, in the construction of Arches, &c., and to Civil and Mechanical Engineering, generally.

The Principles of Architecture.

Analytical Geometry, and Differential and Integral Calculus.

Mechanics, including Hydraulics and Pneumatics;—Application of Mechanics to Machinery and Engineering.

The Science of Construction in its various departments; with a discussion of the nature, strength, and mode of preparation of building materials.

Engineering field-work; or the location of roads, surveys for excavations and embankments, &c. Use of astronomical instruments for the determination of time, latitude and longitude, &c.

LECTURES.—The lectures of Professor SILLIMAN, Jr., during the second term, on the Chemistry of Building Materials, are open to the students; and also the lectures of Professor DANA, on Mineralogy and Geology, those of Professor SILLIMAN, Jr., on General Chemistry, and those of Professor OLMSTED, on Natural Philosophy, Astronomy, and Meteorology, in the Academical Department.

THE FULL COURSE occupies two years. Students will be admitted to a full or a partial course, at their option.

THE PREPARATORY MATHEMATICAL STUDIES required for admission to the full course, are Arithmetic, Algebra, Geometry, and Trigonometry.

THE SESSIONS coincide with those in the Academical Department.

EXPENSES.—The tuition fee for the full course, for each term, is $33, to be paid in advance. The fee for the course of Surveying alone is $12. There is no charge for incidental expenses.

Library and Cabinet.

THE COLLEGE LIBRARY is designed for the use of the several Faculties of the College, students connected with the Theological, Law, Medical and Philosophical Departments, and the members of the Senior and Junior Classes in the Academical Department.

Each of the professional schools has connected with it a separate library.

The whole number of books in the College Library beside pamphlets is about		36,000
" "	in the Libraries of the professional schools, -	5,000
" "	in the Libraries of the Literary Societies, -	25,000
Total, - - - - - - - - - - - -		66,000

The Library of the American Oriental Society is now kept in the College Library-Building.

THE MINERALOGICAL AND GEOLOGICAL CABINET, embracing about thirty thousand specimens, is accessible to the students of the several departments.

FRESHMEN, 173.

GENERAL STATEMENT.

Academical Department.

TERMS OF ADMISSION.

Candidates for admission to the Freshman Class are examined in the following books and subjects,—

Cicero—seven Orations.
Virgil—the Bucolics, Georgics, and the first six books of the Æneid.
Sallust—Catilinarian and Jugurthine Wars.
Latin Grammar—Andrews and Stoddard, or Zumpt.
Latin Prosody.
Arnold's Latin Prose Composition, to the Passive voice, (first XII Chapters).

Greek Reader—Jacobs, Colton, or Felton.
Xenophon—Anabasis, first three books.
Greek Grammar—Sophocles, Crosby, or Kühner.

Thomson's Higher Arithmetic.
Day's Algebra, (Revised Edition), to Quadratic Equations.
Playfair's Euclid, first two books.
English Grammar.
Geography.

TIME AND CONDITIONS OF EXAMINATION.

The regular examination for admission to College takes place on Monday and Tuesday preceding Commencement, beginning at 9 o'clock A. M. on Monday and at 8 o'clock A. M. on Tuesday. The candidates assemble at Graduates Hall. Another examination will be held at the same place, on Tuesday and Wednesday, September 11th and 12th, 1860, beginning at 9 o'clock A. M. on Tuesday, and at 8 o'clock A. M. on Wednesday. Persons may also be examined for an advanced standing in any part of the collegiate terms, but not in vacations, except in very special cases. No one can be admitted to the Senior Class, after the commencement of the second term.

ADVANCED STANDING.—All candidates for advanced standing, whether from other Colleges or not, in addition to the preparatory studies, are examined in those previously pursued by the classes which they propose to enter.

AGE.—No one can be admitted to the Freshman Class, till he has completed his fourteenth year, nor to an advanced standing without a proportional increase of age.

TESTIMONIALS.—Testimonials of good moral character are in all cases required; and those who are admitted from other Colleges must produce certificates of dismission in good standing.

BOND.—Every person, on being admitted, must give to the Treasurer a bond, executed by his parent or guardian, for two hundred dollars, to pay all charges which may arise under the laws of the College.

MATRICULATION.—The students are not considered as regular members of the College, till, after a residence of at least six months, they have been admitted to matriculation on satisfactory evidence of an unblemished moral character. Before this they are only students on probation. The laws of the College provide for the final separation from the institution of those, who, within a specified time, do not so far approve themselves to the Faculty as to be admitted to matriculation.

COURSE OF INSTRUCTION.

THE WHOLE COURSE OF INSTRUCTION occupies four years. In each year there are three terms or sessions.

The members of the several classes meet for recitation and instruction by divisions:—the Senior class consisting of two divisions, the Junior, Sophomore and Freshman classes of two, three or four, according to their numbers.

Each of the four classes attends three recitations or lectures in a day; except on Wednesdays and Saturdays, when they have only two.

The following scheme gives a general view of the studies pursued in each term:—

FRESHMAN CLASS.

FIRST TERM.

Greek.—Homer's Iliad, two books.
Latin.—Lincoln's Livy; Arnold's Latin Prose Composition.
Mathematics.—Day's Algebra.

SECOND TERM.

Rhetoric.—Oration of Demosthenes on the Crown. Lectures. Compositions. Forensic Disputations.
Meteorology.—Lectures.
Astronomy.—Lectures.
Anatomy.—Lectures.

THIRD TERM—until the Examination, May 24.

Political Philosophy.—Law of Nations.
Mineralogy and Geology.
Theology.—Paley's Evidences of Christianity. Lectures.
History of Philosophy.—Cousin.

LECTURES TO ACADEMICAL STUDENTS.

FIRST TERM.

SENIOR CLASS.

History—The PRESIDENT, Monday and Thursday, during the first half of the term, at 3 o'clock, at No. 131 Lyceum.

Mental Philosophy—Professor NOAH PORTER, at 3 o'clock, Monday and Thursday, during the last half of the term, at No. 131 Lyceum.

Chemistry—Professor SILLIMAN, Jr., three days in the week, during the first twelve weeks of the term, at the Chemical Laboratory, at 5 o'clock.

Astronomy.—Professor NEWTON, on Friday, at 3 o'clock.

English Literature.—Professor LARNED, on Monday, at 5 o'clock.

JUNIOR CLASS.

Natural Philosophy—Mr. CHAPIN, at the Philosophical Chamber, Cabinet Hall, Tuesday and Thursday, at 12 o'clock, beginning about the 1st of November.

SECOND TERM.

SENIOR CLASS.

Anatomy—Professor KNIGHT, daily, for three weeks, from March 1st, at 5 o'clock, at the Medical College.

Political Philosophy—The PRESIDENT, Monday, Tuesday, Thursday and Friday, the first half of the term, at 3 o'clock, at No. 131 Lyceum.

Moral Philosophy—Professor NOAH PORTER, Monday, Tuesday, Thursday and Friday, for the last half of the term, at 3 o'clock, at No. 131 Lyceum.

Constitution of the United States—Professor DUTTON, at 5 o'clock, at No. 131 Lyceum—fourteen lectures.

JUNIOR CLASS.

THIRD TERM.

SENIOR CLASS.

Evidences of Christianity—Professor FISHER, four times a week, for three weeks, at 5 o'clock, at No. 131 Lyceum.

Geology—The lectures of Professor DANA, will in his absence, be read by Professor SILLIMAN, Jr.

JUNIOR CLASS.

Optics—Mr. CHAPIN, twice a week, at 3 o'clock.

EXERCISES IN DECLAMATION AND COMPOSITION.

The Senior and Junior Classes have exercises in forensic disputation twice a week.

The Senior Class have exercises in English composition twice a week.

The Sophomore Class, during the whole year, and the Freshman Class, during the third term, have exercises in English composition once a week.

The Sophomore Class have regular exercises in Elocution, during the whole year, and once a week have an exercise in Declamation in the Chapel, before the Professor of Rhetoric and the members of the Class.

ELECTIVE STUDIES.

Those students, who are desirous of pursuing the higher branches of the Mathematics, are allowed to choose Analytical Geometry in place of the regular Mathematics, in the third term of Sophomore Year, and the Differential and Integral Calculus, during the first two terms of Junior Year, in place of the Greek or the Latin studies of those terms.

During the third term of Junior Year, in addition to the required studies of the term, the members of the class receive at their option instruction in the French or German Languages, in select Greek or Latin, or in Mineralogy.

Students who are desirous of pursuing Hebrew, may obtain gratuitous instruction in that language from the Professor of Sacred Literature.

VOCAL MUSIC.

Instruction in vocal music is given twice a week during the year. The exercises in this department are open to all the classes.

The entire course extends through two years, and has especial reference to sacred music.

GYMNASIUM.

A building designed to provide all the undergraduate students with opportunities for gymnastic exercises, will be completed about the first of January, 1860. For the privileges of the same, the sum of three dollars a year will be charged to each student.

EXAMINATIONS.

Public examinations of the classes are held at the close of each term on the studies of the term; and twice in the College course, at the close of the Sophomore and Senior years, on the studies of the two preceding years.

The biennial examinations are conducted wholly in writing, and are continued each for a period of between two and three weeks.

TERMS AND VACATIONS.

THE PUBLIC COMMENCEMENT is held on the last Thursday in July of each year. The first term begins seven weeks from the day before Commencement and continues fourteen weeks; the second begins on the first Wednesday in January and continues fourteen weeks; the third, of twelve weeks, begins on the first Wednesday in May and continues till Commencement. The intervening periods of seven, two, and three, or as the case may be, four weeks, are assigned for vacations.

LEAVE OF ABSENCE.—No student is allowed to be absent, without special leave, except in vacations. The absence of a student in term time, even for a few days, occasions a much greater injury than is commonly supposed by parents or guardians. During the vacations, on the contrary, parents are earnestly advised not to allow their sons to remain at the College.

PUBLIC WORSHIP.

Prayers are attended in the College Chapel every morning, with the reading of the Scriptures and singing, and all the students are required to be present.

Public worship is held in the Chapel on the Sabbath, which all the students are required to attend, except such as have special permission to attend the worship of other denominations, to which their parents belong. Such permission can be obtained only by presenting to the President a written request from the parent or guardian.

EXPENSES.

THE COLLEGE BILLS are made out by the Treasurer three times a year, at the close of each term, and are delivered to the students, who are required to present them to their parents or guardians. The bills are payable at the close of the term, and if not paid by the expiration of two weeks after the commencement of the succeeding term, the student is liable to be prohibited from reciting. All bank notes bankable in New Haven, New York or Boston, are received in payment of term bills.

TREASURER'S BILL.

The annual charges in the Treasurer's bill are,

For tuition,	$45 00
" rent and care of half room in College, average of four years,	17 44
" expenses of public rooms,	3 00
" ordinary repairs, general damages, and incidentals, about,	3 56
" use of Gymnasium,	3 00
	$72 00

OTHER CHARGES.—Besides this bill, the student pays six dollars for tuition in German or French (as an optional study) during the third term of Junior year, a small sum for the use of books which he may draw from the College Library, and additional charges at graduation, amounting to $12 00. If a student occupies a whole room, the charge for rent and care is double that stated above.

ADVANCED STANDING.—Any person admitted to an advanced standing, unless coming from another College, pays the sum of five dollars as tuition money, for each term which has been completed by the class which he enters.

BOARD.—Board is obtained at prices varying from $2 75 to $3 75 a week. To a majority of the students it is about $3 25. Board may be obtained in clubs, by those students who wish it at a lower rate than is common in boarding houses. No student is allowed to be a boarder in any hotel or house of public entertainment.

LODGINGS IN TOWN.—Students who wish to take lodgings in town are permitted to do so. But if, in consequence of this, any of the rooms in College are left vacant, the amount of the rent will be assessed upon those who room in town. The expense of room rent in private houses is much greater than in College. The students living out of

College are not allowed to room in any house or building, in which a family does not reside.

FURNITURE, BOOKS, &c.—The students provide for themselves bed and bedding, furniture for their rooms, fuel, lights, books, stationery and washing. If books and furniture are sold, when the student has no further necessity for them, the expenses incurred by their use will not be great.

The students also tax themselves various amounts in the several classes and literary societies.

FUEL is distributed to those students who apply for it, at cost and charges, and *must be paid for at the time of ordering.*

NECESSARY EXPENSES.—The following may be considered as a near estimate of the *necessary* annual expenses, without including apparel, pocket money, traveling, and board in vacations:—

Treasurer's bill (average),		$75		$75
Board, 40 weeks,	from	110	to	150
Fuel and lights,	"	12	"	20
Use of books recited, and stationery,	"	7	"	20
Use of furniture, bed and bedding,	"	5	"	20
Washing,	"	12	"	20
Taxes in the Societies, &c.	"	9	"	15
Total,		$230	to	$320

GENERAL EXPENSES.—With regard to apparel, and what is called pocket money, no general estimate can be made. These are the articles in which the expenses of individuals differ most, and in which some are unwarrantably extravagant. There is nothing by which the character and scholarship of the students in this College are more endangered, than by a free indulgence in the use of money. Great caution with regard to this is requisite on the part of parents. What is more than sufficient to defray the ordinary expenses, will expose the student to numerous temptations, and will not contribute either to his respectability or happiness.

COLLEGE GUARDIAN.—As a precaution against extravagance, parents at a distance frequently deposit funds with some one of the Faculty; who in that case, pays a particular attention to the pecuniary concerns of the student, settles his bills, corresponds with the parent, and transmits an account of the expenditures, for which services he charges a commission.

BENEFICIARY FUNDS.

A SUM exceeding twenty-five hundred dollars, derived partly from permanent charitable funds, is annually applied by the Corporation for the relief of students who need pecuniary aid, especially those who are preparing for the Christian ministry. About seventy have thus their tuition either wholly or in part remitted.

The HARMER *Foundation of Scholarships*, established by the late THOMAS HARMER JOHNS, Esq., of Canandaigua, N. Y., comprises six scholarships, yielding each $100 per annum, to be given to deserving students of small means.

There are also eleven other scholarships, most of them yielding $60 per annum, which may be given to such students as shall be selected by the founders or by the Faculty.

Those who need to avail themselves of the use of the Benevolent Library are supplied gratuitously with most of the text-books used in the College course. They should be applied for at the College Library.

SCHOLARSHIPS.

THE BERKELEY SCHOLARSHIP, yielding about forty-six dollars a year, is awarded to the student in each Senior Class, who passes the best examination in the Greek Testament (Pauline Epistles), the first book of Thucydides, and the first six books of Homer's Iliad, Cicero's Tusculan Questions, Tacitus, (except the Annals,) and Horace; provided he remains in New Haven as a graduate one, two or three years.

THE CLARK SCHOLARSHIP, yielding a hundred and twenty dollars a year, is awarded to the student in each Senior Class, who passes the best examination in the studies of the College course; provided he remains in New Haven as a graduate one or two years, pursuing a course of study (not professional) under the direction of the Faculty.

THE BRISTED SCHOLARSHIP, yielding about ninety-five dollars a year, is awarded whenever there may be a vacancy, to the student in the Sophomore or Junior Class, who passes the best examination in the Greek and Latin classics and the mathematics. The successful candidate receives the annuity, (forfeiting one-third in case of non-residence in New Haven,) until he would regularly take his second degree.

A SCHOLARSHIP, yielding sixty dollars a year, is awarded to the student in each Freshman Class, who passes the best examination in Latin composition (excellence in which is essential to success), in the Greek

of the year, and in the solution of algebraic problems. The successful candidate enjoys the annuity under certain conditions during the four years of his College course. The student who stands second at this examination receives for one year the income of the HURLBUT Scholarship, $60.00.

PREMIUMS.

THE DEFOREST PRIZE MEDAL, of the value of one hundred dollars, will be awarded "to that scholar of the Senior Class, who shall write and pronounce an English Oration in the best manner."

THE TOWNSEND PREMIUMS, five in number, each of twelve dollars, are awarded in the Senior Class for the best specimens of English composition.

THE SENIOR MATHEMATICAL PRIZES, (the first consisting of a gold medal of the value of ten dollars, with ten dollars in money, the second of ten dollars in money,) are given to two members of the Senior Class for the best solution of problems in both abstract and concrete mathematics.

THE CLARK PREMIUMS will be offered, during the present year, for the solution of problems in Practical Astronomy.

THE COLLEGE PREMIUMS are given in the Sophomore Class for English composition, at the end of the first and second terms, in the Sophomore Class for Declamation, and in the Sophomore and Freshman Classes for the solution of mathematical problems.

DEGREES.

BACHELOR OF ARTS.—The Degree of Bachelor of Arts is conferred on those persons who have completed the course of academical exercises, as appointed by law, and have been approved on examination at the end of the course as candidates for the same. Candidates for this degree are required to pay their dues to the Treasurer as early as the Monday before Commencement.

MASTER OF ARTS.—Every Bachelor of Arts of three years' or longer standing may receive the Degree of Master of Arts on the payment of five dollars, provided he shall, in the interval, have sustained a good moral character. Application must be made to the President previous to Commencement.

Theological Department.

THE FACULTY of this Department consists of the President of the College, a Professor of Didactic Theology, a Professor and Assistant Professor of Sacred Literature, a Professor of the Pastoral Charge, and the Professor of Divinity.

The time of admission is at the beginning of the collegiate year. It is desirable that those who join this Department should be present at the commencement of the first term. Those admitted to an advanced standing will be expected to be prepared in the studies previously pursued by their respective classes.

The conditions for entrance are hopeful piety, and a liberal education at some College, or such other literary acquisition as may be considered an equivalent preparation for theological studies.

The terms and vacations are the same with those in the Academical Department.

The regular course of instruction occupies three years, and comprises the following subjects:

JUNIOR CLASS.

Hebrew Grammar, (Roediger's Gesenius, translated by Conant).
Conant's Hebrew Exercises and Chrestomathy.
Principles of Sacred Criticism and Hermeneutics.
Critical and Exegetical study of the Hebrew and Greek Scriptures.
Critical and Exegetical Dissertations.
Lectures by the Professor of Sacred Literature on some topics introductory to Theology, and in Exegetical Theology.
Lectures by the Professor of Didactic Theology on Mental Philosophy, including the Will.

MIDDLE CLASS.

Lectures by the Professor of Didactic Theology—
On Moral Philosophy.
Moral Government.
Natural Theology.
Necessity and Evidences of Revelation.
Systematic Theology.
Exegetical study of the Scriptures and Dissertations continued.

SENIOR CLASS.

Lectures on the Structure and Composition of Sermons and on Public Prayer.
Criticism of Sermons and of Plans of Sermons.
Exercises in Extemporaneous Speaking and Preaching before the Class.
Lectures on the Pastoral Charge.
Revivals of Religion.
History of Modern Missions.
Expository Preaching.
Elocution, attended by Practice in the Delivery of Sermons.

RHETORICAL SOCIETY.—There are weekly Debates in the Rhetorical Society, at which one of the Professors presides, and in which the members of all the Classes participate.

LIBRARIES.—The students have access to the College Library, and to the libraries of the literary Societies in the College.

EXPENSES.—A building is provided for the accommodation of students, in which the rooms are free of rent; but each occupant is subject to a charge of $3,50 a year for incidental expenses. No other charges are made to the students.

BENEFICIARY AID.—In addition to the aid afforded by the American Education Society, provision is now made for efficient assistance to those who need it. Such persons also have an opportunity of attending, free of expense, the Lectures in the Academical Department, on Natural Science; and those preparing for missionary service, also the Lectures in the Medical Department.

Law Department.

THE FACULTY of this Department consists of the President of the College, and two Law Professors, Hon. HENRY DUTTON, LL. D., and Hon. THOMAS B. OSBORNE, LL. D.

TERMS AND VACATIONS.—The year commences on the seventh Monday after Commencement. There is a recess of two weeks, embracing Christmas and New-year's day, and a Spring vacation of three weeks. The summer term commences on the Monday next preceding the first Wednesday in May. Students may enter the School at any time, but it is recommended that they do so as early as practicable after the commencement of the first term.

CLASSES.—The School is divided into classes. Each class is daily employed upon a lesson in the Class Book, and is separately examined, and every student can read in one or more of the classes, as he finds himself able and inclined to perform the requisite labor.

RECITATIONS, &c.—Two exercises, consisting of Lectures or Recitations, accompanied by oral expositions, are daily given by the Instructors.

The whole course of instruction occupies two years. The following are some of the principal studies of the course:—

Blackstone's Commentaries.
Real Estate.
Personal Property.
Contracts.
Domestic Relations.

Parties to Actions.
Forms of Actions.
Pleading.
Evidence.
Nisi Prius.

Bills of Exchange.
Promissory Notes.
Insurance.
Shipping.
Corporations.

Criminal Law.
Equity.

Constitution of the United States.
Law of Nations.
Conflict of Laws.

The students are required to peruse the most important elementary treatises, and are daily examined on the author they are reading, and receive at the same time explanations and illustrations of the subjects they are studying.

Courses of lectures are delivered by the Instructors, on the most important subjects of Common and Statute Law, and of Equity.

A moot Court is held once a week or oftener, which employs the students in drawing pleadings, and investigating and arguing questions of law.

PLEADINGS.—The students are called upon, from time to time, to draw declarations, pleadings, contracts, and other instruments connected with the practice of law, and to do the most important duties of an attorney's clerk.

LEGAL OPINIONS.—They are occasionally required to write disquisitions on some topic of law, and collect the authorities to support their opinions.

LAWS OF PARTICULAR STATES.—The more advanced students are assisted in the study of the laws of the particular States in which they intend to establish themselves.

LIBRARIES.—The students are furnished with the use of the elementary books, and have access to the College libraries, and to a valuable law library.

EXPENSES.—The terms of tuition, with constant use of text-books, and ordinary use of the library, are as follows, payable in advance, unless for satisfactory reasons. For the whole course of two years, one hundred and fifty dollars. For one year, eighty dollars. For less than one year, ten dollars a month. For more than one year and less than two years, seven dollars a month after the first year.

DEGREE.—The Degree of Bachelor of Laws will be conferred by the President and Fellows, on liberally educated students who have been members of the Department eighteen months, and have complied

with the regulations of the Institution, and passed a satisfactory examination. Those not liberally educated, will be graduated upon similar conditions, after two years' membership; and members of the Bar, after one year's membership subsequent to their admission to the Bar. The fee for the diploma is $5.

Medical Department.

THE FACULTY of the Medical Department consists of the President of the College, a Professor of Surgery, a Professor of Anatomy and Physiology, a Professor of Materia Medica and Therapeutics, a Professor of Chemistry and Pharmacy, a Professor of the Theory and Practice of Physic, and a Professor of Obstetrics.

Instruction is given also in Medical Jurisprudence and in Microscopy.

The annual course of lectures commences on Thursday, (Sept. 13th, 1860,) seven weeks after the College Commencement, and continues four months.

The Lectures on Chemistry are given at the Chemical Laboratory; —the Lecture-rooms of the other Professors are in the Medical College.

A Medical and Surgical Clinique is held every Wednesday, at the Connecticut Hospital, during the Lecture term, at which a variety of cases is presented, for consultation and operations, in presence of the class.

ACADEMICAL LECTURES.—The students are entitled to gratuitous admission to the course of Lectures on Anatomy and Physiology, given by Professor KNIGHT, during the spring term, to the Senior Class in the Academical Department. They also have admission to the various other Lectures in the Academical Department, on paying the fees of the several courses.

The new Medical College building on York street, has been carefully planned, so as to afford the most ample and convenient accommodations. The arrangements for Dissections are ample, and subjects are supplied on the most reasonable terms. The Anatomical Museum, the Cabinet of the Materia Medica, the Museum of the Yale Natural History Society, the Cabinet of Minerals, and the Libraries of the Medical and Academical Departments, are all open to students.

EXPENSES.—The Fees, which are required in advance, are $12,50 for each course, except that on Obstetrics, which is $6, with a Matriculation fee of $5—the whole amounting to $73,50. The tickets of all the Professors, or a part, may be taken in any one season. Those who have attended two full courses of Lectures in this Institution, are entitled to admission to future courses gratis. Those who have attended one full course in this Institution, and also one full course in another similar Medical Institution, will be admitted to a full course on paying the Matriculation fee. The graduation fee is $15;—fee for a license, including diploma, $4,50.

DEGREE.—By the Statutes of the State, the requirements for the Degree of Doctor in Medicine are three years' study for those who are not Bachelors of Arts, and two years' study for those who are; attendance upon two full courses of Lectures, either in this Institution, or some other of a similar character; the attainment of twenty-one years of age, and a good moral character; together with a satisfactory examination before the Board of Examiners for the State, at which the candidate must present a dissertation upon some subject connected with the medical sciences, written in a form prescribed by the Faculty. This Board consists of the Medical Professors of the College, *ex officio*, and an equal number of persons chosen by the Fellows of the Medical Society of the State. Licenses to practice are granted by the President of the Medical Society, upon the recommendation of the Board of Examiners, and candidates for a license must possess the same qualifications as those for a degree, except that attendance upon one course of Lectures only is required. The examination is held immediately after the close of the Lectures, when the licenses are granted and degrees conferred.

PRIVATE MEDICAL SCHOOL.

There is a Private Medical School for the purpose of daily recitation. The instructors are Doctors W. Hooker, P. A. Jewett, C. A. Lindsley and L. J. Sanford. The year is divided into two terms. The first term corresponds with the course of lectures of the Medical Institution. The second begins in the middle of February and extends to Commencement, having a vacation of a fortnight in the first part of May. Fees for the first term, $10; for the second, $40.

Department of Philosophy and the Arts.

The design of this Department is to furnish resident graduates and others, with the opportunity of devoting themselves to special branches of study, either not otherwise provided for, or not pursued as far as individual students may desire.

The branches intended to be embraced in this department are such in general as are not included under Theology, Law and Medicine; or more particularly, Mathematical Science, Physical Science and its application to the Arts, Metaphysics, Philology, Literature and History.

Instruction in this department may be given by Professors not belonging to the other departments, by the Academical professors, and by such others as the President and Fellows may approve.

Faculty.—The Instructors for the year, with the President, compose the Faculty of the department.

Preparatory Studies.—It is necessary that all students in philology and mathematical science, should come thoroughly prepared in the elements of those studies.

For the terms of entrance upon the several courses in the department, application may be made to the several instructors.

LECTURES AND INSTRUCTION.

Professor Gibbs, on General Philology.

Professor Noah Porter, on Psychology, Logic, and the History of Philosophy.

Professor Thacher—Lucretius and Latin Composition; instruction twice a week.

Professor Hadley—Pindar and Theocritus; instruction twice a week.

Professor Whitney will instruct in the Sanskrit language, and in the History, Antiquities, and Literature of India and other Oriental countries; also, in the comparative philology of the Indo-European languages, and the general principles of linguistic study. He will also give instruction to such as may desire it in the modern European languages.

Professor Newton.—Such branches of the Higher Mathematics and Mathematical Astronomy as may be agreed upon with the student.

Degree.—The Degree of Bachelor of Philosophy will be conferred by the President and Fellows, upon students in the Department of Philosophy and the Arts, after being connected with the Department for two years, and passing a satisfactory examination in two departments of science, and the French or German language. The fee for a diploma is $5.

In the case of students connected with the divisions of Chemistry or Engineering, the two departments of science on which this examination for a degree is held, must both be pursued in the same division of the school.

YALE SCIENTIFIC SCHOOL.

UNDER the Department of Philosophy and the Arts, the Yale Scientific School is organized to give systematic instruction in Natural Science, Chemistry, Agriculture and Engineering.

NATURAL SCIENCE, CHEMISTRY AND AGRICULTURE.

THIS division of the School is under the immediate supervision of Professors JAMES D. DANA, BENJAMIN SILLIMAN, JR., JOHN A. PORTER, GEORGE J. BRUSH, and SAMUEL W. JOHNSON, assisted in Analytical Chemistry by JOHN M. BLAKE, B. P.

LECTURES.

FIRST TERM.

General Chemistry—Professor SILLIMAN, Jr.

SECOND TERM.

Chemistry, and General Principles of Agriculture—Professor JOHNSON.
Chemistry of the Metals—Professor BRUSH.

THIRD TERM.

Geology—Professor DANA's Lectures.
Mineralogy—Professor BRUSH.
Organic Chemistry—Professor JOHN A. PORTER.
Use of the Blowpipe—Professor BRUSH.

The Lectures on Natural Philosophy, Meteorology and Astronomy are also accessible to the students.

PRACTICAL CHEMISTRY.—The *Analytical Laboratory*, in charge of Professors Johnson and Brush, is fully equipped with means of practical instruction in all branches of Analytical and Experimental Chemistry, and is open daily from 9 A. M. to 5 P. M. throughout the academic year. Students work through a course of Qualitative and Quantitative Analysis, and are afterwards guided in the study of any special department of Experimental Chemistry, or in original investigations. Previous study of chemistry is highly desirable, but not essential to admission. Special courses in *Qualitative Analysis* will be given each term.

The whole course occupies two years. Students are received to a full or partial course at their option.

The terms and vacations are the same as in the Academical Department.

EXPENSES.—Matriculation fee, $3. For Laboratory instruction, and supplies of ordinary reagents and materials, fires, apparatus, and use of Chemical Library, $51 per term. Cost of apparatus and materials to be supplied by the student, $5 to $10 per term. Lectures—to Laboratory students, free; to others, $3 to $10 each course. All fees to be paid in advance.

TEXT-BOOKS.—*General Chemistry*, Miller, Graham, Regnault, Gregory, Silliman, Porter, Cooke. *Analytical Chemistry*, Rose, Fresenius, Will, Bolley, Liebig, Woehler. *Mineralogy*, Dana. *Geology*, Lyell, Phillips. *Agriculture*, Norton's Elements, Stoeckhardt's Chemical Field Lectures, Johnston's Lectures.

The School is now provided with a spacious building, for which, with its enlargements and improvements, the College is indebted to the munificent liberality of JOSEPH E. SHEFFIELD, Esq., of New Haven. It will probably be fully ready for use before the end of the present College year.

It is intended to furnish a course of eighty or more Lectures on Agriculture and kindred subjects, to be delivered by gentlemen chiefly from abroad, in the large hall of this building, in February, 1860. The charge for the whole course will be $10. Further information respecting the course may be obtained by applying to Prof. JOHN A. PORTER.

Students in the Scientific School have access to the College Library and to the Mineralogical and Geological collections.

ENGINEERING.

This Division of the School is under the supervision of Professor WILLIAM A. NORTON, assisted by Mr. CHARLES S. KITTREDGE and Mr. LOUIS BAIL.

The Course of instruction embraces the following studies and exercises;

Surveying, in all its branches, with the adjustment and use of instruments, and operations in the field.

Drawing—topographical, geometrical, mechanical, architectural; with shading and tinting.

Descriptive Geometry—Shades and Shadows—Linear Perspective—Isometrical Projection; pursued in connection with systematic exercises in geometrical drawing.

Applications of Descriptive Geometry to Masonry and Stone-cutting, in the construction of Arches, &c., and to Civil and Mechanical Engineering, generally.

The Principles of Architecture.

Analytical Geometry, and Differential and Integral Calculus.

Mechanics, including Hydraulics and Pneumatics;—Application of Mechanics to Machinery and Engineering.

The Science of Construction in its various departments; with a discussion of the nature, strength, and mode of preparation of building materials.

Engineering field-work; or the location of roads, surveys for excavations and embankments, &c. Use of astronomical instruments for the determination of time, latitude and longitude, &c.

LECTURES.—The lectures of Professor SILLIMAN, Jr., during the second term, on the Chemistry of Building Materials, are open to the students; and also the lectures of Professor DANA, on Mineralogy and Geology, those of Professor SILLIMAN, Jr., on General Chemistry, and those on Natural Philosophy, and Astronomy, in the Academical Department.

The full course occupies two years. Students will be admitted to a full or a partial course, at their option.

The preparatory mathematical studies required for admission to the full course, are Arithmetic, Algebra, Geometry, and Trigonometry.

The sessions coincide with those in the Academical Department.

EXPENSES.—The tuition fee for the full course, for each term, is $33, to be paid in advance. The fee for the course of Surveying alone is $12. There is no charge for incidental expenses.

Library and Cabinet.

THE COLLEGE LIBRARY is designed for the use of the several Faculties of the College, students connected with the Theological, Law, Medical and Philosophical Departments, and the members of the Senior and Junior Classes in the Academical Department.

Each of the professional schools has connected with it a separate library.

The whole number of books in the College Library beside pamphlets is about		37,000
" "	in the Libraries of the professional schools, -	5,000
" "	in the Libraries of the Literary Societies, -	25,000
Total, - - - - - - - - - - - -		67,000

The Library of the American Oriental Society is now kept in the College Library-Building.

THE MINERALOGICAL AND GEOLOGICAL CABINET, embracing about thirty thousand specimens, is accessible to the students of the several departments.
